Religion in Tennessee, 1777-1945 Herman Albert Norton, 1981 *Up from the Mudsills of Hell* Connie L. Lester, 2006

Up from the Mudsills of Hell analyzes agrarian activism in Tennessee from the 1870s to 1915 within the context of farmers lives community institutions and familial and communal networks Locating the origins of the agrarian movements in the state s late antebellum and post Civil War farm economy Connie Lester traces the development of rural reform from the cooperative efforts of the Grange the Agricultural Wheel and the Farmers Alliance through the insurgency of the People s Party and the emerging rural bureaucracy of the Cooperative Extension Service and the Tennessee Department of Agriculture Lester ties together a rich and often contradictory history of cooperativism prohibition disfranchisement labor conflicts and third party politics to show that Tennessee agrarianism was more complex and threatening to the established political and economic order than previously recognized As farmers reached across gender racial and political boundaries to create a mass movement they shifted the ground under the monoliths of southern life Once the Democratic Party had destroyed the insurgency farmers responded in both traditional and progressive ways Some turned inward focusing on a localism that promoted sometimes through violence rigid adherence to established social boundaries Others however organized into the Farmers Union whose membership infiltrated the Tennessee Department of Agriculture and the Cooperative Extension Service Acting through these bureaucracies Tennessee agrarian leaders exerted an important influence over the development of agricultural legislation for the twentieth century *Up from the Mudsills of Hell* not only provides an important reassessment of agrarian reform and radicalism in Tennessee but also links this Upper South state into the broader sweep of southern and American farm movements emerging in the late nineteenth century **Tennessee's Presidents** Frank Broyles Williams, 1981 Tennessee gave the United States three presidents Andrew Jackson James K Polk and Andrew Johnson To produce this illuminating account of their lives from their own points of view Professor Williams has drawn on letters biographies and monographs Although their family backgrounds and levels of education differed each of the three men developed an interest in politics early in his career and realized his greatest political success during the presidency Although none of the three considered himself a reformer each man made decisions that had lasting effects on the country In Tennessee s Presidents Frank B Williams Jr portrays Jackson Polk and Johnson as men influenced by their environments the issues of the day and the public they served Frank B Williams Jr is professor emeritus of history east Tennessee State University won that institution s Distinguished Faculty Award in 1977 The author of numerous articles he was the recipient of the 1955 McClung Award for the best article in Publications of the East Tennessee Historical Society

Echoes from the East Tennessee Historical Society, 1981 *Paths of the Past* Paul H. Bergeron, 1979 **The Scopes "Monkey Trial"** Randy Moore, 2022-11-07 This book introduces readers to the Trial of the Century revealing how the trial originated what caused and happened during and after the trial what happened to the trial s participants and why the trial

still matters nearly 100 years later Ongoing controversies about school curricula such as the teaching of Critical Race Theory and the role of parents in public education can all be traced to the Scopes Trial Today the question remains who controls the school curriculum This was a foundational issue in the Scopes Trial and we have been debating this question ever since This book will help readers understand where these controversies originated and how courts politicians and the public handled these issues nearly a century ago Featuring new information from previously untapped sources and providing an in depth study of John Scopes himself this book interrogates the facts fictions and legend of the Scopes Trial which historians rank as one of the defining events of the 20th century It is an ideal resource for anyone interested in the ongoing controversy about evolution science and religion in education and American life *The Publishers' Trade List Annual* ,1983 *Bearing the Torch* T.R.C. Hutton,2023-09-29 *Bearing the Torch* stands as a comprehensive history of the University of Tennessee replete with anecdotes and vignettes of interest to anyone interested in UT from the administrators and chancellors to students and alums and even to the Vols fans whose familiarity with the school comes mainly from the sports page It is also a biography of a school whose history reflects that of its state and its nation The institution that began as Blount College in 1794 in a frontier village called Knoxville exemplifies the relationship between education and American history This is the first scholarly history of UT since 1984 T R C Hutton not only provides a much needed update but also seeks to present a social history of the university fully integrating historical context and showing how the volume s central character the university itself reflects historical themes and concerns For example Hutton shows how the school s development was hampered in the early nineteenth century by stingy state funding a theme that also appears in subsequent decades and Jacksonian fears that publicly funded higher education equaled elite privilege The institution nearly disappeared as the Civil War raged in a divided region but then it flourished thanks to policies that never could have happened without the war In the twentieth century students embraced dramatic social changes as the university wrestled with race gender and other important issues In the Cold War era UT became a successful research institution and entered into a deep partnership with Oak Ridge National Laboratories that persists to this day All the while UT athletics experienced the highs of national championships and the lows of lawsuits and losing seasons UT is a university with a universe of historical experiences The University of Tennessee s story has always been defined by inclusion and exclusion and the school has triumphed when it practiced the former and failed when it took part in the latter *Bearing the Torch* traces that ongoing process richly detailing the University s contributions to what one president Joseph Estabrook called the diffusion of knowledge among the people **The Courier** ,1978 **RIC.** ,1982 **Books in Series** ,1985 Vols for 1980 issued in three parts Series Authors and Titles National Union Catalog, 1982 ,1983 Subject Catalog, 1982 Library of Congress,1982 **National Union Catalog** ,1982 Includes entries for maps and atlases *History News* ,1981 **Library of Congress Catalogs** Library of Congress,1983 **Subject Catalog** Library of Congress, **American Book Publishing Record** ,1990 **The Cumulative Book**
