Lamport,2015-05-07 Christianity regards teaching as one of the most foundational and critically sustaining ministries of the Church As a result Christian education remains one of the largest and oldest continuously functioning educational systems in the world comprising both formal day schools and higher education institutions as well as informal church study groups and parachurch ministries in more than 140 countries In The Encyclopedia of Christian Education contributors explore the many facets of Christian education in terms of its impact on curriculum literacy teacher training outcomes and professional standards This encyclopedia is the first reference work devoted exclusively to chronicling the unique history of Christian education across the globe illustrating how Christian educators pioneered such educational institutions and reforms as universal literacy home schooling Sunday schools women s education graded schools compulsory education of the deaf and blind and kindergarten With an editorial advisory board of more than 30 distinguished scholars and five consulting editors TheEncyclopedia of Christian Education contains more than 1 200 entries by 400 contributors from 75 countries These volumes covers a vast range of topics from Christian education History spanning from the church s founding through the Middle Ages to the modern day Denominational and institutional profiles Intellectual traditions in Christian educationBiblical and theological frameworks curricula missions adolescent and higher education theological training and Christian pedagogy Biographies of distinguished Christian educators This work is ideal for scholars of both the history of Christianity and education as well as researchers and students of contemporary Christianity and modern religious education *Learning in a Musical Key* Lisa M. Hess,2011-09-15 Learning in a Musical Key examines the multidimensional problem of the relationship between music and theological education Lisa Hess argues that in a delightful and baffling way musical learning has the potential to significantly alter and inform our conception of the nature and process of theological learning In exploring this exciting intersection of musical learning and theological training Hess asks two probing questions First What does learning from music in a performative mode require Classical modes of theological education often founder on a dichotomy between theologically musical and educational discourses It is extremely difficult for many to see how the perceivedly nonmusical learn from music Is musicality a universally human potential In exploring this question Hess turns to the music learning theory of Edwin Gordon which explores music s unique mode of teaching learning its primarily aural oral mode This challenge leads to the study s second question How does a theologian in the disciplinary sense integrate a performative mode into critical discourse Tracking the critical movements of this problem Hess provides an inherited transformational logic as a feasible path for integrating a performative mode into

multidimensional learning This approach emerges as a distinctly relational embodied multidimensional and non correlational performative mode theology that breaks new ground in the contemporary theological landscape As an implicitly trinitarian method rooted in the relationality of God this non correlational method offers a practical theological contribution to the discipline of Christian spirituality newly claimed here as a discipline of transformative teaching learning through the highly contextualized and self implicated scholar into relationally formed communities and ultimately into the world **The Islamic Revival Since 1988** Yvonne Y. Haddad, John L. Esposito, 1997-07-16 Designed as a useful reference tool to help students educators and diplomats maneuver through scholarly literature as well as primary sources published in English between 1989 and 1994 this work seeks to help the researcher make sense of the explosion of literature on this often contentious topic In addition to surveying the literature on Islamic revival worldwide it provides commentary on literature pertaining to important topics such as the role of women in Islam Islamic economics and the migration of Muslims to western Europe and North America This work is a continuation of the first edition published by Greenwood in 1991 IThe Contemporary Islamic Revival R Governments policymakers and experts around the world are debating whether contemporary Islamic revival in particular Islamic Fundamentalism is a diverse and multifaceted phenomenon or a uniformly clear and present danger to be consistently and persistently repressed or eradicated Some propose that there are means of cooperation collaboration or co optation with those who adhere to it while others see it as a menace warning of a clash of civilizations and of an Islamic population explosion which poses a demographic threat to national security and world peace

Christianity in order to satisfy this deep human need *The Best Books for Academic Libraries: General works, military & naval, library science* ,2002 John Clare's Religion Sarah Houghton-Walker,2016-05-06 Addressing a neglected aspect of John Clare s history Sarah Houghton Walker explores Clare s poetry within the framework of his faith and the religious context in which he lived While Clare expressed affection for the Established Church and other denominations on various occasions Houghton Walker brings together a vast array of evidence to show that any exploration of Clare s religious faith must go beyond pulpit and chapel Phenomena that Clare himself defines as elements of faith include ghosts witches and literature as well as concepts such as selfhood Eden eternity childhood and evil Together with more traditional religious expressions these apparently disparate features of Clare s spirituality are revealed to be of fundamental significance to his poetry and it becomes evident that Clare s experiences can tell us much about the experience of religion faith and belief in the period more generally A distinguishing characteristic of Houghton Walker s approach is her conviction that one must take into account all aspects of Clare s faith or else risk misrepresenting it Her book thus engages not only with the facts of Clare s religious habits but also with the ways in which he was literally inspired and with how that inspiration is connected to his intimations of divinity to his vision of nature and thus to his poetry Belief mediated through the idea of vision is found to be implicated in Clare s experiences and interpretations of the natural world and is thus shown to be critical to the content of his verse **Pride, Faith, and Fear** Charlotte A.
