

Analysis of American History: The Key Events Essay

introduction

There was deep concern on whether or not, government system and economies exist to serve the American populace. Alexander Hamilton is a politician who represents the ancient days of American political life, the days in which individualism dominated the country. Individualism made many American citizens remain in poverty. Later, industrial revolution aroused that led to the advancement in machinery and modern industrial plants. The government role was merely to provide conditions within which people could live peacefully. For the dreams to be realized, it required use of potentials and ambitions to overcome problems of financing and engineering skills associated with the new development.

Colonization brought various benefits despite having affected people negatively. For example, when colonization was occurring in India, schools were established. If a country can distribute its wealth equally, then it is possible to minimize poverty rates. Everyone can own property, but a challenge has risen where few a few dominate the economy. Therefore, government need to endorse taxation scheme to make sure that wealth is equally distributed in the country's economy. According to the author, the government should assist the development of economic constitutional. This will result to equal distribution of resources and thus raising the living standards of the populace.

In reference to document 24-3, there were many inadequacies of the new deal as it did not do enough to protect Americans from misery. Some citizens own more than they require while others cannot afford the necessities. Hoover, in his speech, demonstrated a passion for a society whereby wealth is diffused to all citizens (Michael, p. 181). For fairness in the society, citizens
