Real Horror:

In Defense of Sentimentality Robert C. Solomon, 2004-08-26 Philosophy has as much to do with feelings as it does with thoughts and thinking Philosophy accordingly requires not only emotional sensitivity but an understanding of the emotions not as curious but marginal psychological phenomena but as the very substance of life In this the second book in a series devoted to his work on the emotions Robert Solomon presents a defense of the emotions and of sentimentality against the background of what he perceives as a long history of abuse in philosophy and social thought and art and literary criticism The title piece reopens a classic debate about the role of sentimentality in art and literature In subsequent chapters Solomon discusses not only such moral sentiments as sympathy and compassion but also grief gratitude love horror and even vengeance He also defends with appropriate caution the seven deadly sins The emotions at least some emotions are essential to a well lived life They are or can be virtues features of the human condition without which civilized life would be unimaginable

True to Our Feelings Robert C. Solomon, 2008-10-02 We live our lives through our emotions writes Robert Solomon and it is our emotions that give our lives meaning What interests or fascinates us who we love what angers us what moves us what bores us all of this defines us gives us character constitutes who we are In *True to Our Feelings* Solomon illuminates the rich life of the emotions why we don't really understand them what they really are and how they make us human and give meaning to life Emotions have recently become a highly fashionable area of research in the sciences with brain imaging uncovering valuable clues as to how we experience our feelings But while Solomon provides a guide to this cutting edge research as well as to what others philosophers and psychologists have said on the subject he also emphasizes the personal and ethical character of our emotions He shows that emotions are not something that happen to us nor are they irrational in the literal sense rather they are judgements we make about the world and they are strategies for living in it Fear anger love guilt jealousy compassion they are all essential to our values to living happily healthily and well Solomon highlights some of the dramatic ways that emotions fit into our ethics and our sense of the good life how we can make our emotional lives more coherent with our values and be more true to our feelings and cultivate emotional integrity The story of our lives is the story of our passions We fall in love we are gripped by scientific curiosity and religious fervor we fear death and grieve for others we humble ourselves in envy jealousy and resentment In this remarkable book Robert Solomon shares his fascination with the emotions and illuminates our passions in an exciting new way
