Mary and Catholic Identities in Chinese History Jeremy Clarke, 2013-08-01 The Chinese Catholic Church traces its living roots back to the late sixteenth century and its historical roots back even further to the Yuan dynasty This book explores paintings and sculptures of the Virgin Mary and the communities that produced them over several centuries It argues for the emergence of distinctly Chinese Catholic identities as artistic representations of the Virgin Mary at different times and in different places absorbed and in turn influenced representations of Chinese figures from Guanyin to the Empress Dowager At other times indigenous styles have been diluted by Western influences following the influx of European missionaries in the nineteenth century for example or with globalization in recent years The book engages with history theology and art and draws on imagery and archival photographs that have been largely neglected As a study of the social and cultural histories of communities that have survived over many centuries this book offers a new view of Catholicism in China one that sees its history as more than simply a cycle of persecution and resistance Fr Jeremy Clarke SJ is an Australian Province Jesuit teaching as an assistant professor in the History Department of Boston College He is also a school visitor in the Australian Center for China in the World at the Australian National University Canberra

A Protestant Church in Communist China John

Craig William Keating, 2012-02-16 Freedom of religious belief is guaranteed under the constitution of the People's Republic of China but the degree to which this freedom is able to be exercised remains a highly controversial issue. Much scholarly attention has been given to persecuted underground groups such as Falun but one area that remains largely unexplored is the relationship between officially registered churches and the communist government. This study investigates the history of one such official church, Moore Memorial Church in Shanghai. This church was founded by American Methodist missionaries. By the time of the 1949 revolution it was the largest Protestant church in East Asia, running seven-day-a-week programs. As a case study of one individual church operating from an historical rather than theological perspective, this study examines the experience of people at this church against the backdrop of the turbulent politics of the Mao and Deng eras. It asks and seeks to answer questions such as: were the people at the church pleased to see the foreign missionaries leave? Were people forced to sign the so-called Christian manifesto? Once the church doors were closed in 1966, did worshipers go underground? Why was this particular church especially chosen to be the first re-opened in Shanghai in 1979? What explanations are there for its phenomenal growth since then? A considerable proportion of the data for this study is drawn from Chinese language sources including interviews, personal correspondence, statistics, internal church documents and archives, many of which have never previously been published or accessed by foreign researchers. The main focus of this study is on the period from 1949 to 1989, a period in which the church experienced many ups and downs, restrictions and limitations. The Mao era, in particular, remains one of the least understood and seldom written about periods in the history of Christianity in China. This study therefore makes a significant contribution to our evolving understanding of the delicate balancing act between compromise, co-operation and compliance that categorizes church-state relations in modern China. *Modern American Popular Religion*

Charles H. Lippy, 1996-01-19 Lippy makes a case for the importance of exploring popular religion if one is to understand the dynamics of modern religious life. The first annotated bibliography on the subject, this work features over 550 entries, topically arranged. Lippy provides a critical assessment of the state of the study of popular religion, including an examination of theoretical materials that wrestle with trying to define precisely what popular religion is. This book is of interest to scholars, students and anyone concerned with understanding today's religion. The bulk of the work consists of critical annotations of books, articles and dissertations that deal with various aspects of popular religion in the United States from 1870 to the present. The topics covered include background studies, biographical works, titles dealing with fundamentalism and evangelicalism, expressions of popular religion in the arts, the use of mass media and personal spirituality. The work is of great importance as long as Americans engage in the human quest to make sense out of their own experience and look beyond themselves to a supernatural realm that will assist them in ordering their lives. **The Confessions of Saint Augustine**

Richard Severson, 1996-11-25 The modern scholarly verdict about the Confessions has been nothing short of sensational. This work documents the story of 20th-century criticism and praise for Augustine's classic, an ancient text that has grown in

stature like few other Western classics Disciplines such as psychology literature and religion plus many others all claim it as their own The first chapter of this study puts modern Confessions scholarship into historical context The other chapters are devoted to autobiographical studies literary influences philosophical interpretations psychology spirituality and theological themes Of interest to scholars and students in many disciplines At the end of the 19th century a new critical spirit of inquiry and scholarship helped to change how we think about religious texts The new criticism uncovered problems with Augustine's Confessions he may have dramatized events concerning his conversion to Christianity for example Yet this work has proved to be relevant in the 20th century like few other ancient texts That such variegated attention has been devoted to it is testimony to Augustine's enduring legacy His stature in Western civilization is of the first order comparable to Homer and Virgil Plato and Aristotle Moses and Paul *Missiology* ,1995 An international review
