Reagan Presidency Assessing The Man And His Legacy:

The Reagan Presidency Paul Kengor, Peter Schweizer, 2005-04-29 In this important new volume editors Paul Kengor and Peter Schweizer bring together original essays from leading scholars who examine topics as varied as Iran Contra abortion the Cold War governmental management and economic policy Through critical analysis these essays *Cowboy Presidents* David A. Smith, 2021-02-11 For an element so firmly fixed in American culture the frontier myth is surprisingly flexible How else to explain its having taken two such different guises in the twentieth century the progressive forward looking politics of Rough Rider president Teddy Roosevelt and the conservative old fashioned character and Cold War politics of Ronald Reagan This is the conundrum at the heart of *Cowboy Presidents* which explores the deployment and consequent transformation of the frontier myth by four U S presidents Theodore Roosevelt Lyndon B Johnson Ronald Reagan and George W Bush Behind the shape shifting of this myth historian David A Smith finds major events in American and world history that have made various aspects of the Old West frontier more relevant and more useful for promoting radically different political ideologies and agendas And these divergent adaptations of frontier symbolism have altered the frontier myth Theodore Roosevelt with his vigorous pursuit of an activist federal government helped establish a version of the frontier myth that today would be considered liberal But then Smith shows a series of events from the Lyndon Johnson through Jimmy Carter presidencies including Vietnam race riots and stagflation seemed to give the lie to the progressive frontier myth In the wake of these crises Smith's analysis reveals the entire structure and popular representation of frontier symbols and images in American politics shifted dramatically from left to right and from liberal to conservative with profound implications for the history of American thought and presidential politics The now popular idea that frontier American leaders and politicians are naturally Republicans with conservative ideals flows directly from the Reagan era *Cowboy Presidents* gives us a new clarifying perspective on how Americans shape and understand their national identity and sense of purpose at the same time reflecting on the essential mutability of a quintessentially national myth the book suggests that the next iteration of the frontier myth may well be on the horizon

Turning Points—Actual and Alternate Histories Rodney P. Carlisle, J. Geoffrey Golson, 2007-09-26 This fascinating work is a series of explorations of key events in the administrations of Ronald Reagan and George H W Bush each of which speculates on what might have happened if events had unfolded differently The Reagan Era explores a time that saw the rise of the political conservatism that has dominated U S politics in recent years as well as the end of the Cold War which drove American foreign policy for nearly a half century What if Jimmy Carter had successfully navigated the energy shortage and the Iranian hostage crisis What if the assassination attempt on Reagan had succeed What if Iran Contra had not become a scandal These are among the specific topics examined in the book which looks at 11 crucial events and speculates on the effects of alternative outcomes By showing how easily the world might be different The Reagan Era reveals the lasting impact of that era's defining moments

The War on Welfare Marisa Chappell, 2012-02-02 Why did

the War on Poverty give way to the war on welfare Many in the United States saw the welfare reforms of 1996 as the inevitable result of twelve years of conservative retrenchment in American social policy but there is evidence that the seeds of this change were sown long before the Reagan Revolution and not necessarily by the Right The War on Welfare Family Poverty and Politics in Modern America traces what Bill Clinton famously called the end of welfare as we know it to the grassroots of the War on Poverty thirty years earlier Marshaling a broad variety of sources historian Marisa Chappell provides a fresh look at the national debate about poverty welfare and economic rights from the 1960s through the mid 1990s In Chappell s telling we experience the debate over welfare from multiple perspectives including those of conservatives of several types liberal antipoverty experts national liberal organizations labor government officials feminists of various persuasions and poor women themselves During the Johnson and Nixon administrations deindustrialization stagnating wages and widening economic inequality pushed growing numbers of wives and mothers into the workforce Yet labor unions antipoverty activists and moderate liberal groups fought to extend the fading promise of the family wage to poor African Americans families through massive federal investment in full employment and income support for male breadwinners In doing so however these organizations condemned programs like Aid to Families with Dependent Children AFDC for supposedly discouraging marriage and breaking up families Ironically their arguments paved the way for increasingly successful right wing attacks on both welfare and the War on Poverty itself

Stranger in a Strange State

Christopher J. Galdieri, 2019-05-01 Examines why some politicians take the drastic step of becoming a carpetbagger and how that shapes their campaigns and chances for victory Candidates normally run for office in the places where they live Occasionally however a politician will run as a carpetbagger someone who moves to a new state for the express purpose of running or who runs in one state after holding office in another Stranger in a Strange State examines what makes some politicians take this drastic step and how that shapes their campaigns and chances for victory Focusing on races for the US Senate from 1964 forward Christopher J Galdieri analyzes the campaigns of nine carpetbaggers including nationally known figures such as Robert F Kennedy and Hillary Rodham Clinton and less well known candidates like Elizabeth Cheney and Scott Brown These case studies draw on archival research contemporaneous accounts of each campaign and scholarship on campaigns and representation While the record reveals that it generally takes national political stature for a carpetbagger to win an election some recent campaigns suggest that in today s polarized political era both politicians and state political parties might want to be more open to the prospect of carpetbagging Galdieri s book brings both life and systematic analysis to his case studies It also takes on the concept of political ambition seriously engaging the role of political parties in shaping and mitigating ambition Highly recommended for anyone interested in American parties and elections Julia R Azari coeditor of The Presidential Leadership Dilemma Between the Constitution and a Political Party This will be the go to book any time prominent politicians strike out for new territory Ross K Baker author of Is Bipartisanship Dead A Report from the Senate

The Right-to-Life Movement, the Reagan Administration, and the Politics of Abortion Prudence Flowers, 2018-11-03 This book offers a political ideological and social history of the national right to life movement in the 1980s under President Ronald Reagan. It analyzes anti-abortion engagement with the legislative, judicial, and executive branches and offers what is frequently a narrative of disappointment and factionalism. The chapters explore pro-life responses to Supreme Court vacancies, attempts to pass a constitutional amendment, and broader legislative and bureaucratic strategies, including successful campaigns against international and domestic family planning programs. The book suggests that the 1980s transformed the anti-abortion cause, limiting the types of ideas and approaches possible at a national level. Although the movement later claimed Reagan as a pro-life hero, while he was President, right-to-lifers continuously struggled with the gap between his words and deeds. They also had a fraught relationship with the broader Republican Party. This book charts the political education of right-to-lifers, offering insights into social movement activism and conservatism in the late twentieth century.

The Oxford Handbook of Prevention in Counseling Psychology Elizabeth Vera, 2012-10-18 The Oxford Handbook of Prevention in Counseling Psychology presents a lifespan approach to prevention that emphasizes strengths of individuals and communities, integrates multicultural and social justice perspectives, and includes best practices in the prevention of a variety of psychological problems in particular populations.

New Directions in American Political Parties Jeffrey M. Stonecash, 2010-06-10 Our portraits of voters have changed significantly within the last 10 to 15 years. In a short period of time, we have gone from concern that parties are not responsive or sufficiently different to whether polarization has become too great. This volume, with contributions from some of the most noted scholars of political parties, brings together assessments of these changes to provide a comprehensive overview of current trends in the field.

The Conservative Century Gregory L. Schneider, 2009-11-16 This concise history focuses on the development of American conservatism in the twentieth century up to the present. Gregory L. Schneider traces the course of a once reactionary movement opposed to progressive reform and the New Deal, and describes how it came to advance alternative policies and programs that revolutionized the shaping of domestic politics, foreign policy, and economic policy. Along the way, he profiles such influential thinkers as William F. Buckley, Frank Meyer, Henry Regnery, and Barry Goldwater. He also details how the decline of liberalism after the 1960s helped conservatives gain political power and how their energized activism and organization culminated in the election of Ronald Reagan in 1980. Schneider also describes how the years since the Reagan Revolution have been decidedly mixed for American conservatives.

Atomic Age America Martin V. Melosi, 2016-09-13 Atomic Age America looks at the broad influence of atomic energy, focusing particularly on nuclear weapons and nuclear power on the lives of Americans within a world context. The text examines the social, political, diplomatic, environmental, and technical impacts of atomic energy on the 20th and 21st centuries, with a look back to the origins of atomic theory.

Gender, Heteronormativity, and the American Presidency Aidan Smith, 2017-10-03 Gender, Heteronormativity, and the American Presidency places notions

of gender at the center of its analysis of presidential campaign communications Over the decades an investment in gendered representations of would be leaders has changed little in spite of the second and third wave feminist movements Modern candidates have worked vigorously to demonstrate compensatory heterosexuality an unquestionable normative identity that seeks to overcome challenges to their masculinity or femininity The book draws from a wide range of archived media material including televised films and advertisements public debates and speeches and candidate autobiographies From the domestic ideals promoted by Eisenhower in the 1950s right through to the explicit and divisive rhetoric associated with the Clinton Trump race in 2016 intersectional content and discourse analysis reveals how each presidential candidate used his or her campaign to position themselves as a defender of traditional gender roles and furthermore how this investment in appropriate gender behaviour was made manifest in both international and domestic policy choices This book represents a significant and timely contribution to the study of political communication While communication during presidential elections is a well established research field Aidan Smith s book is the first to apply a gendered lens over such an extended historical period and across the political spectrum

National Security Entrepreneurs and the Making of American Foreign Policy Vincent Boucher, Charles-Philippe David, Karine Prémont, 2020-11-12 Since the advent of the contemporary US national security apparatus in 1947 entrepreneurial public officials have tried to reorient the course of the nation s foreign policy Acting inside the National Security Council system some principals and high ranking officials have worked tirelessly to generate policy change and innovation on the issues they care about These entrepreneurs attempt to set the foreign policy agenda frame policy problems and solutions and orient the decision making process to convince the president and other decision makers to choose the course they advocate In *National Security Entrepreneurs and the Making of American Foreign Policy* Vincent Boucher Charles Philippe David and Karine Prémont develop a new concept to study entrepreneurial behaviour among foreign policy advisers and offer the first comprehensive framework of analysis to answer this crucial question why do some entrepreneurs succeed in guaranteeing the adoption of novel policies while others fail They explore case studies of attempts to reorient US foreign policy waged by National Security Council entrepreneurs examining the key factors enabling success and the main forces preventing the adoption of a preferred option the entrepreneur s profile presidential leadership major players involved in the policy formulation and decision making processes the national political context and the presence or absence of significant opportunities By carefully analyzing significant diplomatic and military decisions of the Johnson Nixon Reagan and Clinton administrations and offering a preliminary account of contemporary national security entrepreneurship under presidents George W Bush Barack Obama and Donald Trump this book makes the case for an agent based explanation of foreign policy change and continuity

Debating the Reagan Presidency John Ehrman, Michael W. Flamm, 2002-09-01 The presidency of Ronald Reagan has become a Rorschach Test for politicians and citizens alike While many conservatives see the Reagan era of the 1980s as the high water mark for their movement and a time of national

recovery from the difficulties of the 1970s many liberals maintain that the rosy Reagan legacy is based largely on myth and that in fact his eight years as president caused serious harm to the country John Ehrman and Michael W Flamm give due attention to the lasting controversies surrounding the Reagan record and provide a balanced view of the fortieth president's foreign and domestic policies Students are encouraged to draw their own conclusions by reading key primary documents

The Oxford Handbook of American Political Parties and Interest Groups L. Sandy Maisel, Jeffrey M.

Berry, 2012-01-12 The Oxford Handbooks of American Politics are the essential guide to the study of American political life in the 21st Century With engaging new contributions from the major figures in the field of political parties and interest groups this Handbook is a key point of reference for anyone working in American Politics today **The Communist** Paul

Kengor, 2012-07-17 Is Obama working to fulfill the dreams of Frank Marshall Davis a card carrying member of the Communist Party USA That question has been impossible to answer since Davis's writings and relationship with Obama have either been deliberately obscured or dismissed as irrelevant With Paul Kengor's work Americans can finally weigh the evidence and decide for themselves *A Companion to Europe Since 1945* Klaus Larres, 2014-01-07 A Companion to Europe

Since 1945 provides a stimulating guide to numerous important developments which have influenced the political economic social and cultural character of Europe during and since the Cold War Includes 22 original essays by an international team of expert scholars Examines the social intellectual economic cultural and political changes that took place throughout Europe in the Cold War and Post Cold War periods Discusses a wide range of topics including the Single Market European American relations family life and employment globalization consumption political parties European decolonization European identity security and defence policies and Europe's fight against international terrorism Presents Europe in a broad geographical conception to give equal weighting to developments in the Eastern and Western European states **What is Social Policy?**

Daniel Béland, 2010-09-14 From housing pensions and family benefits to health care unemployment insurance and social assistance the welfare state is a key aspect of our lives This book provides a concise political and sociological introduction to social policy helping readers to grasp the nature of social programs and the political struggles surrounding them **A**

Companion to Ronald Reagan Andrew L. Johns, 2015-02-10 A Companion to Ronald Reagan evaluates in unprecedented detail the events policies politics and people of Reagan's administration It assesses the scope and influence of his various careers within the context of the times providing wide ranging coverage of his administration and his legacy Assesses Reagan and his impact on the development of the United States based on new documentary evidence and engagement with the most recent secondary literature Offers a mix of historiographic chapters devoted to foreign and domestic policy with topics integrated thematically and chronologically Includes a section on key figures associated politically and personally with Reagan

The Blessings of Liberty Michael Les Benedict, 2016-09-30 This concise accessible text provides students with a history of American constitutional development in the context of political economic and social change Constitutional

historian Michael Benedict stresses the role that the American people have played over time in defining the powers of government and the rights of individuals and minorities He covers important trends and events in U S constitutional history encompassing key Supreme Court and lower court cases The volume begins by discussing the English and colonial origins of American constitutionalism Following an analysis of the American Revolution s meaning to constitutional history the text traces the Constitution s evolution from the Early Republic to the present day This third edition is updated to include the election of 2000 the Tea Party and the rise of popular constitutionalism and the rise of judicial supremacy as seen in cases such as Citizens United the Affordable Care Act and gay marriage

Tear Down This Myth Will Bunch, 2009-02-03 In this provocative new book award winning political journalist Will Bunch unravels the story of how a right wing cabal hijacked the mixed legacy of Ronald Reagan a personally popular but hugely divisive 1980s president and turned him into a bronze icon to revive their fading ideology They succeeded to the point where all the GOP candidates for president in 2008 scurried to claim his mantle no matter how preposterous the fit With clear eyes and an ever present wit Bunch reveals the truth about the Ronald Reagan legacy including the following Despite the idolatry of the last fifteen years Reagan s average popularity as president was only well average lower than that of a half dozen modern presidents More important while he was in office a majority of Americans opposed most of his policies and by 1988 felt strongly that the nation was on the wrong track Reagan s 1981 tax cut weighted heavily toward the rich did not cause the economic recovery of the 1980s It was fueled instead by dropping oil prices the normal business cycle and the tight fiscal policies of the chairman of the Federal Reserve appointed by Jimmy Carter Reagan s tax cut did however help usher in the deregulated modern era of CEO and Wall Street greed Most historians agree that Reagan s waste ridden military buildup didn t actually win the Cold War And Reagan mythmakers ignore his real contributions his willingness to talk to his Soviet adversaries his genuine desire to eliminate nuclear weapons and the surprising role of a liberal Hollywood produced TV movie George H W Bush s and Bill Clinton s rolling back of Reaganomics during the 1990s spurred a decade of peace and prosperity as well as the reactionary campaign to pump up the myth of Ronald Reagan and restore right wing hegemony over Washington This effort has led to war bankrupt energy policies and coming generations of debt With masterful insight Bunch exposes this dangerous effort to reshape America s future by rewriting its past As the Obama administration charts its course he argues it should do so unencumbered by the dead weight of misplaced and unearned reverence

If you ally need such a referred **Reagan Presidency Assessing The Man And His Legacy** book that will manage to pay for you worth, acquire the utterly best seller from us currently from several preferred authors.
