

Religious Art In France

Emile Mâle

Religious Art In France:

Religious Art in France of the Thirteenth Century Emile Mâle, 2000-01-01 Classic by noted art historian focuses on French cathedrals of the 13th century as apotheosis of medieval style Iconography bestiaries illustrated calendars gospels secular history many other aspects 190 black and white illustrations Religious art in France Emile Mâle, 1984

Religious Art in France Emile Mâle, 1984 The Gothic Image Emile Male, 2018-02-20 Emile Male's book aids understanding of medieval art and medieval symbolism and of the vision of the world which presided over the building of the French cathedrals It looks at French religious art in the Middle Ages its forms and especially the Eastern sources of sculptural iconography used in the cathedrals of France Fully illustrated with many footnotes it acts as a useful guide for the student of Western culture **The Gothic Image** Emile Mâle, 1972 *Religious Art in France, XIII Century* Emile Mâle, 1913 The Gothic Image Emile Mâle, 1961 **Religious Art in France, XIII Century** Emile Male, 2018-10-06 The art in medieval cathedrals in addition to its profound aesthetic appeal told unlettered churchgoers a series of morality tales From divine creation to the lives of the saints the stone sculpture and stained glass windows provided dramatic illustrations of the key elements of Christian doctrine Unfortunately the true meaning of these religious artworks was gradually obscured by time In 1913 however this brilliant study appeared clarifying and illuminating the original ideas and concepts behind the sacred art of the Middle Ages The book was hailed by Bernard Berenson as the most illuminating the most informing and the most penetrating book on the subject Focusing on the 13th century as the apotheosis of the medieval style Mâle a noted art historian explains that the decorative features of French cathedrals served as testimonials of religious faith His topics include medieval iconography bestiaries illustrated calendars representations of the virtues and vices symbolic windows saints the gospels secular history and many other aspects of medieval religious art This groundbreaking work enhanced with 190 illustrations that buttress the points made in the text remains unsurpassed in its style and brilliant synthesis of many disparate elements of the topic **Religious Art in France, XIII Century** Emile Mâle, 2016-06-22 Excerpt from *Religious Art in France XIII Century A Study in Mediaeval Iconography and Its Sources of Inspiration To the Middle Ages* art was didactic All that it was necessary that men should know the history of the world from the creation the dogmas of religion the examples of the saints the hierarchy of the virtues the range of the sciences arts and crafts all these were taught them by the windows of the church or by the statues in the porch The pathetic name of *Biblia pauperum* given by the printers of the fifteenth century to one of their earliest books might well have been given to the church There the simple the ignorant all who were named *sancta plebs Dei* learned through their eyes almost all they knew of their faith Its great figures so spiritual in conception seemed to bear speaking witness to the truth of the Church's teaching The countless statues disposed in scholarly design were a symbol of the marvellous order that through the genius of St Thomas Aquinas reigned in the world of thought Through the medium of art the highest conceptions of theologian and scholar penetrated to some extent the minds of

even the humblest of the people But the meaning of these profound works gradually became obscure New generations with a different conception of the world no longer understood them and from the second half of the sixteenth century medieval art became an enigma Symbolism the soul of Gothic art was dead The Church was ashamed of the once beloved legends in which for so many centuries Christianity had been nurtured The council of Trent marks the end of the old artistic tradition and we know from a book full of the spirit of the council that the writer Molanus the theologian had lost the key to the art of the Middle Ages In the seventeenth and eighteenth centuries the Benedictines of Saint Maur when writing of the ancient churches of France displayed an ignorance which was anything but creditable to their order s reputation for learning In his *Monuments de la monarchie française* Montfaucon reads into the cathedral facades scenes from the history of France and portraits of her kings And what can one say of those who speak of Gothic bas reliefs and statues as they might speak of the antiquities of India About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
