Religion And Society In The Age Of Saint Augustine:

emphasis is on the unfettered stance that he took in the face of more broadly held convictions on miracles for example and the errors of the pagan past The discussion then moves on to **Saeculum** Robert A. Markus,1970 **The Magician, the Witch, and the Law** Edward Peters,1978 Helps to place our understanding of medieval witchcraft into a broader context Sheds light on the various genres of literature in which magic was discussed Speculum Magic in the Middle Ages Richard Kieckhefer,2000-05 How was magic practised in medieval times How did it relate to the diverse beliefs and practices that characterised this fascinating period In Magic in the Middle Ages Richard Kieckhefer surveys the growth and development of magic in medieval times He examines its relation to religion science philosophy art literature and politics before introducing us to the different types of magic that were used the kinds of people who practised magic and the reasoning behind their beliefs In addition he shows how magic served as a point of contact between the popular and elite classes how the reality of magical beliefs is reflected in the fiction of medieval literature and how the persecution of magic and witchcraft led to changes in the law This 2000 book places magic at the crossroads of medieval culture shedding light on many other aspects of life in the middle ages Marriage, Celibacy, and Heresy in Ancient Christianity David G. Hunter,2007-01-26 Marriage Celibacy and Heresy in Ancient Christianity is the first major study in English of the heretic Jovinian and the Jovinianist controversy David G Hunter examines early Christian views on marriage and celibacy in the first three centuries and the development of an anti heretical tradition He provides a thorough analysis of the responses of Jovinian s main opponents including Pope Siricius Ambrose Jerome Pelagius and Augustine In the course of his discussion Hunter sheds new light on the origins of Christian asceticism the rise of clerical celibacy the development of Marian doctrine and the formation of orthodoxy and heresy in early Christianity Debate and Dialogue Maijastina Kahlos,2016-05-13 This book explores the construction of Christian identity in fourth and fifth centuries through inventing fabricating and sharpening binary oppositions Such oppositions for example Christians pagans truth falsehood the one true god the multitude of demons the right religion superstition served to create and reinforce the Christian self identity The author examines how the Christian argumentation against pagans was intertwined with self perception and self affirmation Discussing the relations and interaction between pagan and Christian cultures this book aims at widening historical understanding of the cultural conflicts and the otherness in world history thus contributing to the ongoing discussion about the historical and conceptual basis of cultural tolerance and intolerance This book offers a valuable contribution to contemporary scholarly debate about Late Antique religious history and the relationship between Christianity and other religions *Theology Shaped by Society* Robin Gill,2017-05-15 *Theology Shaped by Society* argues that the sociology of knowledge can make an important contribution to theology Part I argues that theology can be seen as a socially constructed reality that is sometimes dangerously related to power but at other times that is a positively engaged discipline taking the risk of being shaped by particular societies and cultures From this second perspective theology is seen properly as a thoroughly relational discipline

as itself a social system Part II examines mission shaped by society and maps this in practical terms by examining recent and surprising religious trends in York Part III shows how music can imaginatively shape theology and reveal unexpected resonances Over the last 30 years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology The time is right to revisit the dialogue between theologians and sociologists In his new trilogy on Sociological Theology Robin Gill makes a renewed contribution to the mapping of three abiding ways of relating theology and sociology with the three volumes covering Theology in a Social Context Theology Shaped by Society and Society Shaped by Theology

The Church in Ancient Society Henry Chadwick, 2001-12-14 The Church in Ancient Society provides a full and enjoyable narrative history of the first six centuries of the Christian Church Ancient Greek and Roman society had many gods and an addiction to astrology and divination This introduction to the period traces the process by which Christianity changed this and so provided a foundation for the modern world the teaching of Jesus created a lasting community which grew to command the allegiance of the Roman emperor Christianity is discussed in relation to how it appeared to both Jews and pagans and how its Christian doctrine and practice were shaped in relation to Graeco Roman culture and the Jewish matrix Among the major figures discussed are Tertullian Clement of Alexandria Origen Constantine Julian the Apostate Basil Ambrose and Augustine Following a chronological approach Henry Chadwick's clear exposition of important texts and theological debates in their historical context is unrivalled in detail In particular theological and ecclesial texts are examined in relation to the behaviour and beliefs of people who attended churches and synagogues Christians did not find agreement and unity easy and the author displays a distinctive concern for the factors theological personal and political which caused division in the church and prevented reconciliation The emperors however began to foster unity for political reasons and to choose monotheism Finally the Church captured the society

Melania Catherine Michael Chin, Caroline T. Schroeder, 2020-10-27 Melania the Elder and her granddaughter Melania the Younger were major figures in early Christian history using their wealth status and forceful personalities to shape the development of nearly every aspect of the religion we now know as Christianity This volume examines their influence on late antique Christianity and provides an insightful portrait of their legacies in the modern world Departing from the traditionally patriarchal view Melania gives a poignant and sometimes surprising account of how the rise of Christian institutions in the Roman Empire shaped our understanding of women's roles in the larger world

A Biography, Revised Edition with a New Epilogue Peter Brown, 2000-11-24 Classic biography published 30 years ago Contains new thoughts in a 2 chapter epilogue

Pelagius Brinley Roderick Rees, 1998 Professor Rees here re-examines the evidence for the Pelagian controversy The second part of the book consists of Pelagius letters which provide the clearest and most succinct statements of Pelagian theology but few of which have ever been translated into English before from publisher description

Heresy and Authority in Medieval

Europe Edward Peters, 2011-09-22 Throughout the Middle Ages and early modern Europe theological uniformity was synonymous with social cohesion in societies that regarded themselves as bound together at their most fundamental levels by a religion To maintain a belief in opposition to the orthodoxy was to set oneself in opposition not merely to church and state but to a whole culture in all of its manifestations From the eleventh century to the fifteenth however dissenting movements appeared with greater frequency attracted more followers acquired philosophical as well as theological dimensions and occupied more and more the time and the minds of religious and civil authorities In the perception of dissent and in the steps taken to deal with it lies the history of medieval heresy and the force it exerted on religious social and political communities long after the Middle Ages In this volume Edward Peters makes available the most compact and wide ranging collection of source materials in translation on medieval orthodoxy and heterodoxy in social context

Light to the Isles Douglas Dales, 2010-10-29 In this book Dales succeeds in shedding new light on the theological approach to the evangelism of The British Isles and the work of missionaries to and from the British Isles in the Western church throughout the period 400 800 AD Although the historical value of the literary texts analysed is substantial this study gives them an inherent theology pre eminence This reprint is thus an examination of particular people and the beliefs they shared with those who remembered them and who caused these texts to be written Through these pages we discover that the origin of hagiographical literature in this specific area comes from a remote and singular period when the memory of the Roman era and of the church fathers was ever present It was because of the barbarous condition that the Church faced that the stream that fought to keep Latin Christian culture alive to nurture monastic education missionary activity and the ascetic cultivation of sanctity remained hidden

The Politics of Heresy in Ambrose of Milan Michael Stuart Williams, 2017-10-19 Ambrose of Milan is famous above all for his struggle with and triumph over Arian heresy Yet almost all of the evidence comes from Ambrose's own writings and from pious historians of the next generation who represented him as a champion of orthodoxy This detailed study argues instead that an Arian opposition in Milan was largely conjured up by Ambrose himself lumping together critics and outsiders in order to secure and justify his own authority Along with new interpretations of Ambrose's election as bishop his controversies over the faith and his clashes with the imperial court this book provides a new understanding of the nature and significance of heretical communities in Late Antiquity In place of rival congregations inflexibly committed to doctrinal beliefs it envisages a world of more fluid allegiances in which heresy but also consensus could be a matter of deploying the right rhetorical frame

Roman Perspectives John Matthews, 2009-12-31 The fifteen papers in this volume discuss issues of Roman social cultural and political history from the foundation of the Principate to the age of barbarian settlements of the west Working imaginatively from within the diverse evidence they show the institutional continuity of the Roman empire between its early and later periods and reveal the roots of political behaviour in social practice Five of the papers including three of the most substantial are previously unpublished others have appeared in collections which are now difficult to find The author has edited the whole to bring out thematic connections as well as for consistency of presentation

Society and the Holy in Late Antiquity Peter Brown, 1989-10-25 With the blend of art and learning that is the hallmark of his work Peter Brown here examines how the sacred impinged upon the profane during the first Christian millennium
