**Study of Religion in Southern Africa** Johannes Smit, Pratap Kumar, 2018-08-14 This collection of essays is brought together in the honour of Gerhardus Cornelis Pippin Oosthuizen on his eighty third birthday Pippin has been one of the most significant religion researchers and prolific Humanities publishers South Africa has ever produced Among his friends and colleagues are some of the most important scholars of religion in South Africa and elsewhere With his critical acumen and insightful understanding of the ebb and flow of the South African socio political landscape of the last fifty odd years he has been a distinguished leader in research and has been honoured with Honorary doctorates from South Africa's leading universities This collection constitutes a small token of appreciation for his more than fifty years in academia and his academic leadership **Along Edges** J. S. Krüger, 1995 Looking at contrast and similarity between the above three religions and their influence in South Africa the central question in this book looks to the future It asks whether it is possible to enter a

new era in religious history without losing cultural tradition in the face of rapid social change In juxtaposing these religions the author finds points of contact between views that at first glance seem to be opposites Savage Systems David Chidester,1996 *Savage Systems* examines the emergence of the concepts of religion and religions on colonial frontiers The book offers a detailed analysis of the ways in which European travelers missionaries settlers and government agents as well as indigenous Africans engaged in the comparison of alternative religious ways of life as one dimension of intercultural contact Focusing primarily on nineteenth century frontier relations David Chidester demonstrates that the terms and conditions for comparison including a discourse about otherness that were established during this period still remains A volume in the series *Studies in Religion and Culture* *Religion in Southern Africa* ,1986 *Religion and Politics in South Africa* Abdulkader Tayob, Wolfram Weisse, *Traditional African Religions in South African Law* T. W. Bennett,2011 Traditional African beliefs together with African cultural traditions are enjoying a new found respect in South Africa due in large part to the advent of the country's democratic constitution In fact a large majority of the South African population adheres to some form of traditional belief often in combination with observance of other religions Even so the traditional faiths are poorly understood and in spite of constitutional guarantees receive far from equal treatment a situation quite at odds with the country's commitment to equality and religious and cultural diversity Throughout Africa there is a strong tendency to confound indigenous beliefs with culture Because religion is always taken more seriously than culture this means that traditional beliefs do not attract the respect they deserve While there are numerous works on the subject of religion in Africa there are no works on traditional African religions and their legal implications The issue is nevertheless of serious political and legal concern in South Africa since it raises diverse questions involving freedom of religion the equal treatment of religions traditional healing witchcraft animal sacrifice circumcision marriage and burial The overall purpose of the title is to consider whether indigenous African religions independent African churches and traditional practices deserve constitutional protection and recognition by the state If recognised they will then become subject to certain state controls and benefits the need for registration the licensing of ministers as marriage officers with consequences for the validity of customary and other marriages and significantly of course tax exemptions This title thus explores the legal and constitutional implications of traditional religion and in particular the state's intervention in religious matters Publisher's description

**Wild Religion** David Chidester,2012-04-23 This book examines South Africa's political journey of the late twentieth and early twenty first century in the context of religious diversity and the recent revitalization of indigenous religion and rituals

*Law, Religion and Leadership in Africa* F. Sibanda, E. Chitando, E.G. Konyana, B.P. Humbe,2025-05-16 In Africa some heads of state sometimes prefer to take their oath on the Bible or the Quran rather than on an ancestral law or a fearsome fetish capable of causing misery in the event of a violation Thus in order to build credible institutions that can guarantee socio political and economic stability it is desirable to resort to certain ancestral practices in particular strict respect for

customs At this level of our reflection it seems useless for Africans to reinvent the wheel rather we must look in the rearview mirror in order to exalt the pre colonial instruments capable of unravelling the invisible mystery of these societies In this same dynamic the ancestral law because of its historical and charismatic legitimacy imposes strict respect for the cosmic order Komo Guy Roland Kossonou Assistant Professor Legal Administrative and Management Sciences Training and Research Unit UFR SJAG Alassane Ouattara University Bouaké Cote d'Ivoire There is no way the church leadership can ignore such issues which affect their people daily and only talk about the future kingdom to come Both the sacred and the secular kingdoms are important matters in the life of people in every community hence religious and political leaders should strive to resolve their conflicts because people look up to them for spiritual and political leadership When political leaders tell religious leaders to stick to preaching the gospel and not involve themselves in the political affairs of the country it silences the church's ability to speak for the poor Upendo Mwakasenga Ordained minister United Church of Zambia Doctoral student in systematic theology University of Kwa Zulu Natal Even today religious cultural beliefs inform the way the youths are viewed within Zimbabwe's political circles Such beliefs infantilize young people and disempower them from effective political participation In most cases this role is postponed into the future The existing political structures and regimes exploit youth to expend their energies as political and military foot soldiers for the political elite but they are not being mentored to be prepared for positions of leadership It therefore becomes crucial to question the maxim the future is young which seems to procrastinate youth political leadership in Zimbabwe Molly Manyonganise Senior Lecturer Department of Religious Studies and Philosophy Zimbabwe Open University Ultimately God provides and heals but the fisherman must still cast his net the farmer must still till the soil and the doctor must still administer medication It is no different in matters of governance military warfare or institution building Personal piety is inconsequential to the empirical workings of the world but it may weigh on the scales in the hereafter The Brotherhood's fatalism blinds them to the worldly instruments needed to govern a nation Study and experience in economic policy and statecraft cannot be replaced with saintly endeavours such as worship and charity Nabil Yasien Mohamed Lecturer in Islamic Studies Department of Religion and Theology University of the Western Cape

*Religious Freedom and Religious Pluralism in Africa* Pieter Coertzen, M Christian Green, Len Hansen, 2016-05-22 Africa continues to be a region with strong commitments to religious freedom and religious pluralism These however are rarely mere facts on the ground they are legal political social and theological projects that require considerable effort to realise This volume compiling the proceedings of the third annual conference of the African Consortium for Law and Religion Studies focuses on various issues which vastly effect the understanding of religious pluralism in Africa These include amongst others religious freedom as a human right the importance of managing religious pluralism and the permissibility of religious practice and observance in South African public schools

*The Language of Faith in Southern Africa: Spirit World, Power, Community, Holism* Hermen Kroesbergen, 2019-12-12 The aim of this book is

to provide a way to do justice to an African language of faith In systematic theology anthropology and philosophy of religion similar debates about how to interpret an African language of faith are ongoing Trying to avoid the othering discourses of past generations scholars are careful to take seriously what people in Africa say without portraying people's beliefs as weird or backward Yet in their desperate attempts to avoid othering these theologians anthropologists and philosophers often painfully misconstrue the language of faith in Africa Understanding the language of faith in Southern Africa is not an easy task How should we take seriously the form of language that often seems so strange and different I argue that after African inculturation theology and black liberation theology a better way to make sense of being a Christian in Southern Africa is to pay close attention to people's language of faith The way in which people speak of the spirit world or powers in Africa appears strange to outsiders and the sense of community and the holistic worldview differentiates the African way of life from its Euro American counterparts When proper attention is paid to the use of concepts like spirit world power community and holism language of faith in Southern Africa is neither as strange as it may seem nor as romantic By investigating these distinguishing concepts that colour language of faith in Southern Africa this book contributes to future projects of both fellow theologians who try to construct a contemporary African theology and those who are interested in theology in Africa given the well known southward shift of the centre of gravity of Christianity

*Christianity in South Africa* Richard Elphick, T. R. H. Davenport, 1997 Almost three quarters of South Africans in the late 1990s call themselves Christians From colonial times when missionaries embroiled themselves in frontier conflicts until recently when both defenders and opponents of apartheid draw heavily upon Christian doctrine and ritual Christian impulses have shaped South Africa North America University of California Press South Africa David Philip New Africa Books

*Wild Religion* David Chidester, 2012-04-23 *Wild Religion* is a wild ride through recent South African history from the advent of democracy in 1994 to the euphoria of the football World Cup in 2010 In the context of South Africa's political journey and religious diversity David Chidester explores African indigenous religious heritage with a difference As the spiritual dimension of an African Renaissance indigenous religion has been recovered in South Africa as a

national resource Wild Religion analyzes indigenous rituals of purification on Robben Island rituals of healing and reconciliation at the new national shrine Freedom Park and rituals of animal sacrifice at the World Cup Not always in the national interest indigenous religion also appears in the wild religious creativity of prison gangs the global spirituality of neo shamans the ceremonial display of Zulu virgins the ancient Egyptian theosophy in South Africa s Parliament and the new traditionalism of South Africa s President Jacob Zuma Arguing that the sacred is produced through the religious work of intensive interpretation formal ritualization and intense contestation Chidester develops innovative insights for understanding the meaning and power of religion in a changing society For anyone interested in religion Wild Religion uncovers surprising dynamics of sacred space violence fundamentalism heritage media sex sovereignty and the political economy of the sacred

**Religious Rules, State Law, and Normative Pluralism - A Comparative Overview** Rossella Bottoni,Rinaldo Cristofori,Silvio Ferrari,2016-07-07 This book is devoted to the study of the interplay between religious rules and State law It explores how State recognition of religious rules can affect the degree of legal diversity that is available to citizens and why such recognition sometime results in more individual and collective freedom and sometime in a threat to equality of citizens before the law The first part of the book contains a few contributions that place this discussion within the wider debate on legal pluralism While State law and religious rules are two normative systems among many others the specific characteristics of the latter are at the heart of tensions that emerge with increasing frequency in many countries The second part is devoted to the analysis of about twenty national cases that provide an overview of the different tools and strategies that are employed to manage the relationship between State law and religious rules all over the world
