Mills, 2017-09-08 The discredit of a certain brand of capitalism and the managers that practice it continues apace The increasing lack of tolerance for short term thinking and a systematic neglect of the social regulatory and economic conditions in which business ought to operate means we are entering a time of trouble and questions an era of economic social and environmental turbulence There is a critical need for business educators and trainers to expose students and managers to these issues to examine explore and understand the different multifaceted complex phenomena of our late capitalist era There is also a need to foster a climate for future and current business managers to reflect feel and think differently both ethically and cognitively The 16 innovative case studies in *The Dark Side Critical Cases on the Downside of Business* are designed for this very purpose to provoke reflection and debate to challenge and change perceptions and to create responsible managers The cases are innovative in two ways First in terms of content they acknowledge the diversity of actors and interests in and around organizations They contain different levels of analysis and propose different points of view and logics They recognize that decisions that seem sound when they are made may actually contain the seeds of their later failure Second these cases are innovative in terms of format Whereas most cases are formatted around decision making situations these are more diverse and open ended This stimulates the use of judgment the capacity to synthesize integrate and balance short and long term effects appreciate effects on different groups and learn to listen and evaluate Whereas decision making is the key skill when confronting complicated issues and situations judgment making relies on experience and is a far better tool in the complex murky gray areas typical of business ethics The cases included here are all finalists or award winners from the first seven years of the Dark Side of Business Case Competition a joint event of the Academy of Management's Critical Management Studies Section and Management Education Section In many areas of management case studies are almost exclusively devoted to best practice cases or difficult decisions faced by basically well managed firms When educators look for resources to illustrate to students the more typical cases let alone the really scandalous practices of the worst firms the cupboard is almost entirely bare From the beginning the Dark Side competition aimed at encouraging case studies that integrate socio political issues with organizational dynamics thus contextualizing organizational and

management problems within the broader system of capitalism These cases comprise a diverse and rich collection from a range of countries continents and issues and focus on interactions in business organizations as well as between business organizations and groups and societies The Dark Side Critical Cases on the Downside of Business is divided into four sections The first sheds light on gray areas in the behavior of businesses The second concerns the interactions between business and local communities in diverse countries The third concerns crises and specifically how firms may create or manage them Finally the fourth section concerns gray areas in business behavior in the global context The Dark Side Critical Cases on the Downside of Business will be an essential purchase for educators and is expected to be a widely used resource at all levels of management education Online Teaching Notes to accompany each chapter are available on request with the purchase of the book

Boje, 2008-08-28 A volume in Ethics in Practice Series Editors Robert A Giacalone Temple University and Carole L Jurkiewicz Louisiana State University The purpose of this book is to develop ethical traditions based on Kant Horkheimer and others to extend beyond the level of individual behavior to address the social system level in business and public administration It is not enough to try to be good or ethical as individuals when it is systemic processes which are fostering unethical behavior Horkheimer's books *Eclipse of Reason* and *Critique of Instrumental Reason* and his early and now classic essay *Materialism and Morality* ask for a reformation of Kantian ethics The reform is sought because the categorical imperative within the context of an individualism capitalism serves to worsen the difference between business ethics and moral philosophy Therefore Horkheimer asks that the maxims that would be made universal would be done at the level of people organizing with others This is the level addressed in this volume as we seek to change the system that is producing and reproducing unethical behaviors      **Michel Foucault, Poder E Análise Das Organizações** Rafael Alcadipani da Silveira, 2005      *Studying Organization* Stewart R Clegg, Stewart Clegg, Cynthia Hardy, 1999-04-28 In response to the needs of lecturers the acclaimed Handbook of Organization Studies has been made available as two major paperback textbooks In this the first of a two volume paperback edition of the landmark Handbook of Organization Studies editors Stewart Clegg and Cynthia Hardy survey the field of organization studies *Studying Organization* is an ideal textbook around which to build courses on organization theory and research methodology Central to the enterprise has been a concern to reflect and honour the manifest diversity of the field including recognition of the extent to which the very notion of a single field of organization studies is debated Part One
