place was transformed into a social recreational and commercial centre for the British authorities The railway construction boom introduction of tea plantation the growth of a commercial market for timber and increasing demands for fuel and building materials depleted the forest cover The less explored regions of Darjeeling attracted the adventure thirsty Britons A series of investigations were made on the marketable products the condition of roads and quality of soil of these regions The ethnographic geological botanical and zoological study of the Darjeeling was started by the colonial officials in the nineteenth century In the early stage of expansion of colonialism in Asia Africa Australia and South America the European colonizers faced numerous problems in dealing with the untouched nature The accumulation of the knowledge of surrounding regions and proper management of the labour became essential for the colonial authority for transformation of the existing environment of the densely forested tropical colonies Taylor and Francis does not sell or distribute the print editions of this book in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka
