to the development of new paradigms for media and religious studies Contributors Heike Behrend Andre Chappatte Maria Frahm Arp David Gordon Liz Gunner Bruce S Hall Sean Hanretta Jorg Haustein Katrien Pype and Asonzeh Ukah *Religion, Media and Culture: A Reader* Gordon Lynch, Jolyon Mitchell, Anna Strhan, 2012-02-13 This major new reader introduces students to the new and growing field of religion and everyday culture

*Institutional Change in the Public Sphere* Fredrik Engelstad, Håkon Larsen, Jon Rogstad, Kari Steen-Johnsen, 2017-04-24 The main focus of the book is institutional change in the Scandinavian model with special emphasis on Norway There are many reasons to pay closer attention to the Norwegian case when it comes to analyses of changes in the public sphere In the country's political history the arts and the media played a particular role in the processes towards sovereignty at the beginning of the 20th century On a par with the other Scandinavian countries Norway is in the forefront in the world in the distribution and uses of Internet technology As an extreme case the most corporatist society within the family of the Nordic Model it offers an opportunity both for intriguing case studies and for challenging and refining existing theory on processes of institutional change in media policy and cultural policy It supplements two recent important books on political economy in Scandinavia *Varieties of Liberalization* and *The New Politics of Social Solidarity* Kathleen Thelen 2014 and *The Political Construction of Business Interests* Cathie Jo Martin and Duane Swank 2013 There are further reasons to pay particular attention to the Scandinavian and more specifically the Norwegian cases i They are to varying degrees neo corporatist societies characterized by ongoing bargaining over social and political reform processes From a theoretical perspective this invites reflections which to some extent are at odds with the dominant conceptions of institutional change Neither models of path dependency nor models of aggregate incremental change focus on the continuous social bargaining over institutional change ii Despite recent processes of liberalization common to the Western world as a whole corporatism implies a close connection between state public sphere cultural life and religion This also means that institutions are closely bundled in an even stronger way than assumed for example in the *Varieties of Capitalism* literature Furthermore we only have scarce insight in the way the different spheres of corporatism are connected and interact In the proposed edited volume we have collected historical institutional case studies from a broad set of social fields a detailed outline of contents and contributors is attached Critical assessments of Jürgen Habermas theory of the public sphere Can the public sphere be considered an institution The central position of the public sphere in social and political change in Norway Digital transformations and effects of the growing PR industry on the public sphere Institutionalization of social media in local politics and voluntary organizations Legitimation work in the public sphere freedom of expression and warning in the workplace Return of religion to the public sphere and its effects

New Media and Religious

Transformations in Africa casts a critical look at Africa's rapidly evolving religious media scene. Following political liberalization, media deregulation, and the proliferation of new media technologies, many African religious leaders and activists have appropriated such media to strengthen and expand their communities and gain public recognition. Media have also been used to marginalize and restrict the activities of other groups, which has sometimes led to tension, conflict, and even violence. Showing how media are rarely neutral vehicles of expression, the contributors to this multidisciplinary volume analyze the mutual imbrications of media and religion during times of rapid technological and social change in various places throughout Africa.

**Media, Society, World** Nick Couldry, 2012-11-13. Written by an internationally respected scholar, this contribution to media theory considers the relationship between media and social theory. *The Routledge Handbook of Religion and Journalism* Kerstin Radde-Antweiler, Xenia Zeiler, 2020-10-29. The Routledge Handbook of Religion and Journalism is an outstanding reference source to the key topics, challenges, past and present, global issues and debates in this exciting subject. The first collection of its kind, this volume comprises over 25 chapters by a team of international contributors. This Handbook is divided into five parts, each taking global developments in the field into account: Theoretical Reflections, Power and Authority, Conflict, Radicalization and Populism, Dialogue and Peacebuilding, Trends Within. These sections central issues, debates, and developments are examined, including religious and secular press ethics, globalization, gender, datafication, differentiation, journalistic religious literacy, race, and religious extremism. This volume is essential reading for students and researchers in journalism and religious studies. This Handbook will also be very useful for those in related fields such as sociology, communication studies, media studies, and area studies.

*Media, War, and Terrorism* Peter van der Veer, Shoma Munshi, 2004. Media War and Terrorism analyses for the first time responses to the events of 9/11 and its repercussions from the point of view of Asian and Middle Eastern countries. Perhaps controversially, the contributors argue that while the US and to an extent European media seems largely unified in their coverage and silence in public debate of the events surrounding the attacks on the World Trade Centre, there exists open critical debate in other parts of the world. By examining the use of media as an instrument of warfare and analyzing the construction of public opinion in mediated electronic warfare, this book clearly shows the difference in perspectives between public opinion in the US and the rest of the world. Moving away from popular assumptions that societies in the West are democratic and progressive and those in the Middle East and Asia are either authoritarian or underdeveloped, this examination of the media in those countries suggests the exact opposite. In combining an examination of the general theoretical issues concerning the use of the media as an instrument of warfare with rich geographically diverse case studies, the editors are able to provide a diverse and intriguing analysis of the impact and interconnectedness of national and global medias. Bringing together contributions from academics, journalists, and media practitioners from all over the world, *Media War and Terrorism* is an essential read for all of those seeking an informed non-Western perspective on the events following 9/11.
