Phyllis Shand Allfrey:

Phyllis Shand Allfrey Lizabeth Paravisini-Gebert,1996 Phyllis Shand Allfrey is the first biography of one of the Caribbean's most intriguing writers and politicians Allfrey 1908 1986 is best known as the author of *The Orchid House* a fictionalized account of her early life that was turned into a highly acclaimed film for British television Born to a prominent family of formerly wealthy sugar planters in Dominica Allfrey followed an unexpected path a rising novelist who is often paired with Jean Rhys in critical discussion and Fabian socialist in England and the United States she returned to Dominica to organize the peasantry and estate workers into the island's first political party Ostracized by the white elite into which she was born she led the Dominica Labour party to power and became the West Indian Federation's only woman and only white minister only to find herself expelled from the party when the rise of black nationalism made it expedient The biography recreates Allfrey's life as it unfolds against the background of twentieth century Caribbean political and literary history from the decline of the planter class through the rise of party politics and the efforts to join the anglophone West Indies into a federation to the troubled sixties and seventies decades marked by racial violence and the emergence of the former British territories from colonial control This volume includes five autobiographical stories that have long been out of print *It Falls Into Place* Phyllis Shand Allfrey,2004 These tantalizing stories set in Dominica New York and London yet always steeped in an unmistakably West Indian identity probe beneath the surface of colonial life often drawing on autobiographical experience **The Orchid House** Phyllis Shand Allfrey,1997 Often praised for the clear-sightedness of its analysis of the Dominican historical process *The Orchid House* stands at a crucial intersection of West Indian politics It was during this period that the colonized took over from the colonizer the direction of local governments Allfrey a Fabian socialist and founder of Dominica's first political party articulates in this novel the central tenet of a political philosophy that guided a lifetime of grassroots activism that profound changes had to take place in the power structures of Caribbean societies to bring social justice to its peoples and that those who persevered in seeking to revive the past were doomed **The Poetry of Phyllis Shand Allfrey** Arthur J. Seymour,198? **Love for an Island** Phyllis Shand Allfrey,2017-09-22 *Love for an Island* brings together the poems of Phyllis Shand Allfrey for the first time Written over four decades the collection reflects Allfrey's personal circumstances of place and politics both tropical and temperate Allfrey 1908 1986 was a white Dominican who defied her class and colour in her politics and her writing **Her True-true Name** Pamela Mordecai,Betty Wilson,1989 31 women writers from throughout the Caribbean express the loss and the longing the pride and passion of the Caribbean identity **Contemporary Caribbean Women's Poetry** Denise deCaires Narain,2003-08-29 *Contemporary Caribbean Women's Poetry* provides detailed readings of individual poems by women poets whose work has not yet received the sustained critical attention it deserves These readings are contextualized both within Caribbean cultural debates and postcolonial and feminist critical discourses in a lively and engaged way revisiting nationalist debates as well as topical

Levy When George and Sabine Harwood arrive in Trinidad from England George is immediately seduced by the beguiling island while Sabine feels isolated heat fatigued and ill at ease As they adapt to new circumstances their marriage endures for better or worse despite growing political unrest and racial tensions that affect their daily lives But when George finds a cache of letters that Sabine has hidden from him the discovery sets off a devastating series of consequences as other secrets begin to emerge

Jean Rhys Elaine Savory,1998 Jean Rhys has long been central to debates in feminist modernist Caribbean British and postcolonial writing Elaine Savory's study first published in 1999 incorporates and modifies previous critical approaches and is a critical reading of Rhys's entire oeuvre including the stories and autobiography and is informed by Rhys's own manuscripts Designed both for the serious scholar on Rhys and those unfamiliar with her writing Savory's book insists on the importance of a Caribbean centred approach to Rhys and shows how this context profoundly affects her literary style Informed by contemporary arguments on race gender class and nationality Savory explores Rhys's stylistic innovations her use of colours her exploitation of the trope of performance her experiments with creative non fiction and her incorporation of the metaphysical into her texts This study offers a comprehensive account of the life and work of this most complex and enigmatic of writers

The Oxford History of the Novel in English Simon Gikandi,2016-10-03 Why did the novel take such a long time to emerge in the colonial world And what cultural work did it come to perform in societies where subjects were not free and modes of social organization diverged from the European cultural centers where the novel gained its form and audience Answering these questions and more Volume 11 The Novel in Africa and the Caribbean since 1950 explores the institutions of cultural production that exerted influence in late colonialism from missionary schools and metropolitan publishers to universities and small presses How these structures provoke and respond to the literary trends and social peculiarities of Africa and the Caribbean impacts not only the writing and reading of novels in those regions but also has a transformative effect on the novel as a global phenomenon Together the volume's 32 contributing experts tell a story about the close relationship between the novel and the project of decolonization and explore the multiple ways in which novels enable readers to imagine communities beyond their own and thus made this form of literature a compelling catalyst for

cultural transformation The authors show that even as the novel grows in Africa and the Caribbean as a mark of the elites mastery of European form it becomes the essential instrument for critiquing colonialism and for articulating the new horizons of cultural nationalism Within this historical context the volume examines works by authors such as Chinua Achebe Nadine Gordimer George Lamming Jamaica Kincaid V S Naipaul Zoe Wicomb J M Coetzee and many others **CARIBBEAN-OPEDIA** samuel nathan,2013-01-01 Caribbeab Opedia is a collection of profiles about individuals who contributed or made inputs to the development of our region It serves as a foundation or starting point suitable for further development that will enhance knowledge about efforts that we as a people invested towards where we are today **Searching for Safe Spaces** Myriam Chancy,1997-09-05 Home Exile Return Words heavy with meaning and passion For Myriam Chancy these three themes animate the lives and writings of dispossessed Afro Caribbean women Understanding exile as flight from political persecution or types of oppression that single out women Chancy concentrates on diasporic writers and filmmakers who depict the vulnerability of women to poverty and exploitation in their homelands and their search for safe refuge These Afro Caribbean feminists probe the complex issues of race nationality gender sexuality and class that limit women s lives They portray the harsh conditions that all too commonly drive women into exile depriving them of security and a sense of belonging in their adopted countries the United States Canada or England As they rework traditional literary forms artists such as Joan Riley Beryl Gilroy M Noubese Philip Dionne Brand Makeda Silvera Audre Lorde Rosa Guy Michelle Cliff and Mari Chauvet give voice to fro Caribbean women s alienation and longing to return home Whether their return is realized geographically or metaphorically the poems fiction and film considered in this book speak boldly of self definition and transformation **Sea Change** Christina Gerhardt,2023-05-23 Low lying island nations are least responsible for global warming but they are already suffering its impacts severely and disproportionately According to the International Panel on Climate Change island nations are responsible for 0.03% of global emissions A weave of essays maps poems and illustrations Sea Change presents the impacts of and solutions to sea level rise An essay drawing on interviews scientific reports academic scholarship and archival research shares their histories present day challenges and efforts toward livable futures A map shows the inundation zones Poems breathe life into the analysis **Encyclopedia of Post-Colonial Literatures in English** Eugene Benson,L.W. Conolly,2004-11-30 Post Colonial Literatures in English together with English Literature and American Literature form one of the three major groupings of literature in English and as such are widely studied around the world Their significance derives from the richness and variety of experience which they reflect In three volumes this Encyclopedia documents the history and development of this body of work and includes original research relating to the literatures of some 50 countries and territories In more than 1 600 entries written by more than 600 internationally recognized scholars it explores the effect of the colonial and post colonial experience on literatures in English worldwide **Hotbeds** Pia Thielmann,2004 Inter racial relationships may be complicated by social attitudes and mind sets born in colonialism slavery or more modern invidious

European or African racism or they may be challenged by differing expectations of cultural norms Drawing on theories of black American cultural criticism African nationalism and gender analysis the critic Pia Thielmann analyses a range of novels from three continents which in different ways thematise the personal cultural and social aspects of relationships and which in a manner of respect are deemed to be crossing social boundaries **Centring the Periphery** Patrick L. Baker, 1994-03-01

The concept of centring is used to mean ordering the world and Baker links this to ideas in chaos theory which views order and disorder as mutually generative phenomena rather than static antinomies Thus strategies to control disorder and create and maintain order may suddenly precipitate change Baker's application of these theories to an island nation that has received little detailed attention in the past makes this a highly original work as does his holistic post modern perspective In addition to presenting a sensitive historical analysis he confronts the dilemma of meaning in peripheral situations and the experience of dependency in the world system *Centring the Periphery* is germane to understanding the majority of the world's people and makes a significant contribution to the study of society in developing nations
