Reading Writing Race The Desegregation Of The Charlotte Schools:

Reading, Writing, and Race Davison M. Douglas, 2012-01-01 Using Charlotte North Carolina as a case study of the dynamics of racial change in the moderate South Davison Douglas analyzes the desegregation of the city's public schools from the Supreme Court's 1954 *Brown v Board of Education* decision through the early 1970s when the city embarked upon the most ambitious school busing plan in the nation In charting the path of racial change Douglas considers the relative efficacy of the black community's use of public demonstrations and litigation to force desegregation He also evaluates the role of the city's white business community which was concerned with preserving Charlotte's image as a racially moderate city in facilitating racial gains Charlotte's white leadership anxious to avoid economically damaging racial conflict engaged in early but decidedly token integration in the late 1950s and early 1960s in response to the black community's public protest and litigation efforts The insistence in the late 1960s on widespread busing however posed integration demands of an entirely different magnitude As Douglas shows the city's white leaders initially resisted the call for busing but eventually relented because they recognized the importance of a stable school system to the city's continued prosperity

[Going to Hell to Get the Devil](#) J. Christopher Schutz, David Goldfield, 2024-03-20 The 1968 burning of the Lazy B Stables in Charlotte North Carolina attracted little notice beyond coverage in local media By the mid 1970s however the fire had become the center of a contentious and dubious arson case against a trio of Black civil rights activists who became known as the Charlotte Three The charges against the men garnered interest from federal law enforcement agents investigative journalists including one who later earned a Pulitzer Prize for coverage of the trials numerous New Left and Black Power activists and Amnesty International which declared the defendants political prisoners In *Going to Hell to Get the Devil* J Christopher Schutz offers the first comprehensive examination of this controversial case and its outcome In the 1960s and 1970s Charlotte's leaders sought to portray their home as a placid business friendly and racially moderate community When New Left and Black Power

activists threatened that stability city leaders employed a variety of means to silence them including the use of law enforcement against African Americans they deemed too zealous In the Charlotte Three case prosecutors paid prisoners for testimony against the Black activists on trial resulting in their convictions with lengthy prison sentences The unwanted publicity surrounding the case of the Charlotte Three became a critical pivot point in the Queen City's post World War II trajectory Going to Hell to Get the Devil tells more than the story of an arson case it also tells the story of the South's future as the fate of the Charlotte Three became emblematic of the decline of the African American freedom struggle and the causes it championed

After the Dream Timothy J. Minchin, John A. Salmond, 2011-03-25 Martin Luther King's 1965 address from Montgomery, Alabama, the center of much racial conflict at the time and the location of the well-publicized bus boycott a decade earlier is often considered by historians to be the culmination of the civil rights era in American history In his momentous speech King declared that segregation was on its deathbed and that the movement had already achieved significant milestones Although the civil rights movement had won many battles in the struggle for racial equality by the mid 1960s including legislation to guarantee black voting rights and to desegregate public accommodations the fight to implement the new laws was just starting In reality King's speech in Montgomery represented a new beginning rather than a conclusion to the movement a fact that King acknowledged in the address *After the Dream* Black and White Southerners since 1965 begins where many histories of the civil rights movement end with King's triumphant march from the iconic battleground of Selma to Montgomery Timothy J. Minchin and John Salmond focus on events in the South following the passage of the 1964 Civil Rights Act and the 1965 Voting Rights Act *After the Dream* examines the social economic and political implications of these laws in the decades following their passage discussing the empowerment of black southerners white resistance accommodation and acceptance and the nation's political will The book also provides a fascinating history of the often overlooked period of race relations during the presidential administrations of Ford, Carter, Reagan and both George

Daugherty, Charles C. Bolton, 2011-05 This is the first effort to provide a broad assessment of how well the Brown v Board of Education decision that declared an end to segregated schools in the United States was implemented Written by a distinguished group of historians the twelve essays in this collection examine how African Americans and their supporters in twelve states Arkansas North Carolina Virginia South Carolina Georgia Mississippi Florida Delaware Missouri Indiana Nevada and Wisconsin dealt with the Court's mandate to desegregate with all deliberate speed The process followed many diverse paths Some of the common themes in these efforts were the importance of black activism especially the crucial role played by the NAACP entrenched white opposition to school integration which wasn't just a southern state issue as is shown in Delaware Wisconsin and Indiana and the role of the federal government a sometimes inconstant and sometimes reluctant source of support for implementing Brown *Students of the Dream* Ruth Carbonette Yow, 2017-11-27 Marietta High once a flagship public school northwest of Atlanta has become a symbol of the resegregation that is sweeping across the American South Ruth Carbonette Yow argues for a revitalized commitment to integration but one that challenges many orthodoxies of the civil rights struggle including colorblindness *New Voyages to Carolina* Larry E. Tise, Jeffrey J. Crow, 2017-09-14 New Voyages to Carolina offers a bold new approach for understanding and telling North Carolina's history Recognizing the need for such a fresh approach and reflecting a generation of recent scholarship eighteen distinguished authors have sculpted a broad inclusive narrative of the state's evolution over more than four centuries The volume provides new lenses and provocative possibilities for reimagining the state's past Transcending traditional markers of wars and elections the contributors map out a new chronology encompassing geological realities the unappreciated presence of Indians blacks and women religious and cultural influences and abiding preferences for industrial development within the limits of progressive politics While challenging traditional story lines the authors frame a candid tale of the state's development Contributors Dorothea V Ames East Carolina University Karl E Campbell Appalachian State University James C Cobb University of Georgia Peter A Coclanis University of North Carolina at Chapel Hill Stephen Feeley McDaniel College Jerry Gershennhorn North Carolina Central University Glenda Elizabeth Gilmore Yale University Patrick Huber Missouri University of Science and Technology Charles F Irons Elon University David Moore Warren Wilson College Michael Leroy Oberg State University of New York College at Geneseo Stanley R Riggs East Carolina University Richard D Starnes Western Carolina University Carole Watterson Troxler Elon University Bradford J Wood Eastern Kentucky University Karin Zipf East Carolina University **The Senator and the Sharecropper** Chris Myers Asch, 2011-02-01 In this fascinating study of race politics and economics in Mississippi Chris Myers Asch tells the story of two extraordinary personalities Fannie Lou Hamer and James O Eastland who represented deeply opposed sides of the civil rights movement Both **A Question of Justice** Gordon E. trailblazers for education reform in the Sunbelt South In southern politics 1970 marked a watershed A group of southern governors entered office that year and changed both the way the nation looked at the South and the way the constituents of those states viewed themselves Reubin Askew in Florida John West in South Carolina Jimmy Carter in Georgia and Albert Brewer in Alabama all represented a new breed of progressive moderate politician that helped demolish Jim Crow segregation and the dual economies societies and educational systems notorious to the Sunbelt South Historian Gordon Harvey explores the political lives and legacies of three of these governors examining the conditions that led to such a radical change in political leadership the effects their legislative agendas had on the identity of their states and the aftermath of their terms in elected office A common thread in each governor s agenda was educational reform Albert Brewer s short term as Alabama governor resulted in a sweeping education package that still stands as the most progressive the state has seen Reubin Askew far more outspoken than Brewer won the Florida gubernatorial election through a campaign that openly promoted desegregation busing and tax reform as a means of equal school funding John West s commitment to a policy of inclusion helped allay fears of both black and white parents and made South Carolina s one of the smoothest transitions to integrated schools As members of the first generation of New South governors Brewer Askew and West played the role of trailblazers Their successful assaults on economic and racial injustice in their states were certainly aided by such landmark events as Brown v Board of Education the civil rights movement and the expansion of voting rights all of which sounded the death knell for the traditional one party segregated South But in this critical detailing of their work for justice we learn how these reform minded men made education central to their gubernatorial terms and in doing so helped redefine the very character of the place they called home

Court that have affected the freedom and rights of Black Americans since 1800 It lends coherence to what could otherwise be a disjointed chronicle of cases and connects the events of the past to the current era of racial inequality *American Education* Wayne J. Urban, Jennings L. Wagoner, Jr., Milton Gaither, 2019-01-22 *American Education A History* Sixth Edition is a comprehensive highly regarded history of American education from precolonial times to the present Chronologically organized it provides an objective overview of each major period in the development of American education setting the discussion against the broader backdrop of national and world events In addition to its in depth exploration of Native American traditions including education prior to colonization it also offers strong ongoing coverage of minorities and women This much anticipated sixth edition brings heightened attention to the history of education of individuals with disabilities of classroom pedagogy and technology of teachers and teacher leaders and of educational developments and controversies of the twenty first century Encyclopedia of American Urban History David Goldfield, 2007 Publisher description **The Unteachables** Keith A. Mayes, 2023-01-24 How special education used disability labels to marginalize Black students in public schools The *Unteachables* examines the overrepresentation of Black students in special education over the course of the twentieth century As African American children integrated predominantly white schools many were disproportionately labeled educable mentally retarded EMR learning disabled LD and emotionally behavioral disordered EBD Keith A Mayes charts the evolution of disability categories and how these labels kept Black learners segregated in American classrooms The civil rights and the educational disability rights movements Mayes shows have both collaborated and worked at cross purposes since the beginning of school desegregation Disability rights advocates built upon the opportunity provided by the civil rights movement to make claims about student invisibility at the level of intellectual and cognitive disabilities Although special education ostensibly included children from all racial groups educational disability rights advocates focused on the needs of white disabled students while school systems used disability discourses to malign and marginalize Black students From the 1940s to the present social science researchers policymakers school administrators and teachers have each contributed to the overrepresentation of Black students in special education Excavating the deep seated racism embedded in both the public school system and public policy The *Unteachables* explores the discriminatory labeling of Black students and how it indelibly contributed to special education disproportionality to student discipline and push out practices and to the school to prison pipeline effect **New Deal / New South** Anthony J. Badger, 2007-06-01 The twelve essays in this book several published here for the first time represent some of Tony Badger s best work in his ongoing examination of how white liberal southern politicians who came to prominence in the New Deal and World War II handled the race issue when it became central to politics in the 1950s and 1960s Franklin Roosevelt in the 1930s thought a new generation of southerners would wrestle Congress back from the conservatives The Supreme Court thought that responsible southern leaders would lead their communities to general school desegregation after the Brown decision John F Kennedy believed that moderate

southern leaders would with government support facilitate peaceful racial change Badger s writings demonstrate how all of these hopes were misplaced Badger shows time and time again that moderates did not control southern politics Southern liberal politicians for the most part were paralyzed by their fear that ordinary southerners were all too aroused by the threat of integration and were reluctant to offer a coherent alternative to the conservative strategy of resistance *Brown v. Board of Education* James T. Patterson,2001-03-01 2004 marks the fiftieth anniversary of the Supreme Court s unanimous decision to end segregation in public schools Many people were elated when Supreme Court Chief Justice Earl Warren delivered *Brown v Board of Education of Topeka* in May 1954 the ruling that struck down state sponsored racial segregation in America s public schools Thurgood Marshall chief attorney for the black families that launched the litigation exclaimed later I was so happy I was numb The novelist Ralph Ellison wrote another battle of the Civil War has been won The rest is up to us and I m very glad What a wonderful world of possibilities are unfolded for the children Here in a concise moving narrative Bancroft Prize winning historian James T Patterson takes readers through the dramatic case and its fifty year aftermath A wide range of characters animates the story from the little known African Americans who dared to challenge Jim Crow with lawsuits at great personal cost to Thurgood Marshall who later became a Justice himself to Earl Warren who shepherded a fractured Court to a unanimous decision Others include segregationist politicians like Governor Orval Faubus of Arkansas Presidents Eisenhower Johnson and Nixon and controversial Supreme Court justices such as William Rehnquist and Clarence Thomas Most Americans still see *Brown* as a triumph but as it Patterson shrewdly explores the provocative questions that still swirl around the case Could the Court or President Eisenhower have done more to ensure compliance with *Brown* Did the decision touch off the modern civil rights movement How useful are court ordered busing and affirmative action against racial segregation To what extent has racial mixing affected the academic achievement of black children Where indeed do we go from here to realize the expectations of Marshall Ellison and others in 1954 *The African American Experience* Arvarh E. Strickland,Robert E. Weems Jr.,2000-11-30 Compared to the early decades of the 20th century when scholarly writing on African Americans was limited to a few titles on slavery Reconstruction and African American migration the last thirty years have witnessed an explosion of works on the African American experience With the Civil Rights and Black Power movements of the 1960s came an increasing demand for the study and teaching of African American history followed by the publication of increasing numbers of titles on African American life and history This volume provides a comprehensive bibliographical and analytical guide to this growing body of literature as well as an analysis of how the study of African Americans has changed
