Finding Faith in Foreign Policy Gregorio Bettiza, 2019-06-04 Since the end of the Cold War religion has become an ever more explicit and systematic focus of US foreign policy across multiple domains US foreign policymakers for instance have been increasingly tasked with monitoring religious freedom and promoting it globally delivering humanitarian and development aid abroad by drawing on faith based organizations fighting global terrorism by seeking to reform Muslim societies and Islamic theologies and advancing American interests and values more broadly worldwide by engaging with religious actors and dynamics Simply put religion has become a major subject and object of American foreign policy in ways that were unimaginable just a few decades ago In Finding Faith in Foreign Policy Gregorio Bettiza explains the causes and consequences of this shift by developing an original theoretical framework and drawing upon extensive empirical research and interviews He argues that American foreign policy and religious forces have become ever

more inextricably entangled in an age witnessing a global resurgence of religion and the emergence of a postsecular world society He further shows how the boundaries between faith and state have been redefined through processes of desecularization in the context of American foreign policy leading the most powerful state in the international system to intervene and reshape in increasingly sustained ways sacred and secular landscapes around the globe Drawing from a rich evidentiary base spanning twenty five years *Finding Faith in Foreign Policy* details how a wave of religious enthusiasm has transformed not just American foreign policy but the entire international system *Strategic Culture and Weapons of Mass Destruction* K. Kartchner,J. Johnson,2009-01-05 This book describes strategic culture and its value as a methodological approach to the study of International Relations In particular the book uses strategic culture to illuminate a number of case studies on countries that have made decisions regarding the acquisition proliferation or use of weapons of mass destruction

Terrorism and Transnational Security Threats in West Africa: Adebayo E. Adeyemi PhD,2015-09-18 While it could be arguably stated that West Africa has achieved remarkable and sustainable progress in the areas of democratic governance and economic growth the subregion over the past few years has been challenged by terrorism and other transnational security threats Innocent civilians are continuously killed security operatives and providers of humanitarian assistance are targeted and properties and infrastructures are wantonly destroyed thus culminating in significant displacement of people and acute poverty If these developments are not carefully and timely addressed they are capable of eroding progress so far

recorded It is against this background that this book examines the different manifestations of terrorism and related transnational security challenges in West Africa with a view to exploring the internal and external sources and drivers of instability establishing the linkages between terrorism and transnational threats and reviewing the various steps taken in recent time to strengthen the subregions capacity to prevent and address the menace of terrorism and other security challenges and make necessary policy recommendations based on comprehensive best practices Religion, Economics, and Culture in Conflict and Conversation Laurie M. Nefely, 2009-01-01 This book is an attempt to point out and account for the modern man s need to get into a constructive dialogue which will bring the peoples of the world together in the face of the powers of dissipation and segregation So many writers both Western and non Western realized the fact that the notion of the Clash of Civilizations is in its essence an attempt to create an enemy for economic and political reasons To achieve their desired ends defenders of this notion are ready to demolish cultures and to subdue nations Throughout the book I made it clear that the strategy of promoting the clash of civilizations is against the principle of democracy It is against the principle of dialogue which allows for the expression of the opposing point of view To suppress this notion of dialogue the other will have to be presented as an aggressor who needs to be checked Descriptor s ISLAMIC CHRISTIAN DIALOGUE MULTICULTURALISM ISLAMIC MISSIONARY CULTURAL CONFLICT CULTURAL DIALOGUE **Muslim Secular Democracy** Lily Zubaidah Rahim, 2013-03-20 The book offers a nuanced and innovative analyses of the emergence of an inclusive secular democratic state paradigm which incorporates the sacred within the framework of secular democracy in the Muslim World Religion as a Conversation Starter Ina Merdjanova, Patrice

Brodeur, 2009-11-19 Religion as a Conversation Starter is the first comprehensive analysis of the present state of interreligious dialogue for peacebuilding in Southeast Europe. It is based on empirically grounded and policy oriented research carried out throughout the Balkans. The study maps recent interreligious relations in this part of the world, throwing light on both the achievements and challenges of interreligious dialogue for peacebuilding in particular, and offering a set of up to date policy recommendations whilst contributing to a greater understanding of the local particularities and how they relate to broader trends transnationally. Interreligious dialogue has been a central tool in the continuous international efforts to promote peaceful living together in multicultural and multireligious societies. This fascinating monograph explores the place of interreligious dialogue as a primary method in conflict resolution and peacebuilding and will be of interest to scholars of religious and peace studies as well as those who advocate and carry out organized interventions in religion related spheres.

Europäische Religionspolitik Ines-Jacqueline Werkner, Antonius Liedhegener, 2013-03-12 Die Europäische Union galt lange Zeit als rein s kulturelle politische Gemeinschaft in der Religion nicht zu thematisieren sei. Mit der viel beschworenen Rückkehr der Religionen und der Idee der posts kulturellen Gesellschaft stellt sich diese Frage ganz neu. Die verstärkte Aufmerksamkeit für die gesellschaftliche Bedeutung von Religion speist sich mittlerweile aber auch aus dem europäischen Integrationsprozess selbst. In dem Maße wie sich die EU nicht mehr nur als wirtschaftliches Projekt versteht, sondern auch als politische Union und Wertegemeinschaft, kommt der Frage nach dem gesellschaftlichen Zusammenhalt Europas gerade in wirtschaftlichen Krisenzeiten eine wachsende Bedeutung zu. Diesen Wandel greift der Band auf. Er verfolgt einerseits die Frage einer gemeinsamen Identität in Europa und untersucht andererseits die konkreten religionspolitischen Konsequenzen, die sich mit dem Vertrag von Lissabon ergeben haben und nun die Religionspolitik der Europäischen Union und ihr Verhältnis zu den Mitgliedsstaaten wie zur internationalen Staatenwelt prägen.

New international studies on religions and dialogue in education Martin Ubani, 2018 What are the key questions highlighted in religious and spiritual education today? Many global processes such as migration, pluralism and the redefinition of citizenship challenge the traditional notions of borders, concerning cultures, states and nationalities, ethnicities and even religions. Consequently, in societies today, the distinction in religions or identities between global and local or inside and outside no longer functions well. As the many borders in our world are becoming again more transparent and cultures blended, there is an increasing and constant need to re-examine the conceptions and theories concerning religion, dialogue and education. This volume brings together 14 new international studies based on selected presentations from the 14th Nordic Conference on Religious Education. The topics of the articles include studies on religion, dialogue and education in different contexts ranging from policy studies and higher education to home education and research on education about religions to confessional education. The volume serves the interests of researchers, policymakers, practitioners and students of religious and spiritual education.

Religion and Culture in Dialogue Janis Talivaldis Ozoliņš, 2016-04-12 This volume addresses the issue of the human

encounter with the Mystery of God and the purpose of human life It explores major themes from diverse cultural and philosophical traditions starting with questions about the possibility of belief in God His transcendence as seen in both East and West and ending with questions about ethics and about personhood human dignity and human rights Taking an eclectic approach the chapters in this book each uniquely address aspects of the human encounter with the Mystery of God drawing from specific cultures and traditions and using a particular philosophical and theological style Together the chapters provide a fresh approach and a synergy that ensures that each topic contributes something new to the dialogue between religion and culture
