

ETHNIC RELIGIONS

Ethnic religions are those that are specific to certain ethnic groups and often originate from the culture or beliefs of that particular group.

EXPLANATION

Ethnic religions are deeply rooted and exclusive to particular ethnic or racial communities. They consider the culture, customs, convictions, and ideals of a specified group to create an incomparable faith system that reflects their identity. They practice localized rituals handed down through generations.

EXAMPLE

Shinto: Shinto is Japan's ancient religion involving belief in numerous kami (spirits) representing natural forces that inhabit mountains, rivers, rocks, etc. Shinto practices focus on ritual purity relating to food offerings at shrines called o-Mairi, where individuals can make prayers for success related to health, family, and so on (Köck et al., 2021).

Change L. Fawcett, 2000-03-02 In *Religion Ethnicity and Social Change* the author argues that the recent focus on religious fundamentalism in ethnic conflict has obscured the ambiguous role of mainstream Western religion The book examines the relationship between the religious and secular spheres at a time of rapid transition in South Africa and Northern Ireland

Ethnicity and Religion Joseph Ruane, Jennifer Todd, 2014-06-11 Religion has regained political prominence in the twenty first century and not least for the manner in which it intersects with ethnicity Many ethnic conflicts have a strong religious dimension and religion appears as a powerful force for mobilisation solidarity and violence Religion and ethnicity can each act as a powerful base of identity group formation and communal conflict They can also overlap with ethnic and religious boundaries coinciding partially or completely internally nested or intersecting This volume maps the different forms of intersection cases where religion is prioritised in private life and ethnicity in public where each coexists in tension in political life and where the distinctions reinforce each other with dynamic effects It maps the different patterns with case studies and comparisons from Ireland Northern Ireland France Zimbabwe Ghana and Malaysia It shows how ordinary people construct their solidarities and identities using both ethnic and religious resources This opens up analysis of the socially transformative as well as politically antagonistic potential of religion in situations of ethnic division This book was published as a special issue of *Ethnopolitics*

Ethnicity, Race, Religion Katherine M. Hockey, David G. Horrell, 2018-06-28 This book is open access and available on www.bloomsburycollections.com It is funded by Knowledge Unlatched Religion ethnicity and race are facets of human identity that have become increasingly contested in the study of the Bible largely due to the modern discipline of biblical studies having developed in the context of Western Europe concurrent with the emergence of various racial and imperial ideologies The essays in this volume address Western domination by focusing on historical facets of ethnicity and race in antiquity the identities of Jews and Christians and the critique of scholarly ideologies and racial assumptions which have shaped this branch of study The contributors critique various Western European and North American contexts and bring fresh perspectives from other global contexts providing insights into how biblical studies can escape its enmeshment in often racist notions of ethnicity race empire nationhood and religion Covering issues ranging from translation and racial stereotyping to analysing the significance of race in Genesis and the problems of an imperialist perspective this volume is vital not only for biblical scholars but those invested in Christian Jewish and Muslim identity

Religion, Ethnicity and Xenophobia in the Bible Brian Rainey, 2018-11-21 *Religion Ethnicity and Xenophobia in the Bible* looks at some of the Bible's most hostile and violent anti foreigner texts and raises critical questions about how students of the Bible and ancient Near East should grapple with ethnicity and foreignness conceptually hermeneutically and theologically The author uses insights from social psychology cognitive psychology anthropology sociology and ethnic studies to develop his own perspective on ethnicity and foreignness Starting with legends about Mesopotamian kings from the third millennium BCE then navigating the Deuteronomic and Holiness traditions of the Hebrew Bible and finally turning to

Deuterocanonicals and the Apostle Paul the book assesses the diverse and often inconsistent portrayals of foreigners in these ancient texts This examination of the negative portrayal of foreigners in biblical and Mesopotamian texts also leads to a broader discussion about how to theorize ethnicity in biblical studies ancient studies and the humanities This volume will be invaluable to students of ethnicity and society in the Bible at all levels

College,2006-11-10 In recent years Christian scholars have become increasingly aware of their responsibility to recognize and respond to the challenges posed by ethnic and racial diversity Similarly historically white Christian colleges universities seminaries and congregations are struggling to transform themselves into communities that are welcoming to minorities and sensitive to their needs This collection of all new essays is meant to enable those who are engaged in these initiatives to understand the historical linkage of race ethnicity and Christianity and to explore the ways in which constructive change can be achieved The volume is the product of a long term study funded by the Wabash Center for Teaching and Learning in Theology In the course of this study it emerged that many Christian institutions now offer courses on race and ethnicity but that there is very little relevant literature written from the standpoint of rigorous Christian scholarship This book is intended to fill that gap The authors address such questions as What has been the history of Christian churches and leaders in relation to slavery segregation and apartheid Which biblical texts and doctrines have historically been employed on behalf of racial projects and which are relevant to the racial and ethnic crises of our day How have religious leaders constructively engaged such crises How do congregations shape the values civic commitments understandings and sensitivities of their membership How can local congregations be sites for racial reconciliation and justice initiatives Are there positive models for how churches and other religious institutions have helped to bring healing to racial and ethnic tensions and divides How might Christians in the professions work to bring justice to business education government and other areas of society When good intentions fail to accomplish desired ends how do we analyze what went wrong Written by an interracial and interethnic team of scholars representing diverse disciplines this book will meet a pressing need and set a new standard for the discussion of race and ethnicity in the Christian context
