## **Religion And Resistance Politics In South Africa:**

**Religion and Conflict Resolution** Megan Shore, 2016-04-08 This book examines the ambiguous role that Christianity played in South Africa's Truth and Reconciliation Commission TRC. It has two objectives: to analyse the role Christianity played in the TRC and to highlight certain consequences that may be instructive to future international conflict resolution processes. Religion and conflict resolution is an area of significant importance. Ongoing conflicts involving Palestinians and Israelis, Muslims and Hindus, and even radical Islamic jihadists and Western countries have heightened the awareness of the potential power of religion to fuel conflict. Yet these religious traditions also promote peace and respect for others as key components in doing justice. Examining the potential role religion can play in generating peace and justice specifically Christianity in South Africa's TRC is of utmost importance as religiously inspired violence continues to occur. This book highlights the importance of accounting for religion in international conflict resolution.

**Religion and Politics** John W. Storey, Glenn H. Utter, 2002-02-01 Focusing on religions such as Islam and Buddhism, this volume shows how religion influences politics and vice versa. Delving into such subjects as the separation of church and state in the United States, the domination of the state by religion in Iran, and the control of religion by the state in China, this survey illuminates cultural differences. This book gives a revealing look at the numerous relationships between religion and politics. In the Church of England, for example, the 26 most senior Anglican bishops have seats in the House of Lords. Religion and Politics also includes biographical sketches of thinkers and doers whose careers intersected religion and politics in significant ways, from the Berrigan brothers to Osama bin Laden. Also included are data and quotes, a directory of politically active religious groups, and a 150-page annotated bibliography.

*Religions of South Africa (Routledge Revivals)* David Chidester, 2014-06-27 First published in 1992, this title explores the religious diversity of South Africa, organizing it into a single coherent narrative and providing the first comparative study and introduction to the topic. David Chidester emphasizes the fact that the complex, distinctive character of South African religious life has taken shape with a particular economic, social, and political context, and pays special attention to the creativity of people who have suffered under conquest, colonialism, and apartheid. With an overview of African traditional religion, Christian missions, and African innovations during the nineteenth century, this reissue will be of great value to students of religious studies, South African history, anthropology, sociology, and political studies.

*Religion and International Relations* K.R. Dark, 2000-01-26 Discussions of religion in international relations have often focused narrowly on religious fundamentalism and on the potentially negative consequences of religious differences. This book attempts to take a more balanced and much broader view of the subject, bringing together new research-based studies by specialists from international relations, history, and theology. Case studies and thematic analyses examine both seldom-discussed issues such as the political consequences of large-scale religious change and review old themes in new ways.

**Religion, Politics, and Identity in a Changing South Africa** Abdulkader Tayob, Wolfram Weisse, David Chidester,

What is the role of religion in society In the wake of September 11 public intellectuals provided easy answers According to some religion was the problem others commented religion was the solution Generally public debate about the force of religion in society has been organized by either or propositions Religion is a force for either freedom or bondage for either peace or war for either mutual recognition or antagonistic polarization Analysis of religion and social change has also tended to be framed in terms of oppositions that inform research agendas and public policy In this book authors from South Africa the United States of America the Netherlands and Germany test these oppositions

Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

Christianity in Africa and the African Diaspora Roswith Gerloff, Afe Adogame, Klaus Hock, 2011-05-12 An exploration of the rapid development of African Christianity offering an analysis and interpretation of its movements and issues

**The Law and the Prophets** Daniel R. Magaziner, 2010 No nation can win a battle without faith Steve Biko wrote and as Daniel R Magaziner demonstrates in *The Law and the Prophets* the combination of ideological and theological exploration proved a potent force The 1970s are a decade virtually lost to South African historiography This span of years bridged the banning and exile of the country's best known antiapartheid leaders in the early 1960s and the furious protests that erupted after the Soweto uprisings of June 16 1976 Scholars thus know that something happened yet they have only recently begun to explore how and why *The Law and the Prophets* is an intellectual history of the resistance movement between 1968 and 1977 it follows the formation early trials and ultimate dissolution of the Black Consciousness movement It differs from previous antiapartheid historiography however in that it focuses more on ideas than on people and organizations Its singular contribution is an exploration of the theological turn that South African politics took during this time Magaziner argues that only by understanding how ideas about race faith and selfhood developed and were transformed in this period might we begin to understand the dramatic changes that took place

**Religion, Media, and the Public Sphere** Birgit Meyer, Annelies Moors, 2005-12-01 one of those rare edited volumes that advances social thought as it provides substantive religious and media ethnography that is good to think with Dale Eickelman Dartmouth College Increasingly Pentecostal Buddhist Muslim Jewish Hindu and indigenous movements all over the world make use of a great variety of modern mass media both print and electronic Through religious booklets radio

broadcasts cassette tapes television talk shows soap operas and documentary film these movements address multiple publics and offer alternative forms of belonging often in competition with the postcolonial nation state How have new practices of religious mediation transformed the public sphere How has the adoption of new media impinged on religious experiences and notions of religious authority Has neo liberalism engendered a blurring of the boundaries between religion and entertainment The vivid essays in this interdisciplinary volume combine rich empirical detail with theoretical reflection offering new perspectives on a variety of media genres and religions      *Religion and Resistance Politics in South Africa* Lyn S. Graybill, 1995-11-30 This study focuses on Christianity and black nationalism in South Africa and looks at four individuals Albert Lutuli Robert Sobukwe Steve Biko and Desmond Tutu to see how each leader's Christian beliefs influenced the political strategy he pursued Just as theology Calvinism was significant in the formulation of Afrikaner nationalism so too has theology variously interpreted been instrumental in the articulation of African nationalism The African National Congress ANC the Pan Africanist Congress PAC the Black Consciousness Movement BCM and the United Democratic Front UDF all relied on a Christian perspective and vocabulary to articulate the goals of black nationalism By tracing this religious thread through each of these various resistance movements the author has made a fascinating contribution to the literature of comparative politics African studies and the sociology of religion      Encyclopedia of the World's Minorities Carl Skutsch, 2013-11-07 This study of minorities involves the difficult issues of rights justice equality dignity identity autonomy political liberties and cultural freedoms The A Z Encyclopedia presents the facts arguments and areas of contention in over 560 entries in a clear objective manner For a full list of entries contributors and more visit the Encyclopedia of the World's Minorities website      Religious Imaginations James Walters, 2018-12-15 Market globalization technology climate change and postcolonial political forces are together forging a new more modern world However caught up in the mix are some powerful religious narratives that are galvanizing peoples and reimagining and sometimes stifling the political and social order Some are repressive fundamentalist imaginations such as the so called Islamic Caliphate Others could be described as post religious such as the evolution of universal human rights out of the European Christian tradition But the question of the compatibility of these religious worldviews particularly those that have emerged out of the Abrahamic faith traditions is perhaps the most pressing issue in global stability today What scope for dialogue is there between the Jewish Muslim and Christian ways of imagining the future How can we engage with these multiple imaginations to create a shared and peaceful global society Religious Imaginations is an interdisciplinary volume of both new and well known scholars exploring how religious narratives interact with the contemporary geopolitical climate      *Healing in the History of Christianity* Amanda Porterfield, 2005-08-25 Healing is one of the most constant themes in the long and sprawling history of Christianity Jesus himself performed many miracles of healing In the second century St Ignatius was the first to describe the eucharist as the medicine of immortality Prudentius a 4th century poet and Christian apologist celebrated the healing power of St Cyprian's

tongue Bokenham in his 15th century *Legendary* reported the healing power of milk from St Agatha's breasts Zulu prophets in 19th century Natal petitioned Jesus to cure diseases caused by restless spirits And Mary Baker Eddy invoked the Science of Divine Mind as a weapon against malicious animal magnetism In this book Amanda Porterfield demonstrates that healing has played a major role in the historical development of Christianity as a world religion Porterfield traces the origin of Christian healing and maps its transformations in the ancient medieval and modern worlds She shows that Christian healing had its genesis in Judean beliefs that sickness and suffering were linked to sin and evil and that health and healing stemmed from repentance and divine forgiveness Examining Jesus activities as a healer and exorcist she shows how his followers carried his combat against sin and evil and his compassion for suffering into new and very different cultural environments from the ancient Mediterranean to modern America and beyond She explores the interplay between Christian healing and medical practice from ancient times up to the present looks at recent discoveries about religion's biological effects and considers what these findings mean in light of ages old traditions about belief and healing Changing Christian ideas of healing Porterfield shows are a window into broader changes in religious authority church structure and ideas about sanctity history resurrection and the kingdom of God Her study allows us to see more clearly than ever before that healing has always been and remains central to the Christian vision of sin and redemption suffering and bodily resurrection

*The ANC and the Liberation Struggle in South Africa* Thula Simpson, 2018-10-03 The history of the ANC which is the oldest liberation movement on the African continent is one that has generated a great deal of interest amongst historians in recent years Gone are the days when the history of African nationalism could be relegated to the margins of the study of the South African past Instead with the ANC having ascended to the helm of political power a position it has maintained for over twenty years there can be no question that its history occupies an important and permanent place in the history of the nation This volume gathers together some of the most important contributions to the literature on the ANC's role in South Africa's struggle for liberation Besides important themes such as gender ethnicity and healthcare contributions from leading historians also address why the ANC decided to engage in armed struggle what role the South African Communist Party played in making this decision how the ANC External Mission contributed to the upsurge of mass protest in South Africa in the 1970s and 1980s and the ANC's contribution relative to the other components of the liberation struggle in ensuring the eventual demise of the old racial order The chapters in this book were originally published in the *South African Historical Journal* the *Journal of Southern African Studies* and *African Studies*
