games and unplugged activities **Thinking about the Emotions** Alix Cohen, Robert Stern, 2017-05-26 Philosophical reflection on the emotions has a long history stretching back to classical Greek thought even though at times philosophers have marginalized or denigrated them in favour of reason Fourteen leading philosophers here offer a broad survey of the development of our understanding of the emotions The thinkers they discuss include Aristotle Aquinas Ockham Descartes Malebranche Spinoza Hobbes Hume Shaftesbury Hutcheson Kant Schiller Schopenhauer Nietzsche James Brentano Stumpf Scheler Heidegger and Sartre Central issues include the taxonomy of the emotions the distinction between emotions passions feelings and moods the relation between the emotions and reason the relationship between the self and the emotions At a metaphilosophical level the collection also raises issues about the value of historical study of the discipline and what light it can shed on contemporary concerns Thinking about the Emotions is a fascinating and illuminating collective study of how philosophers have grappled with this most intriguing part of our nature as beings who feel as well as think and act **The Wildlife Photography Workshop** Ross & Hall Hoddinott, Ben, 2014-05-12 Wildlife watchers and aspiring natural history photographers collect up your kit and get ready for a practical course with a difference Photographic workshops are exceptionally popular but not everybody has the time or budget to attend one in person This workshop in book form allows you to absorb the benefits of the workshop experience without actually being on location with the professionals Normal Instructor and Primary Plans ,1926 **Normal Instructor and Teachers World** ,1924 **Mercer (Were Zoo Book Seventeen)** R. E. Butler, 2024-02-02 Rhomi is desperate to find a job after her company downsized and she never expected her luck to turn when her friends take her to the Amazing Adventures Safari Park But when a spur of the moment job request leads her to the most amazing guy she s ever met she starts to believe in fate again Mercer is determined to win Rhomi s heart so he can share the truth of his shifting nature But when fate has other plans and Rhomi learns the truth about shifters in a startling way she becomes a target for people who are willing to harm anyone to get what they want Can Mercer get to her before it s too late **Hooking Animals** Judy Carter, 2014-11-15 Create one of a kind hooked rugs of your favorite wild animal or family pet using either wide or fine cut wool strips Tips from an accomplished rug hooking designer and teacher on how to design an animal hooked rug and how to translate that design into a finished creation Techniques for hooking hair fur feathers and scales How to hook eyes ears and noses How to capture an animal s personality in wool *Wildlife Films* Derek Bousé, 2011-11-29 If as many argue movies and television have become Western culture s premier storytelling media so too have they become for most members of society the primary source of encounters with the natural world particularly wild animals The television fare offered nightly by national and cable networks such as PBS and the Discovery Channel provides millions of viewers with their only experience of the wilderness and its inhabitants The very films that so many viewers take as accurate portrayals of wildlife however have evolved primarily as a form of entertainment following the established codes and conventions of narrative exposition The result has been not the representation of nature but its wholesale reconstruction

and reconfiguration according to film and television conventions audience expectations and the demands of competition in the media marketplace Wildlife Films traces the genealogy of the nature film from its origins as the animal locomotion studies that mark the very beginnings of motion pictures themselves to the founding of the Animal Planet cable channel that boasts all animals all the time The narrative and thematic elements that unite wildlife films as a genre have their roots not in the documentary film tradition but in the older traditions of oral and written animal fables as reflections of human society Derek Bous contends that classic wildlife films often portray animal protagonists living in families modeled on an ideal of the human nuclear family and working in communities that resemble an ideal of bucolic human society In these stories presented as documentaries animals are motivated by human emotions and conduct relationships according to human customs This imposition of culturally satisfying narrative patterns upon the lives of animals has not only led to the misrepresentation of the natural world it has promoted the notion that our values our moral vision our models of society and family structure derive from nature rather than being cultural formations

Luminous Shadows A. N.

Waleron,2016-12-29 Nightmares aren't merely figments of our imaginations. They're real living beings that spawn from fear in Dreamscapes while we're asleep. Without Sanya and Reve, these creatures would flood into our world and become a reality. They're young, but they form a strong and deadly team. They're experiments created by the organization they work for to defeat the Nightmares. Will these Nightmare executioners pull through? Or will their quickly growing feelings for each other tear their hearts and minds in two?
