Religions Of Africa A Pilgrimage Into Traditional Religions:

Religions of Africa Noel Quinton King, 1970 *The Individual and Community in African Traditional Religions* Theo Sundermeier, 1998 The writer has done a careful scholarly and sensitive and very positive and fair study of African religion with particular reference to the individual and community Theo Sundermeier lets Africa speak for itself and on its own terms and in its own categories The concluding chapter is a necessary reading for all who would be on mission who would seek to live the ecumenical imperative and care to ensure that the pursuit of a religion does not result in dehumanization and degradation and marginalization of the other person Rev Canon Prof John S Pobee World Council of Churches Geneva Switzerland This book treats the subject of African religions in a creative and interesting way emphasizing that these religions are genuine authentic expressions of religiosity on a par with other religions including the so called world religions The author provides an excellent account of the nature interdependence between individual community society and the natural order an interdependence which these religions symbolize and express in ritual and belief Likewise the essentially personal nature of power as conceived in African culture is thoughtfully and interestingly analysed There are many other thought provoking ideas and interpretations in this volume including the deconstruction of the commonly held notions of the distinction between witchcraft and magic This is a most worthwhile contribution to the study of Africa s traditional religions and I am convinced all those with an interest in Africa who read it will gain much therefrom Professor Peter B Clarke Professor of the History and Sociology of Religion in the University of London at King s College and formerly Professor of African History at the University of Ibadan Nigeria Theo Sundermeier is Professor of the History of Religion and Missiology at the Ruprecht Karls Universit t Heidelberg translated by Elaine Griffiths Eleanor Jackson [Engaging Religions and Worldviews in Africa](#) Yusufu Turaki, 2020-04-30 In a world of increasing globalization we live amidst a clash of cultures religions and worldviews each battling for the human heart and mind In this in depth study Yusufu Turaki offers a theological framework for engaging this clash of perspectives in Africa where traditional African religions colonialism and exposure to Christianity have each had a lasting impact on contemporary African worldviews Professor Turaki undertakes a systematic analysis of the nature of African Traditional Religion its complex history with Christianity and the need for African Christian theology to address its cultural and historical roots effectively He provides both a conceptual framework and practical guide for engaging African cultures and religions with compassion understanding and a firm foundation rooted in scriptural truth This book is an excellent resource for students of religion and theology as well as those interested in Africa s traditional heritage or drawn to the important work of cross cultural and inter religious dialogue *African Religion* Laurenti Magesa, 2014-07-30 Describes the moral teachings values norms and principles to follow so that life might be abundant for all of the African religion as it relates to individuals and community [Shembe, Ancestors, and Christ](#) Edley J. Moodley PhD, 2008-08-18 The Christian axis has shifted dramatically southward to Africa Asia and Latin America so much so that

today there are more Christians living in these southern regions than among their northern counterparts In the case of Africa the African Initiated Churches founded by Africans and primarily for Africans has largely contributed to the exponential growth and proliferation of the Christian faith in the continent Yet even more profoundly these churches espouse a brand of Christianity that is indigenized and thoroughly contextual Further the power and popularity of the AICs beyond the unprecedented numbers joining these churches are attributed to their relevance to the existential everyday needs and concerns of their adherents in the context of a postcolonial Africa At the heart of Christian theology is Christology the confessed uniqueness of Christ in history and among world religions Yet this key feature of Christianity as with other important elements of the Christian faith may be variously understood and re interpreted in these indigenous churches The focus of this study is the amaNazaretha Church an influential religious group founded by the African charismatic prophet Isaiah Shembe in 1911 in the province of KwaZulu Natal South Africa The movement today claims a following of some two million adherents and has proliferated beyond the borders of South Africa to neighboring countries in Southern Africa The book addresses the complex and at times ambivalent understanding of the person and work of Christ in the amaNazaretha Church presenting the genesis history beliefs and practices of this significant religious movement in South Africa with broader implications for similar movements across the continent of Africa and beyond

RELIGIOUS SYNCRETISM IN AFRICAN CHRISTIANITY ISAIAH OLUWAJEMIRIYE OLATOYAN, 2024-04-18 Christianity among the African people whether on the soil of Africa or in diaspora is perceived and defined differently by different people For instance among African traditional religious people and Muslims Christianity is a foreign religion that must not be allowed to thrive in Africa To several Africans who profess Jesus Christianity is good but it is not adequate and effective enough to handle all human needs Still among some Western Christians and missionaries African Christianity is superficial and lacks total commitment to Christ Of course the Africans are a cultural people with profound religious inclinations Their traditional religion ATR has tremendously shaped their worldviews and socioeconomic and political activities Consequently when traditional Africans are converted to Christianity they do not break ties with their traditional religions completely The examination of relevant biblical texts on syncretism however reveals that God condemns the worship of many gods and places a curse on anyone who offers sacrifices to carved images and bows to them in worship Therefore this work investigates the root cause of religious syncretism among African people In the attempt to find answers to why the average African Christian finds it difficult if not impossible to abandon his her traditional religious belief systems completely to embrace Christianity the author concludes that unless the issues surrounding the African forgotten and secret covenants are exposed and decisively addressed in the light of biblical teaching syncretism will continue to be a stigma on the fabric of African Christianity Therefore to overcome the threats of syncretism in African Christianity there is a need to establish a sound theological and missiological framework that can address the problems associated with the African worldviews and belief systems This task must be carried out under

the searchlight of Scriptures **The Vitality of Karamojong Religion** Ben Knighton, 2017-05-15 How long can a traditional religion survive the impact of world religions state hegemony and globalization The Karamoja problem is one that has perplexed colonial and independent governments alike Now Karamojong notoriety for armed cattle raiding has attracted the attention of the UN and USAID since the proliferation of small arms in the pastoralist belt across Africa from Sudan to stateless Somalia is deemed a threat to world security The consequences are ethnocidal but what makes African peoples stand out against state and global governance The traditional African religion of the Karamojong despite the multiple external influences of the twentieth century and earlier has remained at the heart of their culture as it has changed through time Drawing on oral accounts and the language itself as well as his extensive experience of living and working in the region Knighton avoids Western perspectivism to highlight the successful reassertion of African beliefs and values over repeated attempts by interventionists to replace or subvert them Knighton argues that the religious aspect of Karamojong culture with its persistent faith dimension is one of the key factors that have enabled them to maintain their amazing degree of religious political and military autonomy in the postmodern world Using historical and anthropological approaches the real continuities within the culture and the reasons for mysterious vitality of Karamojong religion are explored **Black African**

Traditional Religions and Philosophy Patrick E. Ofori, 1975 **Encyclopedia of Ancient Deities** Charles Russell Coulter, Patricia Turner, 2021-12-06 Throughout history humans have pondered the question of their existence In nearly every society part of the answer has included some form of god or goddess For the Mayans one such deity was Ajtzak who tried to create humans from wood for the Yorubas of Africa Shango controlled the thunder and lightning The Chinese of the Shang dynasty era worshipped Shang Ti Evil deities were also part of the answer as in the case of the Kuvera the Hindu chief of evil in the Vedic period and Tu the Persian or Islamic demon of fatal accidents All of the known ancient gods many heretofore obscure or known only from mythological literature are included in this exhaustive reference work The focus is on their origins histories and functions The people who believed in each deity are identified along with alternate names or spellings both old and modern The descriptions that follow are of the functions origins and physical nature of the deities Extensive cross references are provided for alternate spellings and names Funeral Rites Reformation for Any African Ethnic

Community Based on the Proposed New Funeral Practices for the Agikuyu Johnson Nganga Mbugua, 2016-06-17 This book has been written on the premise that the mode of coping with death of virtually all African ethnic communities has taken proportions and turns that are neither cultural scriptural nor necessary Current rites are complicated time consuming expensive and are leaving most families and their neighbors impoverished They have been extremely commercialized and a large number of Africans do not have resources to bury their dead the modern way Were the Agikuyu read Africans to curb numerous funeral demands which they deem necessary and customary when in actual fact they are not funerals for them would become cheaper faster and simpler would be decent enough for the dead would take care of those left behind and

would be environmentally friendly How Africans in the Diaspora away from their ancestral homeland should cope with death is also addressed Also addressed is the issue of cremation It is shown that at the resurrection God will accord us new spiritual bodies which will have no bearing with the material substance of our earthly mortal bodies **Away With All Gods!** Bob Avakian,2008-04-01 Is believing in gods actually harmful How has Christianity for centuries served as an ideology of conquest and subjugation Why is the Bible Belt in the U S also the lynching belt Why is there a rise of religious fundamentalism throughout the world In the intensifying conflict between U S imperialism and Islamic fundamentalism is the only choice to take one side or the other Why is patriarchy and the oppression of women foundational to so many religions Can people be good without god These are just some of the questions explored in this provocative work by Bob Avakian Bringing a unique revolutionary communist voice to the current discourse about god atheism and morality Avakian demystifies religious belief and examines how even in its most progressive interpretations religion stands in the way of the emancipation of humanity A thread deeply woven throughout Away With All Gods is the need to fully rupture with all forms of superstition and to take up instead a truly scientific approach to understanding and transforming reality Whether you believe in god or are an agnostic or an atheist Bob Avakian will challenge you with his powerful critique of long established traditions and his liberating vision of a radically different world **The Concept of Botho and HIV/AIDS in Botswana** Joseph B. R. Gaie,Sana Mmolai,2007 Ever since the publication of Placide Tempel s epoch making work Bantu Philosophy African philosophers have worked to dispel the myth that there is no metaphysics in Africa In the East African context we remember the names of Joseph Nyasmi and Odera Oruka and in the West African context Pauline Houtoundji and Kwesi Wiredu have made monumental contributions to elucidate African metaphysics This compendium presented by a group of scholars from the University of Botswana seeks to build bridges between the seemingly estranged disciplines of African metaphysics existential philosophy and economics in the contexts of HIV AIDS **The Imperial Curriculum** J. Mangan,2012-05-04 This volume presents the first comparative analysis of racial attitudes in the formal schooling of both Britain and its former dominions and colonies The various contributions examine the issue right across the British imperial experience with case studies ranging from Canada Ireland East and South Africa through the Indian subcontinent to Australia and New Zealand Racial indoctrination is considered from the perspective of both colonizer and colonized The central theme throughout is that a racial hierarchy was taught through both curriculum and text in schools throughout the former British Empire **A Primal Perspective on the Philosophy of Religion** Arvind Sharma,2006-09-09 What am I trying to accomplish through the exercise which I have undertaken namely to examine the philosophy of religion in the light of primal religions If to choose someone else s expression to characterize one s own intellectual endeavour is an indication of one s own lack of imagination then I must plead guilty to that charge but not to that of lack of gratitude for I have to thank Robin Horton for describing better than I can what I have attempted in the book It is an exercise in what he calls

translational understanding I quote him now By translational understanding I mean the kind of understanding of a particular thought system that results from the successful translation of the language and conceptual system that embody it into terms of a language and conceptual system that currently enjoy world status In talking of translation of course I am not just talking of the provision of dictionary equivalents for individual words or sentences I am talking about finding a world language equivalent for a whole realm of discourse and of showing in world language terms what the point of that realm of discourse is in the life of the people who use it Translation in this broader sense can be very arduous There may be no realm of discourse in the world language that exactly fits the bill We may have to bend and refashion existing realms and even redefine their guiding intentions

Holidays Around the World, 6th Ed. James Chambers, 2018-01-01 A comprehensive reference guide that covers over 3 500 observances Features both secular and religious events from many different cultures countries and ethnic groups Includes contact information for events multiple appendices with background information on world holidays extensive bibliography multiple indexes

Missiological Reflections on Life and Mission Stephen M. Davis, 2022-05-25 The changing face of world missions presents unique challenges A new generation must both engage in God s mission and continue to reflect on the human dimension of engagement in the glorious task of making Christ known to the nations Christianity is a universal religion not bound by one cultural expression of it No cultural way of life or its Christian expression should be absolutized Missionaries will be confronted with undreamed of challenges to their own worldview assumptions and must learn to distinguish between convictions rooted in Scripture and culture informed convictions that should not be elevated to the level of scriptural truth Without crosscultural training missionaries may unconsciously confound their cultural expression of Christianity with supracultural truth They need to reflect biblically theologically and missiologically on whatever issues they face and they need the conviction that God is at work in his world to accomplish his purposes and bring all things to his desired end This book represents areas of personal reflection after over forty years of church planting ministry in different countries The challenges of others may be different The mission remains the same

The Concept of Botho and HIV/AIDS in Botswana R. Gaie, K. MMolai, 2007-12-29 Ever since the publication of Placide Tempel s epoch making work *Bantu Philosophy* African philosophers have worked to dispel the myth that there is no metaphysics in Africa In the East African context we remember the names of Joseph Nyasmi and Odera Oruka and in the West African context Pauline Hountondji and Kwesi Wiredu have made monumental contributions to elucidate African metaphysics This compendium presented by a group of scholars from the University of Botswana seeks to build bridges between the seemingly estranged disciplines of African metaphysics existential philosophy and economics in the contexts of HIV AIDS
