Austinian Themes Marina Sbisà, 2024-06-27 *Austinian Themes* offers a reconstruction of philosophical views on several themes developed by J L Austin Exploring Austin s work in detail through a series of thematically organized chapters Marina Sbis draws on both published work as well as unpublished manuscript notes to offer a defence of Austin s speech act theory characterized by a specific notion of illocution against some important criticisms Sbis offers a reconstruction of Austin s responsibility based conception of action drawing on his remarks on acts and actions in *How to Do Things with Words* and in later papers Exploring Austin s contributions to epistemology and the philosophy of perception including his realist stance anti scepticism and presentational view of perception Sbis analyses the roles that he assigns to knowledge in the dynamics of assertion On the theme of truth Austin s claims are expounded and explained as worthy of reassessment Other chapters explore the ways in which Austin deals with sense reference family resemblances truth falsity assessments and context dependence Austin s most famous statement of method as outlining a linguistic phenomenology is cast as analogous to Husserl s phenomenology in adopting an epoch which isolates language rather than consciousness a reading which helps to clarify several characteristic positions adopted by Austin On metaphilosophical themes Sbis analyses the notion of ordinariness distinguishing it from common sense and the endorsement of the Linguistic Turn approaching it instead in terms of the by default nature of the social bond and conversational cooperation Various recurrent aspects of Austin s philosophy are illuminated the opposition to dichotomies the attention paid to intersubjectivity the commitment to a sober philosophy and a strong sense of human situatedness

Ornament and Order Dr Rafael Schacter, 2014-05-28 Based on an in depth ethnographic study working with some of the world s most influential Independent Public Artists this book takes a completely new approach Placing these illicit aesthetic practices within a broader historical political and aesthetic context it argues that they are in fact both intrinsically ornamental working within a classic architectonic framework as well as innately ordered within a highly ritualized performative structure Rather than disharmonic destructive forms rather than ones solely working within the dynamics of the market these insurgent images are seen to reface rather than deface the city operating within a modality of contemporary civic ritual

A Nietzschean Metaethics David Emmanuel Rowe, 2019-10-17 This book develops a novel interpretation of the late nineteenth century German philosopher Friedrich Nietzsche as holding a distinct and original metaethical position a theory about our practice of ethics David Emmanuel Rowe characterizes it as a human centered metaethics A central achievement of A Nietzschean Metaethics is to bring Nietzsche into a conversation with the analytic metaethical tradition To do so Rowe interprets Nietzsche s use of such concepts as the notorious will to power his ideal agent the superman or bermensch nihilism the eternal recurrence Perspectivism and Being and Becoming

The result is a view of Nietzsche as a radical moral error theorist which is to say he defends the view that all statements that appeal to some value for their truth are false This theory is radical because Nietzsche argues that insofar as language requires certain concepts for its truth it is in error in virtue of an appeal to some value Rowe also offers a view where the increase in one's power is a standard by which one can make sense of Nietzsche's so-called re-evaluation of all values By means of this resolution Nietzsche criticizes some contemporary themes in metaethics such as particular views about moral motivation reasons moral error theory and agency

Embodying Data Qi Li, 2020-06-19 This book investigates a new interactive data visualisation concept that employs traditional Chinese aesthetics as a basis for exploring contemporary digital

technological contexts It outlines the aesthetic approach which draws on non Western aesthetic concepts specifically the Yijing and Taoist cosmological principles and discusses the development of data based digital practices within a theoretical framework that combines traditional Taoist ideas with the digital humanities The book also offers a critique of the Western aesthetics underpinning data visualisation in particular the Kantian sublime which prioritises the experience of power over the natural world viewed at a distance Taoist philosophy in contrast highlights the integration of the surface of the body and the surface of nature as a Taoist body rather than promoting an opposition of mind and body The book then explores the transformational potential between the human body and technology particularly in creating an aesthetic approach spanning traditional Chinese aesthetics and gesture based technology Representing a valuable contribution to the digital humanities the book helps readers understand data based artistic practices while also bringing the ideas of traditional Chinese aesthetics to Western audiences In addition it will be of interest to practitioners in the fields of digital art and data visualisation seeking new models

What Should I Do? Elisa Mai, 2011-01-06 Is it ever OK to be dishonest Is it wrong to enjoy violent video games or to cheat on one's tax returns Should we be vegetarians When is war justified Are there any moral facts or is morality relative Life throws ethical questions at us every day Some are momentous and difficult while others are relatively trivial and easily worked out still others lodge themselves in our heads and bother us for years We regularly encounter controversial issues such as prostitution abortion or racial profiling tricky conundrums Would I be wrong to take advantage of my teacher's forgetfulness When should I allow my teenage daughter to have a boyfriend Are we responsible for our emotions and classic problems What is the relation between religion and morality Is suicide wrong Why should we be moral Philosophers have engaged with these questions for as long as there have been philosophers but most people have had no exposure to the wide variety of arguments and positions that they have offered The website AskPhilosophers.org has sought to fill this void bringing together a panel of distinguished philosophers who use their knowledge of the history of philosophy as well as their

own skills and ingenuity to respond to questions sent in from all over the world What Should I Do is a collection of some of the most interesting questions about ethics to have appeared on the website during its first five years It is a delightfully fresh book that will encourage readers to think a bit more deeply about the moral questions they frequently encounter and will provide them with the tools to do so

A Theory of Literary Explication Kenneth B. Newell, 2011-07-12 This book presents current multidisciplinary research and theory from 17 different fields most of them never before applied to literary explication in order to provide 1 justification for the practice of a relative probability type of explication as distinguished from interpretation 2 a relativistic foundation for the preference of some explications of a literary work over others and thereby 3 a middle way between the postmodern pluralist view that a work has only an unlimited number of equally acceptable though different explications and the modern intentionalist view that it has only one acceptable explication the author's Nine of the 17 fields are of primary relevance critical theory hermeneutics probability theory philosophy of science second order logic and four fields of cognitive science linguistics epistemology neuropsychology and artificial intelligence But the book also touches upon textual criticism legal theory measure theory fuzzy logic animal learning behavior developmental psychology evolutionary epistemology and neurobiology The book shows that those using a relative probability type of explication on a literary work can achieve consensus because the healthy adult human brain has an evolved uniform and probably innate ability to form relative probability judgments and to form them in the practice of activities like reading and explicating that are not uniform and innate Lastly the book contributes to the scholarly areas of explication theory and practice first by providing a relativistic foundation for a craft explication that currently is not acknowledged to have any foundation but nonetheless continues and will continue to be practiced and second by presenting a means relative epistemic probability by which judging some explications of a literary work to be more acceptable than others may be justified philosophically an uncommon circumstance in this postmodern era in which philosophical justification of many beliefs and practices is thought to be untenable

[Philosophical Inquiry](#), 2008 **Beleidigungswörter** Björn Technau, 2018-04-09 Dass sich in der Forschung bislang kein Konsens darüber abzeichnet wie die Semantik und Pragmatik pejorativer Personenbezeichnungen am besten gefasst werden kann hat damit zu tun dass Beleidigungswörter mehrere Bedeutungsarten miteinander kombinieren die ihre jeweils eigenen Herausforderungen

an die Semantik Pragmatik Unterscheidung stellen Das Buch entwickelt auf Grundlage empirischer Daten ein semantisches Analysemodell für verschiedene Arten von Beleidigungswörtern und beleuchtet mithilfe konversationsanalytisch aufbereiteter Gesprächsdaten deren unterschiedlichen Verwendungsweisen Appropriation Banter Comedy Hate Speech Das Multikomponentenmodell ist damit stark an der Realität der Sprachgemeinschaft orientiert und zeichnet sich u.a. durch die Einführung einer skalaren Bedeutungskomponente Beleidigungsgrad aus sowie durch eine Abtrennung der pejorativen von der expressiven Bedeutung Neben dem bislang umfangreichsten Überblick über die einschlägige Forschung bietet das Buch neue Impulse für die angewandte Sprachwissenschaft und viele interdisziplinäre Anknüpfungspunkte Dies scheint insbesondere relevant im Kontext aktueller Debatten um Hasskommentare im Internet sowie angesichts der Probleme die sich in unserer Gesellschaft in Form von Mobbing Gewalt und Fremdenfeindlichkeit stellen
