Ready Elizabeth Gregory, 2012-08-07 Over the past three decades skyrocketing numbers of women have chosen to start their families in their late thirties and early forties In 2005 ten times as many women had their first child between the ages of 35 and 39 as in 1975 and thirteen times as many had their first between 40 and 44 Women now have the option to define for themselves when they re ready for family rather than sticking to a schedule set by social convention As a society however we have yet to come to terms with the phenomenon of later motherhood and women who decide it makes sense for them to delay pregnancy often find themselves confronted with alarmist warnings about the dangers of waiting too long In *Ready* Elizabeth Gregory tracks the burgeoning trend of new later motherhood and demonstrates that for many women today waiting for family works best She provides compelling evidence of the benefits of having children later by birth or by adoption Gregory reveals that large numbers of women succeed in having children between 35 and 44 by the usual means one in seven kids born today has a mom in that age range and that many of those who don t succeed nonetheless find alternate routes to happy families via egg donation or adoption And they re glad they waited Without ignoring the complexities that older women may face in their

quest to have children Gregory reveals the many advantages of waiting Stronger family focus Having achieved many of their personal and career goals new later moms feel ready to focus on family rather than trying to juggle priorities More financial power New later moms have established careers and make higher salaries Greater self confidence New later moms have more career experience and their management skills translate directly into managing a household and advocating for their children More stable single parenting New later moms who are single have more resources High marriage rate On average 85 percent of new later moms are married lending stability to the family structure Longer lives Evidence indicates that new later moms actually live longer than moms who start their families earlier Based on in depth interviews with more than 100 new later moms and extensive collateral research Ready shatters the myths surrounding later motherhood Drawing on both the statistical evidence and the voices of the new later mothers themselves Gregory delivers surprising and welcome news that will revolutionize the way we think about motherhood

Before the Bomb John D. Chappell, 1997-12-01 Almost forgotten in the haze of events following Nagasaki and Hiroshima, the summer of 1945 witnessed an intense public debate over how best to end the war against Japan. Weary of fighting, the American people were determined to defeat the imperial power that had so viciously attacked them in December 1941, but they were uncertain of the best means to accomplish this goal. Certain of victory, the inevitable triumph promised by Franklin Roosevelt immediately after Pearl Harbor, Americans became increasingly concerned about the human cost of defeating Japan. Particularly after the brutal Iwo Jima and Okinawa campaigns, syndicated

columnists newspaper editorialists radio commentators and others questioned the necessity of invasion A lengthy naval and aerial siege would have saved lives but might have protracted the war beyond the public s patience Advertisers filled the media with visions of postwar affluence even as the government was exhorting its citizens to remain dedicated to the war effort There was heated discussion as well about the morality of firebombing Japanese cities and of using poison gas and other agents of chemical warfare Chappell provides a balanced assessment of all these debates grounding his observations in a wealth of primary sources He also discusses the role of racism the demand for unconditional surrender and the government s reaction to public opinion in the decision to drop the atomic bomb Compelling and controversial this is the first work to examine the confusing and contradictory climate of the American home front in the months leading up to V J Day **Journal of the Royal Horticultural Society** Royal Horticultural Society (Great Britain),1906 Vols for 1846 55 include Proceedings at meetings of the society **King Lear** William Shakespeare,1881 Gardening World Illustrated ,1896 **English Vocabulary in Use Elementary Book and CD-ROM** Michael McCarthy,Felicity O'Dell,2005-06-17 The CD ROM includes hundreds of vocabulary exercises which cover the language taught in the text It covers 60 areas of key vocabulary contains audio recordings for extra listening practice a test function allowing the creation of your own tests a progress check and a built in dictionary
