

A landscape photograph featuring a winding, light-colored path that leads from the bottom center of the frame towards a bright, hazy horizon. The sky above is filled with dramatic, swirling clouds in shades of blue, green, and yellow, suggesting either a sunrise or sunset. In the middle ground, there's a small, dark tree standing on a grassy area where the path curves. The overall atmosphere is one of hope and guidance.

Religion Und Autoritat Der Weg Des Gottes Ohne Konkurrenz:

The Mystery of the Danube Civilisation Harald Haarmann, 2020-05-29 Over the last few decades archaeologists and cultural scientists have come to a better understanding of the extent of Neolithic civilisation on the Balkan peninsula This Danube Civilisation thriving between the 6th and 4th millennia BCE was using a writing system long before the Mesopotamians and is remarkable for its accomplishments in craftsmanship art and urban development In this book Harald Haarmann provides the first comprehensive insight into this enigmatic Old European culture which is still largely unknown to the greater public He describes the trade routes settlements mythology and writing system of this people traces the changes resulting from the arrival of the Indo Europeans and shows how this first advanced civilisation in Europe influenced its successors

The Axial Age and Its Consequences Robert N. Bellah, Hans Joas, 2012-10-31 This book makes the bold claim that intellectual sophistication was born worldwide during the middle centuries of the first millennium bce From Axial Age thinkers we inherited a sense of the world as a place not just to experience but to investigate envision and alter A variety of utopian visions emerged and led to both reform and repression

Advancement in Ancient Civilizations Harald Haarmann, 2020-09-21 Traditional scholarship on how ancient civilizations emerged is outmoded and new insights call for revision

According to the well established paradigm Mesopotamia is considered the cradle of civilization Following the cliche of ex oriente lux light from the East all major achievements of humankind spread from the Middle East Modern archaeology cultural science and historical linguistics indicate civilizations did not originate from a single prototype Several models produced divergent patterns of advanced culture developing both hierarchical and egalitarian societies This study outlines a panorama of ancient civilizations including the still little known Danube civilization now identified as the oldest advanced culture in Europe In a comparative view a new paradigm of research and a new cultural chronology of civilizations in the Old and New Worlds emerges with climate change shown to be a continual influence on human lifeways

Haarmann, 2002 **Religion und Autorität** Harald Haarmann, 1998 **La distinción mosaica** Jan Assmann, 2006-10-05

Ya sea cristiana judía o musulmana tolerante ilustrada o fundamentalista cualquier religión monoteísta es hija de una revolución religiosa ocurrida hace 3 000 años el paso de la multiplicidad de dioses al Dios único absoluto y omnicomprendedor Jan Assmann llama a ese desplazamiento la distinción mosaica El autor describe los cambios los cambios fundamentales que determinaron la trágica ruptura que supuso el paso del politeísmo al monoteísmo de una religión primaria comunitaria a otra secundaria de carácter universal Este cambio no solamente tiene un sentido teológico como transformación de la idea de Dios en cuanto a su universalidad sino que también conlleva una vertiente política con el paso de religión cultural a una religión del libro Pero no se trata tanto de la superación del politeísmo como expresión de la multiplicidad cosmopolita lo decisivo de

la distinción mosaica es el establecimiento de religiones ciertas y religiones falsas del conocimiento verdadero y la ignorancia de la creencia o incredencia. La ruptura se establece sobre la veracidad de la unicidad religiosa. Que esta unicidad se haya convertido en el curso de nuestra historia en una excusa para el odio y la exclusión convierte este ensayo en una provocación cultural al fundamentalismo religioso. Polémico y fascinante en este ambicioso trabajo sobre los orígenes del monoteísmo, Assmann sintetiza toda la concepción mnemohística que ya presentara en sus anteriores trabajos y combate aquellas opiniones que se han vertido en contra de la posición que mantuviera en Moisés el egipcio. La presente edición incluye además un apéndice con cinco artículos de diferentes especialistas publicados al hilo de la controversia que sus teorías han suscitado.
