Ivanhoe, Chair Professor of East Asian and Comparative Philosophy and Religion and Director of the Center for East Asian and Comparative Philosophy (Ceacop) Philip J Ivanhoe, 1999-01-01 Leading scholars examine religious and philosophical dimensions of the Chinese classic known as the Daodejing or Laozi

An Introduction to Daoist Philosophies Steve Coutinho, 2013-11-05 Steve Coutinho explores in detail the fundamental concepts of Daoist thought as represented in three early texts the Laozi the Zhuangzi and the Liezi Readers interested in philosophy yet unfamiliar with Daoism will gain a comprehensive understanding of these works from this analysis and readers fascinated by ancient China who also wish to grasp its philosophical foundations will appreciate the clarity and depth of Coutinho's explanations Coutinho writes a volume for all readers whether or not they have a background in philosophy or Chinese studies A work of comparative philosophy this volume also integrates the concepts and methods of contemporary philosophical discourse into a discussion of early Chinese thought The resulting dialogue relates ancient Chinese thought to contemporary philosophical issues and uses modern Western ideas and approaches to throw new interpretive light on classical texts Rather than function as historical curiosities these works act as living philosophies in conversation with contemporary thought and experience Coutinho respects the multiplicity of Daoist philosophies while also revealing a distinctive philosophical sensibility and he provides clear explanations of these complex texts without resorting to oversimplification

Historical Dictionary of Daoism Ronnie L. Littlejohn, 2019-11-29 Daoism is the oldest indigenous philosophic spiritual tradition of China and one of the most ancient of the world's spiritual structures The name Daoism comes from the term dao which means a way or a road through the field or woods to one's village It also means the way to do something such as how a master craftsman carves wood makes a bell or even butchers

an ox But dao is also a nominative in the history of Daoism referring to the energizing process that permeates and animates all of reality and moves it along However both text and practice in this tradition insist that dao itself cannot be described in words it is not God in the sense of Western philosophy or religion Daoism has no supreme being even if there is an extensive grammar about nominally self conscious entities and powers for which the Chinese use the word spirit shen For example the highest powers of Daoism are variously called Taishang Laojun the deified Laozi the Celestial Worthy of Primordial Beginning Yuanshi tianzun the Jade Emperor Yuhuang Shangdi or the Perfected Warrior Zhenwu But these are expressions of dao in specific shen they are not identical to Dao except in the most unique case when Laozi the putative founder of Daoism and author of its major work Daodejing is said to be one with the dao Historical Dictionary of Daoism contains a chronology an introduction appendixes an extensive bibliography and more than 400 cross referenced entries related to the Chinese belief and worldview known as Daoism including dozens of Daoist terms names and practices This book is an excellent resource for students researchers and anyone wanting to know more about Daoism

Spirit, Qi, and the Multitude Hyo-Dong Lee, 2013-11-11 We live in an increasingly global interconnected and interdependent world in which various forms of systemic imbalance in power have given birth to a growing demand for genuine pluralism and democracy As befits a world so interconnected this book presents a comparative theological and philosophical attempt to construct new underpinnings for the idea of democracy by bringing the Western concept of spirit into dialogue with the East Asian nondualistic and nonhierarchical notion of qi The book follows the historical adventures of the idea of qi through some of its Confucian and Daoist textual histories in East Asia mainly Laozi Zhu Xi Toegye Nongmun and Su un and compares them with analogous conceptualizations of the ultimate creative and spiritual power found in the intellectual constellations of Western and or Christian thought namely Whitehead s Creativity Hegel s Geist Deleuze s chaosmos and Catherine Keller s Tehom The book adds to the growing body of pneumatocentric Spirit centered panentheistic Christian theologies that emphasize God s liberating equalizing and pluralizing immanence in the cosmos Furthermore it injects into the theological and philosophical dialogue between the West and Confucian and Daoist East Asia which has heretofore been dominated by the American pragmatist and process traditions a fresh voice shaped by Hegelian postmodern and postcolonial thought This enriches the ways in which the pluralistic and democratic implications of the notion of qi may be articulated In addition by offering a valuable introduction to some representative Korean thinkers who are largely unknown to Western scholars the book advances the study of East Asia and Neo Confucianism in particular Last but not least the book provides a model of Asian contextual theology that draws on the religious and philosophical resources of East Asia to offer a vision of pluralism and democracy A reader interested in the conversation between the East and West in light of the global reality of political oppression economic exploitation and cultural marginalization will find this book informative engaging and enlightening

Blahuta,2015-04-16 Times of prolonged conflict spur great minds to seek a lasting peace Thus was the case of Warring States China which saw the rise of the Hundred Schools of Thought including the Daodejing and the Han Feizi and Renaissance Italy which produced Niccol Machiavelli Witnessing their respective societies fall prey to internal corruption and external aggression all three thinkers sought ways to produce a strong stable state that would allow both the leader and the populace to endure Fortune and the Dao A Comparative Study of Machiavelli the Daodejing and the Han Feizi demonstrates where the shortcomings of each theory lie with emphasis on the similarities among Machiavelli Laozi and Han Feizi Jason P Blahuta ultimately argues that if Machiavelli s philosophy the most comprehensive of the three theories were supplemented by aspects of the Daodejing the revision would potentially overcome the deficiencies of the original

The Analects: A Guide Erin M. Cline,2021-10-05 The Analects Lunyu is the earliest and most influential record of the teachings of Kongzi 551 479 B C E known to most Westerners as Confucius If we measure influence according to the number of people who have lived their lives according to the teachings of a particular text there is a good argument to be made that the Analects has been the most influential text in the world This book argues that we have good reasons to study the Analects as a sacred text and that doing so sheds light not only on the text and the Confucian tradition but on what the sacred is more broadly It begins by examining what it means for a text to be regarded as sacred in relation to the unique history of this remarkably influential book and goes on to offer a close study of the Analects including its structure its composition and compilation and the purpose it has served in the Confucian tradition as the earliest and most authoritative record of Kongzi s teachings and conduct The book further considers the history of the Analects as the most authoritative collection of Confucian teachings which virtually all major Confucians as well as Chinese thinkers throughout history from the Mohist Daoist and Buddhist traditions responded This book explores the text situating its teachings in relation to the religious practices of its time including Zhou rituals and customs known as li and the veneration of ancestor and nature spirits and discusses the Analects use and reception both in

the periods following its composition and compilation and throughout China's imperial history up through the modern era including the recent revival of activity in Confucian temples
