Capitalism in Central and Eastern Europe Eric Magnin,Nikolay Nenovsky,2022-07-13 This book explores the hypothesis of the emergence of a dependent capitalism in Central and Eastern Europe In a first theoretical part this book presents the main approaches that structure the field of comparative capitalism and then examines this model shaped by the inflow of foreign capital In an original way it proposes to integrate the form of the monetary regime into the dependent capitalism

analysis and to extend it to Balkan countries The monetary regime is seen as complementary to the other elements of the institutional configuration of dependent capitalism In the second part the authors adopt a historical and empirical perspective First they demonstrate how dependent capitalism has emerged in Central and Eastern Europe and the Baltic States over the last 30 years as part of the process of socio economic transformation that began in 1990 The crisis of 2008 was an indicator of this dependence on Western capital Secondly they extend the analysis to the Balkan countries and show that dependence is even stronger for them particularly in the monetary area as evidenced by the implementation of currency boards or euroization phenomena This book is of interest to academics and students as well as to business and economic policy makers *Politico-economic Dynamics of Eastern Europe* Reginald Trevor Davies,1980 **Economic and Financial Challenges for Eastern Europe** Nicos Sykianakis,Persefoni Polychronidou,Anastasios Karasavoglou,2019-07-11 The papers in this proceedings volume were presented at the 9th international conference The Economies of the Balkan and Eastern European Countries in the Changing World EBEEC held in Athens Greece in April 2017 They include the scientific results of research on current issues relevant for the wider area of Eastern Europe Authors from 30 different countries develop new ideas covering topics such as international economies European integration the economic crisis macroeconomics banking stock markets education energy innovation and marketing The contributions also examine the role of the economies of the Balkan and Eastern European countries in a pan European context **Money, Banking & Credit in the soviet union & eastern europe** Adam Zwass,2017-07-28 This title was first published in 1979 Essential information for understanding a credit system that is different from that of the Capitalist countries and which has evolved into an integral and essential part of soviet type economies Dr Zwass has done a workman like job in providing another valuable contribution to our knowledge of economies of eastern europe George Garvy **Wealth Creation in Eastern Europe** Fred R.
