

Brain Development

Babies are born learning. From birth to age 3 are critical years for the development of language skills that are foundational for future learning success.

Parents are a child's first and most important teacher.

Language

The number of words that a child knows when he or she enters kindergarten is the most important predictor of a child's success or failure.

Reading aloud grows your child's vocabulary and introduces many words and concepts that you might not use in everyday conversation.

Knowledge

Books are a pleasure, yes, and they are also informative. You and your child can learn something new when you read aloud.

Why Read Aloud?

Love of Reading

Parents that read aloud demonstrate that reading is important, that reading is pleasurable, that reading is valued.

Bonding

Is there anything better than sharing a good book with a child in your lap?

Literacy Skills

Vocabulary. Phonics. Familiarity with the printed word.

Storytelling. Comprehension.

Reading aloud is invaluable for building literacy skills.
