**Religion, the Great Questions** Denise Lardner Carmody, John Carmody, 1983      *The Big Questions: God* Mark Vernon, 2012-04-26 Can the existence of God be proved by reason alone Has scientific discovery destroyed the intellectual basis for religion Does the presence of evil in the world mean that God does not care about us And why does fundamentalism flourish in an age of progress In *Big Questions* God Mark Vernon addresses these and many more perennial dilemmas drawing on physics and philosophy spiritual traditions and religious experience He explores the place of religion in relation to science in making sense of evil in understanding history and in explaining value Asking the big questions again for himself he finds new areas of thought and perception *Big Questions* God is a subtle but compelling argument for the necessity of a spiritual dimension in modern society and offers profound insights on humanity's constant battle to make sense of the transcendent

**The Big Questions in Science and Religion** Keith Ward, 2008-05 Can religious beliefs survive in the scientific age Are they resoundingly outdated Or is there something in them of great importance even if the way they are expressed will have to change given new scientific context These questions are among those at the core of the science religion dialogue An Anglican priest who was once an atheist offers compelling insights into the often contentious relationship between diverse religious views and new scientific knowledge He identifies ten basic questions about the nature of the universe and human life Among these are Does the universe have a goal or purpose Do the laws of nature exclude miracles Can science provide a wholly naturalistic explanation for moral and religious beliefs Has science made belief in God obsolete Are there any good science based arguments for God Ward considers concepts from Buddhism Confucianism Taoism Islam Hinduism Judaism and Christianity while featuring the speculations of cosmologists physicians mathematicians and philosophers      *The Great Question, Will You Consider the Subject of Personal Religion?* Henry Augustus Boardman, 1855

**The Greatest Religious Question** Brother Donald Sweeting, 2014-11-21 Twelve of the most inspiring sermons which the heavenly Father through His begotten Son the Comforter and His Holy Spirit is about to bring a change in people's lives Two powerful testimonies one of which should bring hope and comfort to all that are plagued with cancer the next will enlighten parents that by faith their children can be healed of asthma The other Comforter is the Holy Spirit the Spirit of truth even the Holy Ghost He reveals the scriptures and gives a light through Jesus Christ that light is to be put on a candle stick that all may see to go in and out which suggest that when the true word of God is understood it is to be taught to others that they too may understand and do the Fathers will The Greatest Religious Question reveals three heavens in the Genesis unnoted by many more so Jesus spoke of two saves they amongst other unnoticed and misunderstood sayings are brought to light This book shows that the KJV Bible is more reliable for example 1 John 5:7 and Matthew 19:9 fornication are explained and should not have been taken out of other Bibles It also shows that the Father brought His Son to earth that He go to the Jews only without riches not even a pillow Jesus gives an itinerary to take Abrahams bosom along with converted Jews and Gentiles to

Gross,2014-12-02 Through an absorbing investigation into recent high profile scandals involving one of the largest kosher slaughterhouses in the world located unexpectedly in Postville Iowa Aaron S Gross makes a powerful case for elevating the category of the animal in the study of religion Major theorists have almost without exception approached religion as a phenomenon that radically marks humans off from other animals but Gross rejects this paradigm instead matching religion more closely with the life sciences to better theorize human nature Gross begins with a detailed account of the scandals at Agriprocessors and their significance for the American and international Jewish community He argues that without a proper theorization of animals and religion we cannot fully understand religiously and ethically motivated diets and how and why the events at Agriprocessors took place Subsequent chapters recognize the significance of animals to the study of religion in the work of Ernst Cassirer Emile Durkheim Mircea Eliade Jonathan Z Smith and Jacques Derrida and the value of indigenous peoples understanding of animals to the study of religion in our daily lives Gross concludes by extending the Agribusiness scandal to the activities at slaughterhouses of all kinds calling attention to the religiosity informing the regulation of secular slaughterhouses and its implications for our relationship with and self imagination through animals      *Religion Around the World* Sonja Hagander,Matthew Maruggi,Megan Borgert-Spaniol,2022 Religion around the World A Curious Kid s Guide to the World s Great Faiths explores the world s major religious traditions making the traditions beliefs practices and history of each accessible to kids ages 8 12      *Spirituality, Religion, and Aging* Holly Nelson-Becker,2017-02-01 This highly integrative book was written for students professionals in aging religious leaders and older adults themselves Readers will gain the knowledge and skills they need to assess engage and address the spiritual and religious needs of older persons Taking a fresh approach that breaks new ground in the field the author discusses eight major world religions and covers values and ethics theories interventions health and caregiving depression and anxiety dementia and the end of life Meditations and exercises throughout the book allow readers to expand and explore their personal understanding of spirituality Referencing the latest research the book includes assessments and skill based tools designed to help practitioners enhance the mental health of older people      **The Great Question: Will You Consider the Subject of Personal Religion?** Henry Augustus BOARDMAN,1855      **Religion Matters: Volume 2** P. T. Babie,Rick Sarre,2024-07-19 This book constitutes the second volume of Religion Matters The Contemporary Relevance of Religion Springer 2020 Offering a fresh and much needed perspective it explores the role of religion in the modern neo liberal world The book acclaims that religion is a contextual and contested term which is extensively discussed in the Introduction Designed to be read selectively this book allows readers to

delve into topics and traditions of specific interest without the necessity of reading the entire volume In contrast to volume 1 where contributors critically engaged with religion and various disciplines this book poses a fundamental question Can religion contribute to the discipline under consideration Authors were selected based on their ability to address this question Some chapters concluded that religion may offer very little to the discipline under consideration highlighting the value of volume 1 s critical stance on the place of religion in contemporary society However the project s overall aim remained somewhat unfulfilled leading to the creation of this second volume The primary omission from the first book was a comprehensive exploration of the sciences and health sciences which this second volume aims to rectify Furthermore additional authors were chosen to investigate the nature of connectedness facilitated by religion horizontally through membership within wider communities societies cultures or religious traditions and vertically by examining historical relationships within a particular faith tradition culture community or society This volume also broadens its focus to include non Christian perspectives Indigenous perspectives and an increased representation of female contributors

**Religious Currents and Cross-Currents: Essays on Early Modern Protestantism and the Protestant Enlightenment** Johannes van den Berg, 2021-11-01 The religious history of seventeenth and eighteenth century Protestantism was marked by a twofold movement On the one hand there were attempts to consolidate and if necessary to reaffirm the heritage of the Reformation on the other hand we meet a growing critical evaluation of the legacy of mainstream orthodox thought which could lead to a process of gradual renewal and reorientation but also to forms of more radical and controversial criticism Conservative as well as critical tendencies can be discerned in the religious landscape on both sides of the North Sea In spite of differences in the historical framework and spiritual culture the developments in Great Britain and on the Continent often present remarkable parallels and the water of the North Sea was not too deep for creative interaction This volume contains a number of essays which deal with various aspects of English and Dutch church history and theology in the seventeenth and eighteenth centuries Special attention is given to the problems surrounding the Calvinist doctrine of predestination to English Puritanism and its impact on the Netherlands to Jewish Christian relations and polemics in the seventeenth century to seventeenth century millenarianism in particular in the circle of the Cambridge Platonists to the attitude of Dutch Reformed theologians to the Church of England to eighteenth century English and Dutch orientalist studies and to the development of enlightened ideas in the circles of English and Dutch Protestantism
