Does the Earth Care? Mick Smith,Jason Young,2022-04-12 Rethinking our relationship with Earth in a time of environmental emergency The world is changing Progress no longer has a future but any earlier sense of Earth as providential seems of merely historical interest The apparent absence of Earthly solicitude is a symptom and consequence of these successive Western modes of engagement with the Earth now exemplified in global capitalism Within these constructs Earth can only appear as constitutively indifferent to the fate of all its inhabitants The provisional ecology outlined in Does the Earth Care drawing on a variety of literary and philosophical sources from Richard Jefferies and Robert Macfarlane to Martin Heidegger and Gaia theory fundamentally challenges that assumption while offering an Earthly alternative to either cold realism or alienated despair in the face of impending ecological disaster Forerunners is a thought in process series of breakthrough digital works Written between fresh ideas and finished books Forerunners draws on scholarly work initiated in notable blogs social media conference plenaries journal articles and the synergy of academic exchange This is gray literature publishing where intense thinking change and speculation take place in scholarship

The Earth Keeper's Handbook Loren Swift,2019-11-06 In The Earth Keeper s Handbook you ll find stories inspiration and experiential exercises to help you do the inner work to come in to true connection with yourself and your heart so that you can then do the outer work that this planet so sorely needs It will show you how you can begin to more fully trust your place in the cosmos so that you can step in to greater connection and collaboration with other human beings with focus and purpose This is truly a handbook you ll come back to again and again along your journey whether to deepen your own spiritual practice to navigate the inevitable tension and conflict that will arise in collaboration with others or to ground back in to unity with the earth You ll enjoy how Loren weaves the personal the spiritual and the intellectual perspectives that she has gleaned from a lifetime of exploring connection to self others the earth and the divine
