Joint Committee on Human Rights,2009 The UN Convention on the Rights of Persons with Disabilities builds on existing human rights treaties including the International Covenant on Civil and Political Rights and the International Covenant on Economic Social and Cultural Rights The UN Handbook for Parliamentarians on the Convention stresses that it is not intended to create new rights but clarifies the obligations and legal duties of States to respect and ensure the equal enjoyment of all human rights by all persons with disabilities Its purpose is to Promote protect and ensure the full enjoyment of all human rights and fundamental freedoms by all persons with disabilities and to promote respect for their inherent dignity The UK was among the first countries to sign the Convention on 30 March 2007 The findings of our recent inquiry on the rights of adults with learning disabilities showed that although UK law and policy on the treatment of adults with learning disabilities takes a human rights based approach the day to day experiences of people with learning disabilities are not so positive Ratification will send a strong signal to all people with disabilities in the UK and abroad that the Government takes equality and the protection of their human rights seriously The Government first publicly stated that reservations to the Convention were being considered in its response to our Report on the treatment of adults with learning disabilities in May 2008 more than a year after it signed the Convention Despite the Committee s call for a full explanation of the government s views on the compatibility of domestic law with the Convention the were then provided with little detail on the reservations being considered or the Government s approach to the process The Committee considers that progress towards ratification of the Convention by the UK has so far lacked transparency and has unfortunately alienated disabled people and their organisations This is unacceptable in the light of the clear Convention commitment which the Government intends to make to the involvement of disabled people in the development of policies and laws which affect them This approach undermines the

previous role that the UK Government has played in championing equality for disabled people and their leading role in negotiating the terms of the UNCRPD

*The Incorporeal Corpse* Jason B. Dorwart, 2022-09-23

In this book Jason B Dorwart contends that the material presence of visible disability disrupts the framing devices that provide safe distancing for theatre's fictive nature Conceptions of disability that place the disabled body into a permanently liminal space between life and death are directly at odds with theatrical performances which are geared toward moving through liminality into a new point of stasis Dorwart reveals how this contradiction leads to performance practices that work to marginalize and eliminate the presence of disabled bodies of both character and actor as disabled characters have historically been written with different character arcs than nondisabled characters and with the assumption that they would be played by nondisabled actors As more disabled actors gain exposure in film and theatre the difference in how disabled characters are written is also increasingly affected by whether the role is intended for a disabled or nondisabled actor These performances are enacting new means to performatively and figuratively reincorporate or eliminate the liminal disabled body The Incorporeal Corpse demonstrates how recent plays and films try to rectify this tension between the permanence of disability and the transitory nature of performance Scholars of theatre disability studies and performance studies will find this book of particular interest
