**Religious Transformation in Western Society (Routledge Revivals)** Harvie Ferguson, 2010-12-01 Originally published in 1992 this remarkable book challenges many of the assumptions governing the Sociology of Religion and the Sociology of Culture by arguing that Western religion is neither science nor morality it is the promise of happiness Learned and incisive it will be essential reading for students of religion culture and anyone interested in the character of Modernity Beyond Ideology Ninian Smart, 1981 Changes in Religious and Spiritual Practices in Western Society Dr. Anthony B. Atwam (PhD), 2025-01-22 Adopting an interdisciplinary approach between the sociology of religion and practical theology this book examines the dynamic changes in religious and

spiritual practices in the West from the 1960s From this examination the book demonstrates that westerners are becoming spiritually hungry and there is also a general thirst for righteousness When people demand faithfulness and loyalty in marriages relationships and at the workplace that is a thirst for righteousness Furthermore these changes are also leading to a paradigm shift in the West in religion and spirituality contexts we are moving from the Christian Age to a new era which some scholars claim to be the New Age In politics there is a potential shift in world dominance from the West to the East however there is some notable resistance from some quarters in America but Europe including Britain theologically seems to be following and championing events leading to its own demise In the context of world missions the centre of world Christianity is shifting from the West to the global south Africa in particular There is also a potential societal apocalypse despite our scientific endeavours and finally cosmologically the coming of God's kingdom is imminent The context in which these changes are occurring is the West Therefore this book is a great resource for policy makers students tutors Pastors the Church and people in Western nations The West is a mission field therefore this book is also a great resource for students institutions tutors missionaries and people in the global south Thus the discussion in the book contributes to our understanding of what is going on globally in the twenty first century Read this book to find out how these dynamic events affect you your family and society

people and cultures of the non Western world      *Sufis in Western Society* Markus Dressler, Ron Geaves, Gritt Klinkhammer, 2009-06-02 This book examines the development of Sufi movements that have migrated from their place of origin to become global religious networks      The Shaping of Western Civilization Michael Burger, 2008-01-01 This book is a short interpretive and coherent overview of the history of Western civilization from antiquity to late eighteenth century Europe and America Back cover      **A Comparative Sociology of World Religions** Stephen Sharot, 2001-08 Sharot sociology Ben Gurion U of the Neger focuses on the differences and interrelationships between religious elites and lay masses He presents several relevant concepts and theories including a model of religious action based on the work of Max Weber and a discussion of elites and masses as represented in Weber s comparison of world religions Coverage encompasses religious action in world religions Brahmans Renouncers and Hinduism in India Buddhism and Animism in Sri Lanka and Southeast Asia traditional Catholicism in Europe Islam and Judaism Protestants Catholics and the reform of popular religion and a comparison of religious elites and popular religions c Book News Inc      **The Globalization of God** Dara Molloy, 2015-11-10 Roman Catholicism was the first multinational corporation Preaching was the forerunner of advertising Roman Catholicism created the template for the spread of commercial globalisation through multinational corporations For global Christianity to succeed all local expressions of Christianity had to be suppressed These included Celtic Christianity For 800 years the Roman church tried to break the independent spirit of Celtic Christianity Despite being defeated in 1014 at the Battle of Clontarf the Irish Vikings through their urban bishops were key actors in the imposition of Roman episcopal structures of church throughout Ireland in the 12th century There was an invasion of Norman monks to Ireland which began in 1142 twenty five years before the military invasion in 1167 The ecclesiastical colonisation of Ireland meant that a Roman episcopal and diocesan structure replaced the Celtic monastic structure Norman colonisers destroyed Celtic monasteries and replaced them with imported European religious orders Cistercian monasteries in Ireland were required to have French abbots and sometimes these were imposed by force no Irishman was allowed to become a bishop or attain any ecclesiastical high office St Malachy of Armagh betrayed his own Celtic heritage and was a key figure in bringing about the ecclesiastical colonisation of Ireland Monotheism is the mythical container for globalization Humans will fail to return to a sustainable way of living on this planet until the mythological container of monotheism is replaced by new bioregional spiritualities that go beyond both monotheism and polytheism      **Understanding World Religions** Irving Hexham, 2011-03-22 Globalization and high speed communication put twenty first century people in contact with adherents to a wide variety of world religions but usually valuable knowledge of these other traditions is limited at best On the one hand religious stereotypes abound hampering a serious exploration of unfamiliar philosophies and practices On the other hand the popular idea that all religions lead to the same God or the same moral life fails to account for the distinctive origins and radically different teachings found across the world s many religions Understanding World Religions presents religion as a complex and intriguing matrix of

history philosophy culture beliefs and practices Hexham believes that a certain degree of objectivity and critique is inherent in the study of religion and he guides readers in responsible ways of carrying this out Of particular importance is Hexham s decision to explore African religions which have frequently been absent from major religion texts He surveys these in addition to varieties of Hinduism Buddhism Judaism Christianity and Islam
