Religious Schism in the Russian Aristocracy 1860-1900 Radstockism and Pashkovism E. Heier, 2012-12-06 My research in the intellectual and spiritual sphere of nineteenth century Russia revealed that ever since the penetration of the fashion able anti ecclesiastical views of the Encyclopedists into Russia the aristocrats had grown indifferent to religion The spiritual vacuum created as a result of such conditions could not last however for a prolonged period of time least of all during the decades following the 1860 s when Russia s moral socio political and religious problems were most acute The subsequent quest for salvation and the general religious inquiry among Russia s elite as they were known in the West manifested itself chiefly in the writings of such profound religious and philosophical thinkers as V Solov'ev K Leont'ev N Fedorov Dos toevskij and Tolstoj They constitute however only a fraction of those tormented by the longing for religious truth and guidance in an age of transition and uncertainty There existed among Russia s aristocracy in the second half of the nineteenth century a widespread socio religious movement known as Radstockism or Pashkovism which aimed for a religious renovation and with it a transformation of Russia on an ethical and moral basis These aristocrats were men and women who in their youth were in different to all faith but who had never abandoned the search for a solution to their own and to Russia s problems The solution to these problems they believed to be based on moral and religious principles found in Evangelical Christianity

Russian Messianism Peter J. S. Duncan, 2002-11 This unique work will be of great interest to those engaged in politics and Russian studies as well as professionals dealing with Russia

Soviet Evangelicals since World War II Walter Sawatsky, 2007-02-19 Nearly annihilated in the Stalinist persecutions of the 1930s Soviet evangelicals emerged after the war in successive revival waves The extremities of survival brought four evangelical denominations into a single state approved union This book describes the subsequent unity struggles devoting major attention to the Reform Baptist split in 1961 when Soviet authorities again tried to destroy the movement The book describes regional differences techniques for evangelism and the lifestyle of local and regional leaders both the legally registered ones and those hiding from the authorities It also includes a frank description and analysis of the major missions to Eastern Europe as well as the foreign relations of Soviet evangelicals Every chapter raises issues for reflection often paradoxical about how the church should live in an unfriendly environment Illustrative material throughout personalizes a story that is overburdened with tragedy pathos and conflict The book is intended to fill a serious gap in the literature by providing a reliable sensitive treatment of a subject suffering from exaggerations on the one hand and the inadequate candor of Soviet spokesmen on the other It is based on a broad range of sources some of which were uniquely available to the author The more we understand each other the easier it is to love each

other and to combat the suspicions that lead to war **A History of Orthodox, Islamic, and Western Christian Political Values** Dennis J. Dunn, 2016-09-13 The book reveals the nexus between religion and politics today and shows that we live in an interdependent world where one global civilization is emerging and where the world's peoples are continuing to coalesce around a series of values that contain potent Western overtones Both Putin's Orthodox Russia and regions under the control of such Islamist groups like ISIS and Al Qaeda resent and attempt in a largely languishing effort to frustrate this series of values The book explains the current tension between the West and Russia and parts of the Muslim world and sheds light on the causes of such crises as the Syrian Civil War Russia's aggression against Ukraine and acts of terrorism such as 9/11 and the ISIS inspired massacres in Paris It shows that religion continues to affect global order and that knowledge of its effect on political identity and global governance should guide both government policy and scholarly analysis of contemporary history

And God Created Lenin Paul Gabel, 2010-10-04 This book examines in depth the conflict between Lenin's logic-driven efforts to stamp out religion and the churches' passionate attempts to save themselves from obliteration It looks at both sides objectively and admits that they both presented strong cases In this thoroughly researched yet accessible study historian Paul Gabel offers a new understanding of the only effort in world history to upset the universality of religion Besides the main conflict between the Russian Orthodox Church and the atheist state Gabel also considers the tensions that this campaign against religion caused within the Communist Party In addition he discusses the bitter hatred dividing the Orthodox factions that refused cooperation with the government from those that tried to adapt the church to communism Was the failure of Soviet communism to eradicate religion simply a matter of practical miscalculation or was this effort in light of the persistence of religion throughout history ultimately unrealistic and doomed from the start This is the key question that Gabel's fascinating insightful narrative attempts to answer Religion in Russia Robert Pierce

Casey,1946 **Soviet Law and Soviet Society** George C. Guins,2012-12-06 Soviet power rests on two main supports the complete economic dependence of the citizens upon the state and the unlimited political control of the government over the economic social and even cultural life History knows various kinds of despotisms dictatorships and regimentations of economic activity but the U S S R represents a unique kind of dictatorship based on the one party system and integral planning with the specific goal of realization of communism Mankind had never before known such a system Even the best of possible comparisons the analogy with the period of Ptolemies in Egypt is good only in so far as it concerns the regimentation of all kind of economic activity There was in the past no ideology pretending to be adjusted to the needs of the toiling masses no planning system on the same scale and no Communist party apparatus As concerns the modern world the comparative method is necessary for giving the most graphical characterization of the differences between the Western democracies with their ethical traditions rule of law and the principle of the inviolability of individual rights and on the other hand the Soviet monolithic state with its unscrupulous policy extremities of regimentations and drastic penalties **Soviet Nationalities in Strategic Perspective** S. Enders Wimbush,2021-01-26 This book first published in 1985 examines the problem of nationality in the Soviet empire Nationality issues affect many of the critical domestic and foreign policy questions that faced the Soviet leadership Nationality trends in the 1980s conduced to make the relationship between Soviet domestic nationality concerns and Soviet foreign policy clearer the problem both affected and was affected by its strategic environment This book analyses this environment and the forces at work within it *The Modern Encyclopedia of Russian and Soviet History* Joseph L.
