

What are religious attitudes to social justice?

**BLACK
LIVES
MATTER**

STARTER:

Challenge: What do you think we mean by the term 'social justice'?

More challenging: How would you expect Christians or Muslims to react towards 1) the BLM movement 2) Feminist movements.

Mega challenge: Explain whether any social justice movements you can think of could clash with some conservative religious ideas.

Religion And Social Justice:

Religion and Social Justice S. Thakur, 1996-10-04 This book is a philosophical examination of the relationship between religion and social justice Its main thesis is that since the primary purpose of religion is the moral and spiritual transformation of human nature it ought not to be construed as a direct instrument of social justice on earth as it is by Liberation theologians for example as well as by many liberal Christians and Jews Indirectly however religion may well be a pre condition of social justice For it can be argued that without the counteracting effects of the moral and spiritual values prescribed by religion the liberal vision of individual rights and social justice may be self defeating Humanity is best served if this liberal vision is counterbalanced by the completely contrary utopia enshrined in the biblical idea of the kingdom of God and its equivalents in the other great religions of the world *Religion and Social Justice* Shivesh Chandra Thakur, 1996

Religion and Social Justice For Immigrants Pierrette Hondagneu-Sotelo, 2006-10-18 Religion has jumped into the sphere of global and domestic politics in ways that few would have imagined a century ago Some expected that religion would die as modernity flourished Instead it now stares at us almost daily from the front pages of newspapers and television broadcasts Although it is usually stories about the Christian Right or conservative Islam that grab headlines there are many religious activists of other political persuasions that are working quietly for social justice This book examines how religious immigrants and religious activists are working for equitable treatment for immigrants in the United States The essays in this book analyze the different ways in which organized religion provides immigrants with an arena for mobilization civic participation and solidarity Contributors explore topics including how non Western religious groups such as the Vietnamese Caodai are striving for community recognition and addressing problems such as racism economic issues and the politics of diaspora how interfaith groups organize religious people into immigrant civil rights activists at the U S Mexican border and how Catholic groups advocate governmental legislation and policies on behalf of refugees **Religion as social justice**

Charles Marsh, 2008-07-31 A noted theologian explains how the radical idea of Christian love animated the African American civil rights movement and how it can power today's social justice struggles Speaking to his supporters at the end of the Montgomery bus boycott in 1956 Martin Luther King Jr declared that their common goal was not simply the end of segregation as an institution Rather the end is reconciliation the end is redemption the end is the creation of the beloved community King's words reflect the strong religious convictions that motivated the African American civil rights movement As King and his allies saw it Jesus had founded the most revolutionary movement in human history a movement built on the unconditional love of God for the world and the mandate to live in that love Through a commitment to this idea of love and to the practice of nonviolence civil rights leaders sought to transform the social and political realities of twentieth century America In *The Beloved Community* theologian and award winning author Charles Marsh traces the history of the spiritual vision that animated the civil rights movement and shows how it remains a vital source of moral energy today *The Beloved Community* lays out an exuberant new vision for progressive Christianity and reclaims the centrality of faith in the quest for social justice and authentic community *Christian Faith and Social Justice: Five Views* Vic McCracken, 2014-06-19 The Judeo Christian tradition testifies to a God that cries out demanding that justice roll down like waters righteousness like an ever flowing stream Amos 5:24 Christians agree that being advocates for justice is critical to the Christian witness And yet one need not look widely to see that Christians disagree about what social justice entails What does justice have to do with healthcare reform illegal immigration and same sex marriage Should Christians support tax policies that effectively require wealthy individuals to fund programs that benefit the poor Does justice require that we acknowledge and address the inequalities borne out of histories of gender and ethnic exclusivity Is the Christian vision distinct from non Christian visions of social justice Christians disagree over the proper answer to these questions In short Christians agree that justice is important but disagree about what a commitment to justice means *Christian Faith and Social Justice* makes sense of the disagreements among Christians over the meaning of justice by bringing together five highly regarded Christian philosophers to introduce and defend rival perspectives on social justice in the Christian tradition While it aspires to offer a lucid introduction to these theories the purpose of this book is more than informative It is purposefully dialogical and is structured so that contributors are able to model for the reader reasoned exchange among philosophers who disagree about the meaning of social justice The hope is that the reader is left with a better understanding of range of perspectives in the Christian tradition about social justice **Christian Faith and Social Justice** Vic McCracken, The Judeo Christian tradition testifies to a God that cries out demanding that justice roll down like waters righteousness like an ever flowing

Smith,2016-07-11 There has always been an intricate relationship between religion and politics This encyclopedia provides a comprehensive overview of the interrelation of religion and politics from colonial days to the present Can a judge display the

Ten Commandments outside of the courthouse Can a town set up a nativity scene on the village green during Christmas Should U S currency bear the In God We Trust motto Should public school students be allowed to form bible study groups Controversies about the separation of church and state the proper use of religious imagery in public space and the role of religious beliefs in public education are constantly debated This work offers insights into contemporary controversies regarding the uneasy intersections of religion and politics in America Organized alphabetically the entries place each topic in its proper historical context to help readers fully grasp how religious beliefs have always existed side by side and often clashed with political ideals in the United States from the time of the colonies The information is presented in an unbiased manner that favors no particular religious background or political inclination This work shows that politics and religion have always had an impact on one another and have done so in many ways that will likely surprise modern students

SPIRITUALITY AND SOCIAL JUSTICE Norma Jean Profitt, Cyndy Baskin, 2019 Over the past three decades there has been an appreciably renewed interest in spirituality and or religion in social work practice Spirituality and Social Justice explores how critically informed spirituality i e spirituality grounded in a critical social work framework theory serves as a political force and an inspiration in the pursuit of social and ecological justice in the social work profession Writing from various spiritual and religious backgrounds including Indigenous Wiccan Islamic and Christian the contributors social work practitioners and academics alike draw on spiritual practices lived experiences research and literature to illuminate how spirituality orients their ways of being and acting in the world to build a kinder fairer and more egalitarian society Arguing for a critical conceptualization of spirituality as the practice of ethical relations and moral accountability this collection raises the spiritual challenge for the social work profession of facing historical and contemporary forms of the colonization of Indigenous Peoples and moving toward ally ship and solidarity with them Furthermore this collection highlights the indivisibility of spirituality from the everyday efforts to pursue social justice through right relationships and individual and collective actions thereby challenging the notion that social work practice requires one to leave one s faith and spirituality at the door to be an unbiased practitioner and embracing the fact that one s spirituality is at the core of who one is It also accentuates how spirituality in the quest for social justice is actualized Part One foregrounds Indigenous spirituality as resistance and decolonization Part Two further explores the complex subject of the ethical and political dimensions of spirituality from a variety of spiritual and religious worldviews and Part Three delves into spirituality in teaching and learning contexts both inside and beyond the social work classroom **Social Justice and the Churches** JOHN D'ARCY. MAY, 2017-06-30 Social justice is not just a matter of applying well known first principles shared by all Christian traditions As these papers by representatives of seven Australian Churches show Christian approaches to social justice are star tlingly distinctive both in their starting points and in the positions arrived at on urgent matters of human rights sexual ethics and economic justice Led off by the well known Jesuit human rights advocate Professor Frank Brennan the book includes

contributions by Fr Max Vodola Roman Catholic Revd Gerard Rose Churches of Christ Revd Geoff Pound Baptist Revd Raymond Cleary Anglican Mark Zirnsak Uniting Church Major Jenny Begent Salvation Army and Fr Shenouda Boutros Coptic Orthodox Church with concluding reflections by Margaret Coffey ABC Radio National This book is the work of the Yarra Institute for Religion and Social Policy an independent ecumenical organisation promoting scholarship and research on Christian social traditions as they bear on current concerns Launched in 2009 by Professor Brian Howe the Yarra Institute is committed to engaging with our broader culture collaboratively to promote human wellbeing The authors of these chapters come from seven of the Christian traditions which have theological Colleges comprising the University of Divinity in Melbourne

All Religions Believe in Justice, 2017 This case study explores the contributions that ecumenical faith based activist groups make to economic social justice movements The study looks at how religious leaders frame social justice issues within their faith communities the role faith plays in social movements and how various faith traditions work together to achieve their common goals Furthermore I consider how religion motivates faith leaders to participate in activist movements and look at how these religious figures use their role as a moral authority to bring about social change In order to investigate these questions I conducted in depth interviews with 10 members of the Interfaith Center for Worker Justice ICWJ a faith based activism group in San Diego I also conducted participant observation with the Interfaith Center for Worker Justice and the Justice Can't Wait Coalition This study found that ecumenical faith groups have four major objectives in social justice movements educating about social issues deescalating community issues on an interpersonal level acting as a witness in situations of injustice and coalition building with both religious and secular groups Additionally faith leaders are skilled at providing a moral framework for social justice movements that links political beliefs to ethical or religious beliefs
