## **Religious Vegetarianism From Hesiod To The Dalai Lama:**

*Religious Vegetarianism* Kerry S. Walters, Lisa Portmess, 2001-05-31 An anthology of writings on vegetarianism from a wide range of religious traditions      *Ethical Vegetarianism* Kerry S. Walters, Lisa Portmess, 1999-01-07 For vegetarians seeking the historical roots of vegetarianism for animal rights activists and the environmentally concerned and for those questioning their consumption of meat here is a book that provides a deep understanding of vegetarianism as more than just a dietary decision This is the first comprehensive collection of primary source material on vegetarianism as a moral choice and includes the writings of Carol Adams Bernard de Mandeville Mohandas Gandhi Oliver Goldsmith Anna Kingsford Frances Moore Lapp Porphyry Pythagoras Tom Regan Albert Schweitzer Seneca Peter Singer Leo Tolstoy and Richard Wagner among others      *Religious Vegetarianism* Kerry S. Walters, Lisa Portmess, 2001-05-31 Stretching back more than two thousand years and spanning diverse traditions religious vegetarianism has an ancient and rich history In this book Kerry S Walters and Lisa Portmess gather writings that reflect devotional as well as more analytical responses to age old questions of animal suffering dietary practice and human responsibility These include writings from ancient Orphic and Pythagorean authors writings that span centuries of Indian and Buddhist thought and writings from the Judaic Christian and Islamic traditions Interesting both to those well versed in the literature of vegetarianism as well as to others encountering it for the first time are tensions within traditions over the use of animals for food whether such use is consonant with fundamental values of the faith whether religious law or tradition requires vegetarian practice and what place animals are thought to hold in the order of nature      ***Veganism: A Guide for the Perplexed*** Kerry Walters, 2012-06-07 The choice of whether or not to consume animals is more than merely a dietary one It frequently reflects deep ethical commitments or religious convictions that serve as the bedrock of an entire lifestyle Proponents of vegetarianism frequently infuriate nonvegetarians who feel that they are being morally condemned because of what they choose to eat Vegetarians are frequently infuriated by what they consider to be the nonvegetarians disregard for the environment and animal suffering *Veganism A Guide for the Perplexed* offers a much needed survey of the different arguments offered by ethical vegetarians and their critics In a rigorous but accessible manner the author scrutinizes the strengths and weaknesses of arguments in defense of vegetarianism based on compassion rights interests eco feminism environmentalism anthropocentrism and religion Authors examined include Peter Singer Tom Regan Carol J Adams and Kathryn Paxton George As the global climate crisis worsens population increases and fossil fuels disappear ethical and public policy questions about the ethics of diet will become ever more urgent This book is a useful resource for thinking through the questions      ***History of Vegetarianism and Veganism Worldwide (1970-2022)*** William Shurtleff; Akiko Aoyagi, 2022-03-10 The world's most comprehensive well documented and well illustrated book on this subject With extensive subject and geographic index 48 photographs and illustrations mostly color Free of charge in digital PDF format      ***Kinship and Killing*** Katherine Wills Perlo, 2009 Through

close readings of Jewish Christian Islamic and Buddhist texts Katherine Wills Perlo proves that our relationship with animals shapes religious doctrine particularly through the tension between animal exploitation and the bonds of kinship She pinpoints four different strategies for coping with this conflict The first is aggression in which a divinely conferred superiority or karma justifies animal usage The second is evasion which emphasizes benevolent aspects of the human animal relationship within the exploitative structure such as the image of Jesus as a good shepherd The third is defense which acknowledges the problematic nature of killing leading many religions to adopt a propitiation mechanism such as apologizing for sacrifice And the fourth is effective defensive which recognizes animal abuse as inherently unethical As humans feel more empathy toward animals Perlo finds that adherents revise their interpretations of religious texts Preexisting ontologies such as Christianity s changing God or Buddhism s principle of impermanence along with advances in farming practices and technology also encourage changes in treatment As cultures begin to appreciate the different types of perception and consciousness experienced by nonhumans definitions of reality become complicated and humans lean more toward unitary accounts of shared existence These evolving attitudes exert a crucial influence on religious thought Perlo argues moving humans ever closer to a nonspeciesist world

**Voices from the Garden** Daniel Towns, Sharon Towns, 2001 In nearly fifty personal stories this book uncovers the motivations concerns and life journeys of people who decided to become vegetarians Some became vegetarians because of a life changing relationship with a non human animal some because of a health crisis that led them to their new diet others because of worries about the environmental consequences of meat consumption This inspiring collection is ideal for anyone thinking of vegetarianism or wanting to reinforce their move to vegetarianism Religion and Environmentalism Lora Stone, 2020-07-01 A foundational resource for readers investigating religiously motivated environmentalism this book provides both a global overview of the subject and a detailed discussion of key figures concepts organizations events and documents Beginning in the late 1960s a growing number of activists scholars and scientists asserted that traditional religions had been major contributors to the environmental crisis In response theologians religious organizations and religiously motivated activists became increasingly involved in environmental issues At the same time emerging nature based belief systems emphasized values and lifestyles based in environmentalism More recently religiously motivated environmentalism has become a powerful force in shaping environmental policy and human action globally and has joined with secular environmentalism to address related issues This book explores the background and current state of religious environmentalism The book begins with an overview essay examining the history and context of religious environmentalism and its significance today A chronology then profiles the most important events related to religious environmentalism A section of more than 50 alphabetically arranged reference entries follows with each entry providing objective information about people places events movements works and other topics The entries include cross references and suggestions for further reading and the book closes with a selected annotated bibliography of major works Animals are
