Therese Lysaught, Joseph Kotva, Stephen E. Lammers, Allen Verhey, 2012-07-20 In print for more than two decades *On Moral Medicine* remains the definitive anthology for Christian theological reflection on medical ethics This third edition updates and expands the earlier awardwinning volumes providing classrooms and individuals alike with one of the finest available resources for ethics engaged modern medicine Redescribing Bioethics Tod S. Chambers, 2024-11-19 It has traditionally been accepted that one cannot derive how the world ought to be from the way the world is The discipline of bioethics endeavors to respond to ethical issues as they arise in the world For these issues to be analyzed they must first be described *Redescribing Bioethics: How the Field Constructs Its Argument* argues the descriptions bioethicists provide of the moral problems anticipate the proposed solution to these problems To understand the rhetorical power of bioethics arguments we need to reverse the structure of the argument seeing the anticipated solution as driving the presentation of the problem Arguing the story of bioethics is as much one of powerful redescriptions as of proposed solutions Tod S Chambers examines seven rhetorical strategies in how bioethics texts have steered readers toward a particular moral vision of the world retrodiction anagnorisis imbalance dissociation metaphor sources and hypertextuality Through these techniques bioethicists construct a world in which their particular moral theory thrives and alternative theories will struggle **Ex Auditu - Volume 21** Klyne Snodgrass, 2006-03-01 Ps 103:3 Bless the Lord Who heals all your diseases *Key Approaches to Biblical Ethics*, 2021-01-25 The purpose of *Key Approaches to Biblical Ethics* is to address fundamental as well as practical questions of methodology in examining the ethical material of the Bible Sixteen scholars of international reputation most of them leaders in the field of biblical ethics discuss questions of biblical interpretation from the perspectives of the Hebrew Bible and New Testament ethics in close dialogue with one another In the present volume both established and new approaches to biblical ethics are presented and discussed The result is a volume of unprecedented scholarly interaction that

provides key insights into issues of biblical ethics that play a significant role both for biblical interpretation as well as for methodological questions in Jewish and Christian ethics today      The Right to Die? Roland Chia,2009      *A Glass Darkly* David Gareth Jones,R. John Elford,2010 This book is a sequel to the first volume of New International Studies in Applied Ethics and includes essays from some of the same contributors Like the previous volume the book explores the interface between medicine and theology The essays demonstrate the complementarity evident between the two and examine how those coming from different theological traditions are able to provide helpful insights Points of disagreement and their crucial role in contributing to an understanding of the complexities of the debate are acknowledged Much of the discussion focuses on use of the Bible The contributors show an awareness of the pastoral necessity of providing access to new medical technologies for those in need Out of this emerges a positive view of some of the human benefits of modern medicine and the ways in which Christian theology can engage with it constructively The discussion throughout is related to the wider literature in the field      **Compassion in Healthcare** Joshua Hordern,2020-10-30 Compassion in Healthcare gives an account of the nature and content of compassion and its role in healthcare While compassion appears to be a straightforward aspect of life and practice Hordern s analysis shows that it is plagued by both conceptual and practical ills and stands in need of some quite specific kinds of therapy Starting from a diagnosis of what precisely is wrong with compassion its debilitating political entanglements the vagueness of its meaning and the risk of burnout it threatens three therapies are prescribed for these ills an understanding of patients and healthcare workers as those who pass through the life course encountering each other as wayfarers and pilgrims a grasp of the nature of compassion in healthcare and an embedding of healthcare within the realities of civic life Applying these therapeutic strategies uncovers how compassionate relationships acquire their content in healthcare practice The form that compassion takes is shown to depend on how doctrines of time tragedy salvation responsibility fault and theodicy make a difference to the quality of people s lives and relationships Drawing on the author s real world collaborations the way in which compassion matters to practice and policy is worked out in the detail of healthcare professionalism marketization and technology Covering everything from conception to old age and from machine learning to religious diversity Compassion in Healthcare draws on philosophy theology and everyday experience to expand our understanding of what compassion means for healthcare practice      Christianity and the Disciplines Mervyn Davies,Oliver D. Crisp,Gavin D'Costa,Peter Hampson,2012-11-02 This volume will show how various intellectual disciplines most found within the modern university can learn from theology and philosophy in primarily methodological and substantive terms It will explore the possible ways in which current presuppositions and practices of the discipline might be challenged It will also indicate the possibilities of both a Christian Culture in relation to that discipline or the way in which that discipline might look within a real or theoretical Christian university      **My Body, Their Baby** Grace Kao,2023-08-15 Drawing on her own experience as a surrogate mother Grace Y Kao assesses the ethics of surrogacy from a feminist and progressive Christian

perspective concluding that certain kinds of surrogacy arrangements can be morally permissible and should even be embraced While the use of assisted reproductive technology has brought joy to countless families surrogacy remains the most controversial path to parenthood My Body Their Baby helps readers sort through objections to this way of bringing children into the world Candidly reflecting on carrying a baby for her childless friends and informed by the reproductive justice framework developed by women of color activists Kao highlights the importance of experience in feminist methodology and Christian ethics She shows what surrogacy is like from the perspective of women becoming pregnant for others parents who have opted for surrogacy including queer couples and the surrogate born children themselves Developing a constructive framework of ethical norms and principles to guide the formation of surrogacy relationships Kao ultimately offers a vision for surrogacy that celebrates the reproductive generosity and solidarity displayed through the sharing of traditionally maternal roles

Vulnerability and Care Andrew Sloane, 2016-01-28 Medical and bioethical issues have spawned a great deal of debate in both public and academic contexts Little has been done however to engage with the underlying issues of the nature of medicine and its role in human community This book seeks to fill that gap by providing Christian philosophical and theological reflections on the nature and purposes of medicine and its role in a Christian understanding of human society The book provides two main doorways into a Christian philosophical theology of medicine First it presents a brief description of the contexts in which medicine is practiced in the early 21st century identifying key problems and challenges that medicine must address It then turns to issues in contemporary bioethics demonstrating how the debate is rooted in conflicting visions of the nature of medicine and so human existence This leads to a discussion of some of the philosophical and theological resources currently available for those who would reflect Christianly on medicine The heart of the book consists of an articulation of a Christian understanding of medicine as both a scholarly and a social practice articulating the philosophical theological framework which informs this perspective It fleshes out features of medicine as an inherently moral practice one informed by a Christian social vision and shaped by key theological commitments The book closes by returning to the issues relating to the context of medicine and bioethics with which it opened demonstrating how a Christian philosophical theology of medicine informs and enriches those discussions

*The New Testament and Bioethics* R. Dennis Macaleer, 2014-01-01 Beauchamp and Childress's Principles of Biomedical Ethics is a well accepted approach to contemporary bioethics Those principles are based on what Beauchamp and Childress call the common morality This book employs New Testament theological themes to enhance the meaning of those principles of bioethics The primary New Testament text for this study is the twin commands from Jesus to love God and love one's neighbor The three theological themes developed from this study the image of God the covenant and the pursuit of healing are deeply embedded in the New Testament and in the ministry of Jesus Three contemporary bioethics principles are used for this dissertation based on The Belmont Report They are the principles of respect for persons justice and beneficence In each

case the theological themes are shown to enhance the meaning of these bioethics principles Each of the three principles as understood through the three theological themes is applied to a current bioethics issue to demonstrate the efficacy of this approach The three current issues addressed are the withdrawal or withholding of life sustaining treatment the distribution of health care in the United States and the use of palliative care **Who Will Care for Grandma?** Brent R.

Kelly,2009-01-01 It is amazing to realize that much of the Western medical community is in a love hate relationship with the economics of medicine Quality Adjusted Life Years QALYs is one of the primary methods of guiding many medical decision makers in the allocation of limited medical resources Herein lies the problem of medicine and economics It seems that deciding who will receive limited medical resources is a task filled with moral and ethical difficulties even for those depending on the information obtained from QALY calculations These moral and ethical difficulties are beyond the scope of sound bites that tout the benefits of universal health care affordable insurance or the safety of the free market economy The breadth of the difficulty is found in the widespread disagreement concerning how the health care system should be distributed or fixed since most will agree that there is a problem with distributing medical resources It seemed obvious that some difficult decisions will need to be made that few are both willing and able to make This difficulty is particularly true in decisions about health care allocation and that is where QALYs have been found useful and problematic Limiting medical care for the elderly based upon their age did not occur until the mid twentieth century possibly because the elderly held a unique position of respect in the Western community It is no longer the case that the elderly are given a unique position of respect and dignity Rather it seems that with the increased use of QALY calculations the elderly are in danger of receiving less medical care than they are warranted It is imperative that Christians respond to the ethical implications of significant models of resource allocation that currently assist decision makers in the allocation process such as QALYs **Orthodox Christian Bioethics** Rabee Toumi,2020-10-07 This book advocates a substantive common ground in global bioethics It starts from an Orthodox Christian anthropology to highlight the relationship between hospitality dignity and vulnerability as the meeting point between strangers regardless of their value system The universal experience of suffering and death is the unifying starting point of that anthropology Therefore in medicine where physicians and patients meet as utter strangers not only as moral strangers hospitality highlights the human dignity and vulnerability of both parties and establishes gratitude compassion and solidarity as the constructive building blocks of a healing practice of medicine and a humane medical system locally and globally The Oxford Handbook of Religious Perspectives on Reproductive Ethics Davis,2023 As I write this introduction the third season of the Israeli series Schtisel has arrived on Netflix eagerly awaited by viewers around the world who would never have imagined how caught up they would get by this family drama of four generations of ultra Orthodox Jews living in Jerusalem One episode focuses on Ruchami and Hanina a young couple who have been married for five years but without children It turns out that pregnancy and childbirth would threaten Ruchami's life She is using an IUD but she

keeps threatening to have it removed risking her life to become a mother Finally with great reluctance Hanina visits the rebbe the spiritual authority in their community to discuss the possibility of using a surrogate They are says the rebbe caught between two non ideal situations surrogacy normally forbidden is non ideal but so is Ruchami s unhappiness and the possibility that she might go ahead and take the risk which is also forbidden      *Geriatric Palliative Care, An Issue of Clinics in Geriatric Medicine* Madeline Leong,2015-06-14 This issue of Clinics in Geriatric Medicine is devoted to Palliative Care Guest Editors Thomas Smith MD and Madeline Leong MD have assembled a group of expert authors to review the following topics Palliative Care in the Era of Healthcare Redesign Communications to Patients Communications by Professionals International Palliative Care Public Health and Palliative Care Culturally Relevant Palliative Care Spirituality Religion and Healing in Palliative Care Alternative Complementary and Mainstream Therapies in Palliative Care Symptom Management in the Older Adult Interaction of Palliative Care and Primary Care Palliative Care in the Ambulatory Geriatric Practice Choosing Cancer Therapy Based on Geriatric Assessment and Emergency Medicine and Palliative Care      *The Soul of Medicine* John R. Steele,Heidi A. Monroe,2020-06-25 Christian Ethics and Nursing Practice shows how the religious and moral teachings of the Christian Bible compare contrast and correlate with the ethical standards of modern nursing as stated in the Code of Ethics for Nurses It describes four main strands of moral discourse in the Bible law holiness wisdom and prophecy and shows the relevance of those strands for contemporary bedside and advanced practice nursing The work could serve as a textbook for courses in nursing ethics at Christian colleges and universities or as a guidebook for practicing nurses who have devoted their lives to caring for the sick the injured the elderly the disabled and the dying as a way of living out their commitment to Jesus Christ

*Hostility to Hospitality* Michael J. Balboni,Tracy A. Balboni,2018-09-18 Spiritual sickness troubles American medicine Through a death denying culture medicine has gained enormous power an influence it maintains by distancing itself from religion which too often reminds us of our mortality As a result of this separation of medicine and religion patients facing serious illness infrequently receive adequate spiritual care despite the large body of empirical data demonstrating its import to patient meaning making quality of life and medical utilization This secular sacred divide also unleashes depersonalizing social forces through the market technology and legal bureaucratic powers that reduce clinicians to tiny cogs in an unstoppable machine Hostility to Hospitality is one of the first books of its kind to explore these hostilities threatening medicine and offer a path forward for the partnership of modern medicine and spirituality Drawing from interdisciplinary scholarship including empirical studies interviews history and sociology theology and public policy the authors argue for

structural pluralism as the key to changing hostility to hospitality      ThirdWay ,2004 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture
