Racism In Europe 1870 :

Racism in Europe Neil MacMaster, 2017-03-08 The study of modern racism has tended to treat anti-Semitism and anti-black racism as separate and unconnected phenomena. This innovative study argues that a full understanding of the origins and development of racism in Europe after 1870 needs to examine the structure and interrelationships between the two dominant forms of prejudice. Contrary to expectation, anti-black racism was not confined to the colonial maritime nations of western Europe but perpetrated even the rural societies of central and eastern Europe. Likewise, anti-Semitism could flourish even in the almost total absence of Jews. MacMaster explores the conditions under which modern political movements faced with the crisis of modernity began to draw upon and mobilise the negative stereotypes that through the development of the mass media had become almost universal features of popular culture. By weaving together the changing spatial and temporal dimensions of anti-Semitic and anti-black prejudice, the study provides a fresh and more global framework for understanding modern racism.

Racism and Anti-Racism in Europe Alana Lentin, 2004-06-20 Remarkable a major contribution to our understanding and handling of one of the crucial contemporary issues that acquires more gravity by the day. Zygmunt Bauman. This is an in-depth sociological study of the phenomenon of anti-racism as both political discourse and social movement practice in western Europe. Lentin develops a comparative study of anti-racism in Britain, France, Italy, and Ireland. While race and racism have been submitted to many profound analyses, anti-racism has often been dealt with as either the mere opposite of racism or as a theme for prescriptives or polemics by those concerned with the persistence of racist discrimination. By contrast, this book views anti-racism as a variety of discourses that are central to the understanding of the politics of modern states. Examining anti-racism gives us insights not only into current debates on citizenship, immigration, and Europeanisation but it also crucially assists us in understanding the nature of race, racism, and racialisation themselves. At a time of mounting state racism against asylum seekers, migrants, and refugees throughout Europe and beyond, this book provides a much-needed exploration of the discourse of anti-racism that shapes
