*Religion and patterns of social transformation* Dinka Marinović-Jerolimov, 2001

*Religion, Truth, and Social Transformation* Lambert Zuidervaart, 2016-04-01 Reformational philosophy rests on the ideas of nineteenth century educator church leader and politician Abraham Kuyper and it emerged in the early twentieth century among Reformed Protestant thinkers in the Netherlands Combining comprehensive criticisms of Western philosophy with robust proposals for a just society it calls on members of religious communities to transform harmful cultural practices social institutions and societal structures Well known for his work in aesthetics and critical theory

Lambert Zuidervaart is a leading figure in contemporary reformational philosophy. In *Religion Truth and Social Transformation*, the first of two volumes of original essays from the past thirty years, he forges new interpretations of art, politics, rationality, religion, science, and truth. In dialogue with modern and contemporary philosophers among them Immanuel Kant, G. F. H. Hegel, Martin Heidegger, Theodor Adorno, Jürgen Habermas, and reformational thinkers such as Herman Dooyeweerd, Dirk Vollenhoven, and Hendrik Hart, Zuidervaart explains and expands on reformational philosophy's central themes. This interdisciplinary collection offers a normative critique of societal evil, a holistic and pluralist conception of truth, and a call for both religion and science to serve the common good. Illustrating the connections between philosophy, religion, and culture, and daring to think outside the box, *Religion Truth and Social Transformation* gives a voice to hope in a climate of despair.

Faith Movements and Social Transformation Samta P. Pandya, 2018-12-11 This book examines the role of Hindu inspired faith movements (HIFMs) in contemporary India as actors in social transformation. It further situates these movements in the context of the global political economy where such movements cross national boundaries to locate believers among the Hindu diaspora and others. In contemporary neoliberal India, HIFMs have become important actors and they realize themselves by making public assertions through service. The four pillars of the contemporary presence of such movements are gurus, sociality, hegemony, and social transformation. Gurus who spearhead these movements create a matrix of possible meanings in their public discourses which their followers pick up to create messages of personal and social change. Sociality is a core strategy of proliferation across such movements and implies social service which is qualified by memories of the guru and what they are believed to embody. Hegemony is reflected in the fact that social service in such movements often ominously imbibes right wing or far right Hinduism. They propose a model of Hindu inspired social transformation involving faith building into and transforming the civil society. The book discusses in a nuanced way several Hindu inspired faith movements of various hues which have made national and international impact. This topical book is of interest to students and researchers in the fields of sociology, anthropology, social work, and social psychology, with a special interest in the study of religious movements.

*Religion, Media, and Social Change* Kennet Granholm, Marcus Moberg, Sofia Sjö, 2014-09-19 In an era of heightened globalization, macro level transformations in the general socioeconomic and cultural makeup of modern societies have been studied in great depth. Yet little attention has been paid to the growing influence of media and mass mediated popular culture on contemporary religious sensibilities, life, and practice. *Religion Media and Social Change* explores the correlation between the study of religion, media, and popular culture and broader sociological theorizing on religious change. Contributions devote serious attention to broadly defined media, including technologies, institutions, and social and cultural environments, as well as mass mediated popular culture such as film, music, television, and computer games. This interdisciplinary collection addresses important theoretical and methodological questions by connecting the study of media and popular culture to current perspectives, approaches, and discussions in the broader sociological study of religion.

Christiano, 1987 Floods of immigration and rapid industrialization and urbanization in America at the turn of the century set in motion the transformation of many long established institutions This book examines specific ways in which cultural changes affected the structure of the religious establishment Statistical models are applied to United States Census data from 1890 and 1906 on city and church populations revealing connections between the growth of cities the increase in literacy and the formation of ethnic subcommunities that led to a new level of religious diversity The author analyses evidence of growing competition among churches and of a level of individual commitment to congregations demonstrating that the patterns of religious community established at the turn of the century provided the basis for the current denominational system The author further analyses the relationship of religious diversity to urban secularization as well as its role as a catalyst to sectarian conflict In offering a quantitative assessment of issues central to the history of American religion this book is a significant contribution to the study of religion in America **Religion and Social Change in Modern Turkey** Şerif Mardin, 1989-07-01 Ori-Oke Spirituality and Social Change in Africa Nathanael Yaovi, U.
