Cult and Ritual in Persian Period Egypt Fatma Talaat Ismail, 2019-10-15 Ancient Egyptian temple walls expressed royal and political ideologies reflected the ancient Egyptian secular and spiritual world order supplied a medium for the reenactments of assorted myths and implied a metaphor for the universe The Temple of Hibis is one of the most important temples from Late Period Egypt Despite the conventional overall architecture plan of the temple it exhibits numerous particularities While the more prominent parts of the temple such as the sanctuary have been studied by numerous scholars in other areas the decoration schemes remain largely unexplained This book focuses on the decorative schemes of several chapels in the earlier part of the temple chapels that were either established and or were decorated during the first Persian Period 525 404 BCE These chapels were located around the main sanctuary A but have rarely been the subject of scholarly discussions It concentrates on a few chapels of the Temple of Hibis chapels F and G to the south of sanctuary A on the first level of the temple and all the decorated chapels E1 E2 H1 and H2 on the second level of the temple Each chapter begins with a brief description of the scenes and their basic layout and a complete translation of the accompanying texts A more in depth analysis regarding both text and image follows in the commentary It includes the analysis of the different aspects of the gods their origins and the development of their cults that are significant to the scenes and to each other Also discussed are their coherence any aspects that are especially emphasized and any other information that could be gleaned from the whole scene The analysis tries to detail the specific composition that makes up the mosaic of the picture wall or room Attention is paid to both the scenic arrangement and the hieroglyphic inscriptions as the interpretation of one would be meaningless without the other Attention is given to investigating the general function of the different rooms by means of their decoration and by identifying the patterns or

important themes generated by the layout of the scenes The results are summarized in the last chapter A number of line drawings have been inserted into the text beside a described scene as an aid to the reader

The Walking Dead at Saqqara Lara Weiss, 2022-06-21 Funerary rituals and the cult of the dead are classics of research in religious studies especially for ancient Egypt Still we know relatively little about how people interacted in daily life at the city of Memphis and its Saqqara necropolis in the late second millennium BCE By focussing on lived ancient religion we can see that the social and religious strategies employed by the individuals at Saqqara are not just means on the way to religious post mortem salvation nor is their self representation simply intended to manifest social status On the contrary the religious practices at Saqqara show in their complex spatiality a wide spectrum of options to configure sociality before and after one's own death The analytical distinction between religion and other forms of human practices and sociality illuminates the range of cultural practices and how people selected modified or even avoided certain religious practices As a result pre funerary funerary and practices of the subsequent mortuary cults in close connection with religious practices directed towards other ancestors and deities allow the formation of imagined and functioning reminiscence clusters as central social groups at Saqqara creating a heuristic model applicable also to other contexts

Proceedings of the Ninth International Dakhleh Oasis Project Conference Colin A. Hope, Gillian E. Bowen, 2020-01-19 This new volume in the Oasis Papers series marks the 40th anniversary of archaeological fieldwork in the Dakhleh Oasis in Egypt's Western Desert under the leadership of Anthony J Mills and presents a synthesis of the current state of our knowledge of the oasis and its interconnections with surrounding regions especially the Nile Valley The papers are by distinguished authorities in the field and postgraduate students who specialise in different aspects of Dakhleh and presents an almost complete survey of the archaeology of Dakhleh including much unpublished original material It will be one of the few to document a specific part of modern Egypt in such detail and thus should have a broad and lasting appeal The content of some of the papers is unlikely to be published in any other form elsewhere Dakhleh is possibly the most intensively examined wider geographic region within Egypt

Wiesner-Hanks, Mathew Kuefler, 2024-04-30 Volume II focuses on systems of thought and belief in the history of world sexualities ranging from early humans to contemporary approaches Comprising eighteen chapters this volume opens with a chapter on the evolutionary legacy and then delves into the sexualities of ancient Egypt the Near East Greece and Rome continuing with pre modern South Asia China and Japan Africa the Americas and Oceania Chapters include an examination of sexuality in the religious traditions of Buddhism Judaism Christianity and Islam and also look at more recent approaches including scientific sex sexuality in socialism and Marxism and the intersections between sexuality feminism and post colonialism **Gods and Men in Egypt** Françoise Dunand, Christiane Zivie-Coche, 2004 In their

wide ranging interpretation of the religion of ancient Egypt Fran oise Dunand and Christiane Zivie Coche explore how over a period of roughly 3500 years the Egyptians conceptualized their relations with the gods Drawing on the insights of anthropology the authors discuss such topics as the identities images and functions of the gods rituals and liturgies personal forms of piety expressing humanity s need to establish a direct relation with the divine and the afterlife a central feature of Egyptian religion That religion the authors assert was characterized by the remarkable continuity of its ritual practices and the ideas of which they were an expression Throughout Dunand and Zivie Coche take advantage of the most recent archaeological discoveries and scholarship Gods and Men in Egypt is unique in its coverage of Egyptian religious expression in the Ptolemaic and Roman periods Written with nonspecialist readers in mind it is largely concerned with the continuation of Egypt s traditional religion in these periods but it also includes fascinating accounts of Judaism in Egypt and the appearance and spread of Christianity there

The Gods of Egypt Claude Traunecker,2025-09-15 The Gods of Egypt first published in France in 1992 and now in its third French edition is a short elegant and highly accessible survey of ancient Egyptian religion The clarity and brevity of Claude Traunecker s book make it especially valuable to readers seeking an authoritative introduction to this complex topic The Cornell edition the first English translation is enhanced by 23 illustrations Traunecker begins with an overview of the source materials and a discussion of the historiography of Egyptian religion a subject relatively neglected by scholars He then describes the actual and metaphysical worlds inhabited by the Egyptian deities and the role that humans played in the Egyptian universe Focusing especially on the diversity and number of approaches used by Egyptians to explain their world The Gods of Egypt offers a succinct and highly readable presentation of recent interpretations of Egyptian religion

One Who Loves Knowledge Betsy Bryan,Christina DiCerbo,Marina Escolano-Poveda,Mark Smith,Jill S. Waller,2022-12-01 The thirty nine articles in this volume One Who Loves Knowledge have been contributed by colleagues students friends and family in honor of Richard Jasnow professor of Egyptology at Johns Hopkins University Despite his claiming to be just a demoticist Richard Jasnow s research interests and specialties are broad spanning religious and historical topics along with new editions of demotic texts including most particularly the Book of Thoth A number of the authors demonstrate their appreciation for Jasnow s contributions to the understanding of this difficult text The volume also includes other studies on literature Ptolemaic history and even the god Thoth himself and features detailed images and abundant hieroglyphic hieratic demotic Coptic and Greek texts

Redefining Christian Identity Jan J. Ginkel,Hendrika Lena Murre-van den Berg,Theo Maarten van Lint,2005 Cultural interaction in the Middle East since the Rise of Islam such was the title of a combined research project of the Universities of Leiden and Groningen aimed at describing the various ways in which the Christian communities of the Middle East expressed their distinct cultural identity in Muslim societies As part of the project the symposium Redefining Christian Identity Christian cultural strategies since the rise of Islam took place at Groningen University on April 7 10 1999 This book contains the proceedings of this

conference From the articles it becomes clear that a number of distinct cultural strategies can be identified some of which were used very frequently others only in certain groups or at particular periods of time The three main strategies that are represented in the papers of this volume are i reinterpretation of the pre Islamic Christian heritage ii inculturation of elements from the new Islamic context iii isolation from the Islamic context Viewed in time it is clear that the reinterpretation of older Christian heritage was particularly important in the first two centuries after the rise of Islam the seventh and eighth centuries that inculturation was the dominant theme of the Abbasid period in the ninth to twelfth centuries whereas from the Mongol period onwards from the thirteenth to the eighteenth centuries isolation more and more often occurs although inculturation of elements from the predominantly Muslim environment never came to a complete standstill

Animal Sacrifice in the Ancient Greek World Sarah Hitch,Ian Rutherford,2017-08-24 This volume brings together studies on Greek animal sacrifice by foremost experts in Greek language literature and material culture Readers will benefit from the synthesis of new evidence and approaches with a re evaluation of twentieth century theories on sacrifice The chapters range across the whole of antiquity and go beyond the Greek world to consider possible influences in Hittite Anatolia and Egypt while an introduction to the burgeoning science of osteo archaeology is provided The twentieth century emphasis on sacrifice as part of the Classical Greek polis system is challenged through consideration of various ancient perspectives on sacrifice as distinct from specific political or even Greek contexts Many previously unexplored topics are covered particularly the type of animals sacrificed and the spectrum of sacrificial ritual from libations to lasting memorials of the ritual in art
