Readings in Arab Middle Eastern Societies and Cultures Abdulla M. Lutfiyya, Charles W. Churchill, 2012-02-13 No detailed description available for Readings in Arab Middle Eastern Societies and Cultures Readings in Arab Middle Eastern Societies and Cultures Abdulla M. Lutfiyya, Charles W. Churchill, 1970 Arabic Culture M.H. Bakalla, 2023-05-31 First published in 1981 and this edition in 1984 Arabic Culture Through its Language and Literature aims to present a bird's eye view of its subject. It is intended for non-specialist student of Arabic especially those who have not yet mastered the language and are therefore not able to read about Arabic literature in its original sources. It covers the linguistic origins of Arabic dialects and history and includes chapters on Arab linguistic scholarship and the development of the Arabic script. It also deals with all aspects of Arabic literature from pre-Islamic poetry to major Arab literary figures from the Arabian Nights to modern Arab Poetesses from proverbs to literary criticism **Administration and Development in the Arab World** Jamil Jreisat, Zaki R. Ghosheh, 2016-03-22 This book first published in 1986 examines the literature on administration, human resources and development in the Arab world. It emphasizes contemporary societies and their internal dynamics, the least known and most critical aspects of Arabic studies Armed Forces in the Middle East Thomas Keaney, Barry Rubin, 2013-11-05 An examination of the Middle East's leading armed forces and their role in both military and political affairs. The book considers their missions, doctrine, training, equipment and effectiveness as fighting forces **Catalogue of the Library of the Peabody Museum of Archaeology and Ethnology** Peabody Museum of Archaeology and Ethnology. Library, 1963 *Women in Middle Eastern History* Nikki R. Keddie, Beth Baron, 2008-10-01 This history of Middle Eastern women is the first to survey gender relations in the Middle East from the earliest Islamic period to the present. Outstanding scholars analyze a rich array of sources ranging from histories, biographical dictionaries, law books, prescriptive treatises and archival records to the Traditions, hadith of the Prophet and imaginative works like the Thousand and One Nights to modern writings by Middle Eastern women and by Western writers. They show that gender boundaries in the Middle East have been neither fixed nor immutable; changes in family patterns, religious rituals, socio-economic necessity, myth and ideology and not least women's attitudes have expanded or circumscribed women's roles and behavior through the ages **Area Handbook for Egypt** Richard F. Nyrop, 1976 **Palestinians In Kuwait** Shafeeq N. Ghabra, 2019-06-04 The research, field work and writing for this study have taken over two years. The book was originally written as a Ph.D. dissertation under the supervision of Professor James Bill of the University of Texas at Austin. I am grateful to him for his careful and considerate attention to the manuscript at its several stages. I wish to thank Professor Henry Dietz, Robert Femea, Lawrence Graham and Robert Hardgrave who provided important suggestions for the writing of this study. Four more individuals deserve particular mention for their contribution to the writing of the book: Dr. Barbara Harlow who took time to read the entire manuscript and Dr. Michael Fischer who read part I. I thank both of them for the valuable suggestions provided to me. I wish to express my

gratitude to Dr Ghassan Salame of the American University of Beirut whose support encouraged me to turn my Ph D dissertation into a book Finally I would like to thank Barbara Ellington senior acquisition editor of Westview Press for her support

Rao, 2000-11-30 Globalization is a force with a strong analyzable impact on management practices Rao and his contributors explore its implications and show how globalization's impacts differ by sector and region of the world Taking a comprehensive and integrated approach to the managerial implications of globalization they report research on six groups of critical issues the environmental micromanagement the exporter importer interaction market communications sectoral management and regional management Academicians and executive policy makers concerned with the internationalization of business will find the book of special importance It may also be used as a text supplement in graduate courses in international business and marketing Rao's contributors focus primarily on the managerial implications of the globalization process that are of most concern to management today Combining conceptualization with empirical research they show how pervasive is the environmental force of globalization and focus on such up to date concerns as relationship marketing and the complex issues of importer exporter interaction The result is a useful insight into the interaction processes that govern international trading The contributors focus too on the unique impacts of globalization on information technologies the services industry and small and medium sized firms They also investigate the phenomena of newly emerging markets struggling to embrace free market systems and identify the challenges and opportunities these markets offer and how distinctly different they are from one market to another

Armies of Sand Kenneth Michael Pollack, 2019 Since the Second World War Arab armed forces have consistently punched below their weight They have lost many wars that by all rights they should have won and in their best performances only ever achieved quite modest accomplishments Over time soldiers scholars and military experts have offered various explanations for this pattern Reliance on Soviet military methods the poor civil military relations of the Arab world the underdevelopment of the Arab states and patterns of behavior derived from the wider Arab culture have all been suggested as the ultimate source of Arab military difficulties *Armies of Sand* Kenneth M Pollack's powerful and riveting history of Arab armies from the end of World War Two to the present assesses these differing explanations and isolates the most important causes Over the course of the book he examines the combat performance of fifteen Arab armies and air forces in virtually every Middle Eastern war from the Jordanians and Syrians in 1948 to Hizballah in 2006 and the Iraqis and ISIS in 2014 2017 He then compares these experiences to the performance of the Argentine Chadian Chinese Cuban North Korean and South Vietnamese armed forces in their own combat operations during the twentieth century The book ultimately concludes that reliance on Soviet doctrine was more of a help than a hindrance to the Arabs In contrast politicization and underdevelopment were both important factors limiting Arab military effectiveness but patterns of behavior derived from the dominant Arab culture was the most important factor of all Pollack closes with a discussion of the rapid changes occurring across the Arab

world political economic and cultural as well as the rapid evolution in war making as a result of the information revolution He suggests that because both Arab society and warfare are changing the problems that have bedeviled Arab armed forces in the past could dissipate or even vanish in the future with potentially dramatic consequences for the Middle East military balance Sweeping in its historical coverage and highly accessible this will be the go to reference for anyone interested in the history of warfare in the Middle East since 1945 **Orientalism** A. Orientalism Edward W. Said,2014-10-01 A groundbreaking critique of the West s historical cultural and political perceptions of the East that is decades after its first publication one of the most important books written about our divided world Intellectual history on a high order and very exciting The New York Times In this wide ranging intellectually vigorous study Said traces the origins of orientalism to the centuries long period during which Europe dominated the Middle and Near East and from its position of power defined the orient simply as other than the occident This entrenched view continues to dominate western ideas and because it does not allow the East to represent itself prevents true understanding From Muhammad to Bin Laden David Bukay,2017-07-28 From Muhammad to Bin Laden analyzes the ideological religious and cultural foundations of one of the most inconceivable phenomena in contemporary world politics Bukay analyzes the homicide bombings and atrocities perpetuated by worldwide jihad He also uses information from primary sources to suggest how to cope with this lethal phenomenon The book explores the meaning and interpretation of the seemingly benign concept of da wah the expansion of the Islamic community Da wah provides the religious and ideological justification for the lethal phenomenon of worldwide jihad it describes the incentive and motivational drive that support the emergence and the operation of the fundamentalist Islamic movement Bukay locates the dimensions of the phenomenon of jihad as well as the reasons motivations and aspects of the behavior of fundamentalist groups The importance of this work lies in its skillful combination of historical perspectives and contemporary dynamics religious and anthropological aspects of the phenomena and its use of research tools of both the humanities and social sciences By exploring the religious and cultural foundations of homicide bombers activities Bukay explains the essence of jihad how it is connected to the da wah and together how da wah

and jihad serve as the platform of the current worldwide terrorist activities Bukay quotes religious edicts and declarations of classical and modern Islamic texts as well as contemporary Islamic fanatic movements from Ibn Hanbal in the eighth century to Sayyid Qutb in the mid twentieth century He also aims to bring to the world s consciousness the aims and objectives of fundamentalist Islam The volume concludes by challenging the free world to wake up before the bells of another world war start to ring From Muhammad to Bin Laden will interest scholars policymakers and lay readers Its importance is transparent particularly in light of the current developments in the Middle East

The Semantics of Form in Arabic David Justice,1987-01-01 Justice s first aim in this volume is to demystify the Arabic language which is widely perceived as difficult to learn and has been characterised as ambiguous and confusingly polysemous The central concern of this three dimensional portrait of Classical Arabic is a version of the Sapir Whorf hypothesis that language is a determinant of other aspects of culture But rather than focusing on the possible influences of language on thought Justice is interested in connections between language and language use or langue and parole Among the topics treated are the difficulty of Arabic morphosyntax and Whorfian semantics the role of duality in Arabic iconicity a population profile of vocabulary the syntactic cut of Arabic and the relation between causatives and verbs that ascribe qualities to an object This erudite and thought provoking volume will be of interest not only to Arabists but to linguistic anthropologists in general

Lebanon Adel Beshara,2013-01-11 Lebanon examines the ideological political and social underpinnings of the attempted coup against General Chihab s government in Lebanon in 1961 The author analyzes the role of the Syrian Socialist Nationalist Party the history of the army in Lebanon and its role in Lebanese politics and the impact of the coup on Lebanese political life This book provides an extraordinary insight into the mechanisms of military coups in the Arab world and will be of interest to students and researchers of the history and politics of the Middle East
