Warne, 2008-12-19 Since its founding by Jacques Waardenburg in 1971 *Religion and Reason* has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline      **New Approaches to the Study of Religion** Peter Antes, Armin W. Geertz, Randi Ruth Warne, 2004      *The Ambivalence of the Sacred* Scott R. Appleby, 2000 This text explains what religious terrorists and religious peacemakers share in common and what causes them to take different paths in fighting injustice

*Law and Religion in Contemporary Society* Peter W. Edge, Graham Harvey, 2017-09-08 The relationship between law and religion has traditionally been analysed according to two basic paradigms One has focused on the relationship between religious communities and the State the Church State paradigm while the other has concentrated on the relationship between the State and the individual the liberal individualist or civil liberties paradigm This book enriches the analysis of law

and religion in society by emphasising a third and complementary analytical dimension involving the relationship between religious communities and religious individuals. In particular the contributors explore the various facets of the multiple tensions that exist in the legal relationships between religious organisations, State and adherents in the period leading up to the third Christian millennium. Against the background of the complex and sometimes contradictory responses of religious organisations and the State to the Human Rights Act, this interdisciplinary collection draws on contributions from leading scholars active in the field of religious rights and the interaction of law and religion based in the UK, USA, Canada, New Zealand and elsewhere and makes a timely and significant contribution to international debates in a variety of academic disciplines. Contributors explore international concerns over religious liberty focusing particularly on the boundaries of ethnicity and religious community, the status of the established Churches in the UK and the proper place for religious organisations under generally applicable legal regimes of non discrimination. Themes discussed are closely related to wider interests within legal and socio legal studies involving gender discrimination, equality, community and the nature and limits of individualism and individual legal rights.

**The Freedom to do God's Will** James Busuttil, Gerrie ter Haar, 2003-09-02  
Under the auspices of top international commentators, *The Freedom to do God's Will* considers the global impact of fundamentalism on religious traditions including Hinduism, Buddhism, Mormonism, Christianity, Judaism and Islam. With special reference to human rights issues, women's rights and the influence of social factors, it brings a new dimension to a field of study often dominated by purely religious or political perspectives whilst challenging received ideas about the violence and conservatism of fundamentalist movements. Illustrated with original case studies, the ten investigative essays from a multicultural panel of experts, each with specific local and academic knowledge of the faiths and issues they discuss, offer an intimate and highly specific portrait of why and how fundamentalism occurs.

**The Meaning of Religious Freedom in the Public Square** Pablo Munoz Iturrieta, 2020-02-27  
This book offers a new perspective on religious freedom. Its central theme is to elucidate the meaning of religion and freedom in discussions related to religious freedom and the place of religion in the public square. One often hears that either religion must be tamed by restricting its access to public power or that in the name of neutrality and equality no religious reasoning may be used in the political sphere as it may be coercive to other worldviews. There is also the idea that religion is a feature of human life essentially distinct from secular features such as politics and economics and which has a peculiarly dangerous inclination to promote violence. Thus the meaning of religious freedom in the twenty first century seems uncertain. For that reason it is necessary to clarify the meaning of religious freedom especially in relation to the public sphere in order to offer an answer that will guide us in discerning issues of religious freedom.

**Research Handbook on Law and Religion** Rex Ahdar, 2018-09-28  
Offering an interdisciplinary international and philosophical perspective, this comprehensive Research Handbook explores both perennial and recent legal issues that concern the modern state and its interaction with religious communities and individuals.

**Reshaping Protestantism in a Global Context** Volker Küster, 2009 The regional contributions from Africa and Asia show how the old European made denominational differences fade in the light of African Instituted Churches or Pentecostalism Reshaping Protestantism is not a backward oriented project of reconstructing the original but makes use of the inner protestant pluralism to cope with globalization and changing religious landscapes Who reads through the different articles can only come to the conclusion Yes there is a contribution to be expected from mainline Protestantism in all its variety
