**Religions/Globalizations** Dwight N. Hopkins, Lois Ann Lorentzen, Eduardo Mendieta, David Batstone, 2001-10-03 A collection of essays demonstrating the ways diverse religious rituals symbols ethics and ideologies perform as primary planks in the construction of the public realm with particular focus on peripheral nations and politicized spiritualities of resist *New Religions and Globalization* Armin Geertz, Margit Warburg, 2008-08-01 Globalization is a predominant theme in contemporary educational and political circles Research on globalization has become a political priority because the world has become a single place as Roland Robertson formulated it where events in any particular part of the world can and often do have political economical and military consequences for the rest of the world Discourse on globalization however has generally ignored the cultural consequences Recent waves of violence that seem to be religiously fueled if not motivated among immigrants and refugees in Europe and their home regions in the Middle East have demonstrated that we can only ignore culture values and religion at our own peril Globalization and new religions is the theme of this book It is argued here that studying new religions in a globalization perspective offers theoretical and methodological advantages both for the general study of religion and the general study of globalization Religions are often cosmopolitan and universal in their overall message yet they may at the same time be utterly immersed in local interactions This is often clearly expressed among minority religions The contrast of the local and the global is accentuated by globalization and in particular many new religions have followed suit This book draws together a selection of top quality papers given at a conference held in Aarhus in 2002 under the auspices of the Research Network on New Religions RENNER The papers which have been edited and up dated represent the work of leading scholars in the history of religions sociology of religion psychology of religion and other disciplines They address questions that are vital for everyone in the modern world whether approached as a reflection of world economy and power dynamics new possibilities of communication and cultural exchange in the light of mass media and technology increased cultural plurality in the wake of migration or as a combination of any of these globalization challenges the academic study of religion to renewed theoretical and methodological reflection

the perseverance of African religion wherever its adherents settled in the New World Among the most significant manifestations of this spirit Yor b religious culture persisted adapted and even flourished in the Americas especially in Brazil and Cuba where it thrives as Candombl and Lukumi Santer a respectively After the end of slavery in the Americas the free migrations of Latin American and African practitioners has further spread the religion to places like New York City and Miami Thousands of African Americans have turned to the religion of their ancestors as have many other spiritual seekers who are not themselves of African descent If divination in Nigeria Candombl funerary chants in Brazil the role of music in Yor b revivalism in the United States gender and representational authority in Yor b religious culture these are among the many subjects discussed here by experts from around the world Approaching r s devotion from diverse vantage points their collective effort makes this one of the most authoritative texts on Yor b religion and a groundbreaking book that heralds this rich complex and variegated tradition as one of the world s great religions *Citizens of the World* Margit

Warburg,2018-08-14 *Citizens of the World* deals with the Baha is and their religion While covering the historical development in sufficient detail to serve as a general monograph on Baha i emphasis is laid on examining contemporary Baha i with the Danish Baha i community as a recurrent case The book discusses Baha i religious texts rituals economy everyday life demographic development mission strategies leadership and international activism in analyses based on primary material such as interview studies among the Baha is fieldwork data from the Baha i World Centre in Israel and field trips around the world The approach is a combination of history of religions and sociology of religion within a theoretical framework of religion and globalisation Several general topics in the study of new religions are covered The book contributes to the theoretical study of globalisation by proposing a new model for analysing globalisation and transnational religions

**Religious Persecution and Political Order in the United States** David T. Smith,2015-11-12 This book explains why the United States a country that values religious freedom has persecuted some religious minorities while protecting others It explores the experiences of Mormons Jehovah s Witnesses Jews Catholics and Muslims arguing that the state will persecute a religion if it sees it as a political threat **Islam in Global Politics** Bassam Tibi,2012-03-12 This book examines global and local politics and how Islam impacts on civilizational relations between different groups and polities In particular he

examines how Islamism as opposed to Islam becomes an immediate source of tension and conflict between the secular and the religious Tibi rejects the clash of civilizations theory and argues for the revival of Islamic humanism to help bridge the gap **Political Theology of International Order** William Bain,2020-04-09 Is contemporary international order truly a secular arrangement Theorists of international relations typically adhere to a narrative that portrays the modern states system as the product of a gradual process of secularization that transcended the religiosity of medieval Christendom William Bain challenges this narrative by arguing that modern theories of international order reflect ideas that originate in medieval theology They are in other words worldly applications of a theological pattern This ground breaking book makes two key

contributions to scholarship on international order First it provides a thorough intellectual history of medieval and early modern traditions of thought and the way in which they shape modern thinking about international order It explores the ideas of Augustine Thomas Aquinas William of Ockham Martin Luther and other theologians to rise above the sharp differentiation of medieval and modern that underpins most international thought Uncovering this theological inheritance invites a fundamental reassessment of canonical figures such as Hugo Grotius and Thomas Hobbes and their contribution to theorizing international order Second this book shows how theological ideas continue to shape modern theories of international order by structuring the questions theorists ask as well as the answer they provide It argues that the dominant vocabulary of international order system and society anarchy balance of power and constitutionalism is mediated by the intellectual commitments of nominalist theology It concludes by exploring the implications of thinking in terms of this theological inheritance albeit in a world where God is only one of several possibilities that can called upon to secure the regularity of order

Political Islam, World Politics and Europe Bassam Tibi,2014-07-11 The new and updated edition of Political Islam World Politics and Europe focusses on the shift within political Islam in light of 9 11 and the events of the Arab Spring from a

jihadist struggle to institutional Islamism Refuting what has often been referred to by commentators as the moderation of Islamism the second edition of this book introduces the concept of institutional Islamism a process which Tibi argues was accelerated in the aftermath of the Arab Spring Both jihadist and institutional Islamism pursue the same goal of an Islamist state but disagree fundamentally on the strategy for achieving it Whilst jihadism is committed to the idea of a violent Islamic world revolution institutional Islamism embraces political institutions as a means to an end Turning to the events of the Arab Spring in Tunisia Libya and Egypt this book attempts to determine whether an abandonment of violence is enough to underpin a shift to genuine democracy Analysing the fall of Morsi in particular Tibi questions what lessons can be learnt from his presidency and argues that this event will not change the overall trend of development from jihadism to institutional Islamism A timely addition to existing literature this book will be of interest to students and scholars studying Middle Eastern and European Politics Political Islam and International Relations

**Islam Between Culture and Politics** Bassam Tibi, 2005-08-31 Bassam Tibi offers a radical solution to the problems faced by Islam in a rapidly changing and globalizing world He proposes a depoliticization of the faith and the introduction of reforms to embrace secular democracy pluralism civil society and individual human rights The alternative to this is the impasse of fundamentalism The pivotal argument is that Islam is being torn between the pressure for cultural innovation and a defensive move towards the politicization of its symbols for non religious ends

*Global Rebellion* Mark Juergensmeyer, 2008 This is an indispensable book in helping us understand the new world disorder that seems to be overtaking us Juergensmeyer points out that much of the world neither understands nor finds attractive the idea of a secular state He helps us see that religious nationalism is a fact of life that will be with us for a long time to come Deconstructing any simple notion of fundamentalism he shows us how it is possible to live with religious nationalism constructively without demonizing it That is a major achievement Robert Bellah coauthor of *Habits of the Heart* For years Mark Juergensmeyer has served as a kind of Cassandra figure warning us all about the rise of religious violence the global reach of religious nationalism and the challenges posed by new religious identities to the secular nation state Now that the world is finally listening Juergensmeyer remains our best guide in unraveling the complex interplay between religion and politics in the modern world *Global Rebellion* once again demonstrates why Juergensmeyer is the foremost authority on the global sociology of religion This is an awe inspiring work by arguably the most important thinker on the subject Reza Aslan author of *No god but God The Origins Evolution and Future of Islam*
