Religious Crises In Modern America:

Religious Crises in Modern America Martin E. Marty, 1989 **The Religious Left in Modern America** Leilah Danielson, Marian Mollin, Doug Rossinow, 2018-05-15 This edited collection of exciting new scholarship provides comprehensive coverage of the broad sweep of twentieth century religious activism on the American left The volume covers a diversity of perspectives including Protestant Catholic and Jewish history and important essays on African American Latino and women s spirituality Taken together these essays offer a comparative and long term perspective on religious groups and social movements often studied in isolation and fully integrate faith based action into the history of progressive social movements and politics in the modern United States It becomes clear that throughout the twentieth century religious faith has served as a powerful motivator and generator for activism not just as on the right where observers regularly link religion and politics but on the left This volume will appeal to historians of modern American politics religion and social movements religious studies scholars and contemporary activists **The Religious Crisis of the 1960s** Hugh McLeod, 2007-11-22 The 1960s were a time of explosive change and innovation in the Christian churches as well as of charismatic leaders like Pope John XXIII and Martin Luther King Using oral history Hugh McLeod explains what happened to religion in the 1960s why it happened and how the events of that decade shaped the rest of the 20th century *The New Communitarians and the Crisis of Modern Liberalism* Bruce Frohnen, 1996 Profound scholarly learned carefully reasoned and thought of enduring value timely Forrest McDonald author of *The American Presidency* A provocative book that does much to save us from the hubris of intellectuals John Patrick Diggins author of *The Lost Soul of American Politics* *Religious Crises in Modern America* Martin E. Marty, 1981 Marty focuses on two religious phenomena in American history in the last hundred years modernism and fundamentalism **The Crisis of Evangelical Christianity** Keith C. Sewell, 2016-04-26 In the broad context of Christianity as it developed over two millennia and with special reference to the last three centuries this discussion finds that Evangelicalism has repeatedly offered a reduced and distorted understanding of the faith The evangelical outlook is much less scriptural than evangelicals generally assume When it comes to appreciating the order of creation our calling to develop integral Christian thinking and living the religious significance of culture and the coming of the kingdom reductionist Evangelicalism struggles with its only rarely acknowledged deficiencies As a result we have all too often ended up with a Christianity shorn of its cosmic scope and wide cultural implications and restricted to institutional church life and the cultivation of private spiritual experience The consequences are frequently enervating and corrosive Without disregarding what is important in the past evangelicals are here challenged to take the Bible much more seriously and thereby transcend the limitations of their habitual reductionism Evangelicals are encouraged to embrace an integral and full orbbed understanding of Christian discipleship that will equip the faithful to address the deep and complex challenges of the twenty first century *The Contemporary Evolution of Religious Thought in England, America and India* comte Eugène Goblet

d'Alviella, 1885 The Modern Crisis in Religion George Claude Lorimer, 1904 **America's Identity Crisis** Michael Gellert, 2022-05-01 This newly revised edition of *The Fate of America* examines the national character of the United States against the backdrop of its history popular culture and media Michael Gellert suggests that the deterioration of America's heroic ideal the heart of its national character is responsible for the country's deepening social ills and the erosion of its vital institutions He calls for a spiritual and intellectual renaissance and a renewed sense of national purpose in order to meet the challenges of the twenty first century With an updated Preface and a new Appendix on the Trump phenomenon's paradoxical effect Gellert profiles the development of the American heroic ideal and how this concept expresses the nation's aspiration toward greatness and its sense of identity **Canadian Evangelicalism in the Twentieth Century** John G. Stackhouse, Jr., 1998-10 In the 1980s evangelical Protestantism emerged as a prominent new force in Canada While political campaigns and sexual scandals among American evangelicals attracted attention north of the border as well Canadian evangelicals were quietly establishing a network of individuals and institutions that reflected their distinctive concerns While the United Anglican and Presbyterian churches continued to enjoy mainline Protestant status in Canadian culture more Canadians who actually practiced Christianity in measurable ways could be counted among the evangelicals than among these dominant Protestant denominations And while most Canadians including experts in religious studies continued to think of Canadian Christianity in traditional denominational terms evangelicalism was coming into focus as a category essential to understanding this new pattern of allegiance and activity Introduction **Social, Political, and Religious Movements in the Modern Americas** Pablo A. Baisotti, 2021-12-30 This volume explores several notable themes related to social political and religious movements in Latin America and offers insightful historical perspectives to understand national regional and global issues from the beginning of the twentieth century to the present day This volume's collected chapters focus on the Latin American society and are divided into three sections The first section Social presents some cultural demographic and urban changes that have occurred with increasing frequency in Latin America from the early twentieth century onward The second section Political shows migratory political and identity movements that in recent decades have re-emerged with force Finally the third section Religious analyzes various Latin American religious visions with their particular characteristics From the religious hegemony of Catholicism a change in the religious panorama in the last decades can be seen intermingled with politics history and society **Religion and Modern Society** Bryan S. Turner, 2011-03-31 Religion is now high on the public agenda with recent events focusing the world's attention on Islam in particular This book provides a unique historical and comparative analysis of the place of religion in the emergence of modern secular society Bryan S Turner considers the problems of multicultural multi faith societies and legal pluralism in terms of citizenship and the state with special emphasis on the problems of defining religion and the sacred in the secularisation debate He explores a range of issues central to current debates the secularisation thesis itself the communications revolution the rise of youth spirituality feminism piety and

religious revival Religion and Modern Society contributes to political and ethical controversies through discussions of cosmopolitanism religion and globalisation It concludes with a pessimistic analysis of the erosion of the social in modern society and the inability of new religions to provide social repair Religious Hatred and Human Conflict Andrew Floyer Acland,2023-09-12 Religious Hatred and Human Conflict focuses the lens of psychodynamic psychology on a phenomenon that often confounds conventional thinking the intensity of conflict with religious or quasi religious dimensions The book highlights six dimensions of religion identity doctrine and practice emotion and experience mythology sacred values and power and control exploring how these can give rise to religious hatred and lead to marginalisation persecution and even genocide It also explores reasons for the evolution of religion and religious hatred and their relationship with human behaviour through contemporary issues such as fundamentalism martyrdom clerical narcissism and apocalyptic belief Acland examines how religious hatred and conflict may be transcended by facilitating processes of dialogue and diapraxis which enable a systematic understanding of prejudices and projections Last it offers practical methods and strategies for helping individuals and communities grow beyond the constraints of religious hatred treating religious hatred as a psycho spiritual problem that requires self understanding Identifying the implications for professionals in conflict resolution and mediation politicians community leaders diplomats and anyone working to prevent or reduce conflict where religious belief is a factor this book sets out how those tasked with intervening can respond to the challenges involved It will also be highly relevant reading for students and researchers of psychology and religious studies **Religion and Politics in the Contemporary United States** R. Marie Griffith,Melani McAlister,2008-06-09 This collection of essays from a special issue of American Quarterly explores the complex and sometimes contradictory ways that religion matters in contemporary public life Religion and Politics in the Contemporary United States offers a groundbreaking cross disciplinary conversation between scholars in American studies and religious studies The contributors explore numerous modes through which religious faith has mobilized political action They utilize a variety of definitions of politics ranging from lobbying by religious leaders to the political impact of popular culture Their work includes the political activities of a very diverse group of religious believers Christians Jews Muslims Hindus Buddhists and others In addition the book explores the meanings of religion for people who might contest the term those who are spiritual but not religious for example as well as activists who engage symbols of faith and community but who may not necessarily consider themselves members of a specific religion Several essays also examine the meanings of secular identity humanist politics and the complex evocations of civil religion in American life No other book on religion and politics includes anything like the diversity of religions ethnicities and topics that this one does from Mormon political mobilization to attempts at Americanizing Muslims in the post 9 11 United States from C sar Ch vez to James Dobson from interreligious cooperation and conflict over Darfur to the global politics surrounding the category of Hindus and South Asians in the United States Religion and Innovation Donald A. Yerxa,2015-12-17 It is often assumed that religion is the

backward looking servant of tradition and the status quo utterly opposed to the new This refrain in so much of recent polemical writing has permeated the public mind and can even be found in academic publications But recent scholarship increasingly shows that this view is a gross simplification that in fact religious beliefs and practices have contributed to significant changes in human affairs political and legal social and artistic scientific and commercial This is certainly not to say that religion is always innovative But the relationship between religion and innovation is much more complex and instructive than is generally assumed Religion and Innovation includes contributions from leading historians archaeologists and social scientists who offer findings about the relationship between religion and innovation The essays collected in this volume range from discussions of the transformative power of religion in early societies to re examinations of our notions of naturalism secularization and progress to explorations of cutting edge contemporary issues Combining scholarly rigor with clear accessible writing Religion and Innovation Antagonists or Partners is essential reading for anyone interested in the history of religion and the ongoing debates about its role in the modern world and into the future

How to Think about the Climate Crisis Graham Parkes, 2020-11-26 Choice Outstanding Academic Title 2021 Coping with the climate crisis is the greatest challenge we face as a species We know the main task is to reduce our emissions as rapidly as possible to minimise the harm to the world's population now and for generations to come What on earth can philosophy offer us In this compelling account of a problem we think we know inside out the philosopher Graham Parkes outlines the climatic predicament we are in and how we got here and explains how we can think about it anew by considering the relevant history science economics politics and for the first time the philosophies underpinning them Introducing the reality of global warming and its increasingly dire consequences he identifies the immediate obstructions to coping with the problem outlines the libertarian ideology behind them and shows how they can be circumvented Drawing on the wisdom of the ancients in both the East Asian and Western traditions as embodied in such figures as Confucius Laozi Zhuangzi Dogen Plato Epicurus Marcus Aurelius and Nietzsche Parkes shows how a greater awareness of non Western philosophies and especially the Confucian political philosophy advocated by China can help us deal effectively with climate change and thrive in a greener future If some dominant Western philosophical ideas and their instantiation in politics and modern technology got us into our current crisis Parkes demonstrates persuasively that expanding our philosophical horizons will surely help get us out
