Contagion Lawrence I. Conrad, Dominik Wujastyk, 2017-07-05 Contagion even today the word conjures up fear of disease and plague and has the power to terrify The nine essays gathered here examine what pre modern societies thought about the spread of disease and how it could be controlled to what extent were concepts familiar to modern epidemiology present What does the pre modern terminology tell us about the conceptions of those times How did medical thought relate to religious and social beliefs The contributors reveal the complexity of ideas on these subjects from antiquity through to the early modern world from China to India the Middle East and Europe Particular topics include attitudes to leprosy in the Old Testament and the medieval West conceptions of smallpox etiology in China witchcraft and sorcery as disease agents in ancient India and the influence of classical Greek medical theory An important conclusion is that non medical perceptions are as crucial as medical ones in people's beliefs about disease and the ways in which it can be combatted Today we may not believe in the power of demons but the idea that illness is retribution for sin retains great power as was shown by the popular reaction to the spread of AIDS HIV and this is a lesson from the past that the medical profession would do well to heed

Embodying the Vedas Borayin Larios, 2017-04-10 Popularly Hinduism is believed to be the world's oldest living religion This claim is based on a continuous reverence to the oldest strata of religious authority within the Hindu traditions the Vedic corpus which began to be composed more than three thousand years ago around 1750 1200

BCE The Vedas have been considered by many as the philosophical cornerstone of the Brahmanical traditions stika even previous to the colonial construction of the concept of Hinduism However what can be pieced together from the Vedic texts is very different from contemporary Hindu religious practices beliefs social norms and political realities This book presents the results of a study of the traditional education and training of Brahmins through the traditional system of education called gurukula as observed in 25 contemporary Vedic schools across the state of Maharashtra This system of education aims to teach Brahmin males how to properly recite memorize and ultimately embody the Veda This book combines insights from ethnographic and textual analysis to unravel how the recitation of the Vedic texts and the Vedic traditions as well as the identity of the traditional Brahmin in general are transmitted from one generation to the next in contemporary India
