culture has increasingly become a factor in determining the course of today's complex and interconnected world. The U.S. experience in Afghanistan and Iraq extended this trend to national security and military operations. There is also a growing recognition by the national security community that culture is an important factor at the policy and strategy levels. Cultural proficiency at the policy and strategy levels means the ability to consider history, values, ideology, politics, religion, and other cultural dimensions and assess their potential effect on policy and strategy. The Analytical Cultural Framework for Strategy and Policy (ACFSP) is one systematic and analytical approach to the vital task of viewing the world through many lenses. The ACFSP identifies basic cultural dimensions that seem to be of fundamental importance in determining such behavior and thus are of importance in policy and strategy formulation and outcomes. These dimensions are: 1. Identity or the basis for defining identity and its linkage to interests; 2. Political Culture or the structure of power and decisionmaking; and 3. Resilience or the capacity or ability to resist, adapt, or succumb to external forces. Identity is the most important because it ultimately determines purpose, values, and interests that form the foundation for policy and strategy to attain or preserve those interests.

Cricket and Contemporary Society in Britain Russell Holden, 2021-11-29 This book investigates the declining status of cricket within contemporary British society after the high water mark of England's Ashes victory in 2005. It considers the deep roots of the game within British national life as well as its ever-changing nature and reflects upon the current significance and relevance of a sport that many still perceive as deeply traditional and conservative in outlook. Adopting a socio-political approach, the book offers new perspectives on both the contemporary realities of modern cricket and the social, cultural, and political condition of modern Britain. Rather than focusing on personality and the detail of match history, the book looks at how the sport has coped with wider societal changes such as those in Afro-Caribbean and South Asian communities and how this has demanded adaptation by cricket's governing authorities. The book also considers the international context in which the game continues to develop and how the initiative with new formats such as Twenty20 has been lost to other cricketing nations and it offers insight into the continued expansion and recent professionalization of the women's game, hinting at ways in which cricket as a whole could recapture the public's imagination. Cricket and Contemporary Society in Britain is an invaluable resource for those studying the sociology of sport, sport history, cultural studies, the politics of sport, cultural identity, sport management, and sport development. It is also a fascinating read for anybody with an interest in cricket or in the value of sport in an era of rapid socio-economic, political, and cultural change.

Hinfelaar, 2025-02-10 Bemba Speaking Women of Zambia traces the often painful religious changes that have occurred among the Bemba speaking women of Zambia since the last decade of the 19th century It argues that the religious tenets of the traditional domestic cult had already been undermined by the centralising tendencies of the merchant princes before the arrival of the missionaries who based their church structures on the concept of the Bemba hierarchy The body of the book describes with great authority the creative redress of the women as channelled through independent Christian movements and through the mission churches themselves These chapters are especially important as it is shown in the last part of the book that these genuine reactions of the women could well offer material for genuine inculturation **Animism of the**

Nilotics and Discourses of Islamic Fundamentalism in Sudan Kuel Maluil Jok, 2010 This book provides a comprehensive analysis of Animism as a religion and a culture of the Nilotic peoples of the Upper River Nile in modern Southern Sudan It gives an account of how the animistic ritual performances of the divine chief priests are strategies in conflict management and resolution For centuries the Nilotic peoples have been resisting changes to new religious identities and conservatively remained Animists Their current interactions with the external world however have transformed their religious identities At present the Nilotics are Animist Christians or Animist Muslims This does not mean that the converted Nilotics relinquish Animism and become completely assimilated to the new religious prophetic dogmas instead they develop compatible religious practices of Animism Christianity and Islam New Islamic fundamentalism in Sudan which is sweeping Africa into Islamic religious orthodoxy where Sharia Islamic law is the law of the land rejects this compatibility and categorises the Nilotics as heathens and apostates Such characterisation engenders opposing religious categories with one side urging Sharia and the other for what this study calls gradable culture Kuel Jok is a researcher at the Department of World Cultures at the University of Helsinki In Sudan Jok obtained a degree in English Linguistics and Literature and diplomas in Philosophy and Translation He also studied International Law in Egypt In Europe Jok acquired an MA in Sociology from the University of Joensuu Finland and a PhD in the same field from the University of Helsinki Finland *The Oxford Handbook of Caribbean*

Religions Michelle A. Gonzalez, Michelle Gonzalez Maldonado, 2024 The Oxford Handbook of Caribbean Religions offers a comprehensive overview of Caribbean religions The Caribbean is a microcosm of the world's religions but the small geographic space resulted in the encounter of global religions and indigenous religious practices The racial ethnic and cultural diversity of this region makes brief introductions to Caribbean religions incapable of truly addressing its complex

and diverse religious landscape The Handbook also elaborates on the diversity of the religious traditions and the national particularity of the region while also considering multiple geographic settings It mentions how often Caribbean religion is studied through the perspective of a discrete religious tradition or geographic setting Complexifying Religion Andrei-Razvan Coltea,2023-07-31 This book provides an original and challenging perspective of religions as abstract complex adaptive systems using an interdisciplinary approach to try to understand what religions are and how they function two fundamental issues which despite an intense struggle from several fields have not yet been resolved What is the source of religious belief How do religions work and what are they made of Why is religion so important for us that it has survived centuries of scientific progress and secularization Why are people religious even outside religion The book addresses these questions using an interdisciplinary approach that seeks to untangle the Gordian knot of defining religion In short they can be considered entropy reducing technologies What differentiates them from other meaning producing systems is their configuration which employs specific building blocks as tools for mitigating entropy which are also subsystems and combine in various ways to build a unique configuration rituals myths taboos supernatural agents authority identity superstitions moral obligations afterlife beliefs and the sacred As a reaction to perturbances or pressure systems can collapse Inspired by Nicholas Nassim Taleb it is in this book referred to as fragility the negative reaction of systems to random events and four parameters can be used to evaluate it in religious systems monotonicity the inability to learn from past mistakes coupling linking with other systems such as political or economic centralization and stress starvation Several case studies are provided in order to test the theoretical claims made in this book based on the author s field research in Romania Japan North Korea and Mongolia and offering details that could be of interest to casual readers students and researchers of religion **The Abrahamic Religions** Hamma Mirwaisi,2020-04-29 Can you disprove me that Lord Krishna Enslaved the Black African of Egypt To understand the origin of the Hidden Secrets of the Judaism Religions please read this description with open mind I did spend 12 years to find out truth about my finding in my books I always was wondering why the members of the Christian religions in Europe later America and Australia were guided to study Egyptian civilization instead of the Caucasian Civilization Indeed I found out who is behind that guidance The descendant of Lord Krishna helped the Roman Empire ruler to create this new Christian religion in the name of Jesus Christ after three hundred years of his death First they changed Jesus Christ original teaching and then made him be loyal to the Old Testament Hebrew Bible while in his life did not believe it We are told he throw away the old testament how can the members of the new Christian religion believes that the old testament is the source or references to their Christian religious Bible Here is what I found about Lord Krishna Lord Krishna and The Establishment of the Egyptian Empire Lord Krishna and his brother Balarama s stories are the keys to understand Hebrew Jewish and Greek people past It is clear from ancient document left in India that the Pandavas brother win Kurukshetra war and chased Lord Krishna and his brother Lord Balarama with their supporters and Kauravas
