independent bipartisan Federal agency made up of six members with no more than three from one political party free of interference from Congress and presidents beholden to no government body with full subpoena power and free to decide what it would investigate and report on Berry writes that the commission rather than producing reports that would gather dust on the shelves began to hold hearings even as it was under attack from Southern segregationists She writes how the commission's hearings and reports helped the nonviolent protest movement prick the conscience of the nation then on the road to dismantling segregation beginning with the battles in Montgomery and Little Rock the sit ins and freedom rides the March on Washington We see how reluctant government witnesses and local citizens overcame their fear of reprisal and courageously came forward to testify before the commission how the commission was instrumental in passing the Civil Rights Act of 1964 and the Voting Rights Act of 1965 how Congress soon added to the commission's jurisdiction the overseeing of discriminating practices with regard to sex age and disability which helped in the enactment of the Age Discrimination Act of 1978 and the Americans With Disabilities Act of 1990 Berry writes about how the commission's monitoring of police community relations and affirmative action was fought by various U S presidents chief among them Ronald Reagan and George W Bush each of whom fired commissioners who disagreed with their policies among them Dr Berry replacing them with commissioners who supported their ideological objectives and how these commissioners began to downplay the need to remedy discrimination ignoring reports of unequal access to health care and employment opportunities Finally Dr Berry's book makes clear what is needed for the future a reconfigured commission fully independent with an expanded mandate to help oversee all human rights and to make good the promise of democracy equal protection under the law regardless of race color sexual orientation religion disability or national origin *Religion in the Constitution, a Delicate Balance* United States Commission on Civil Rights,1983

Kerry O'Halloran,2018-11-13 In this book Kerry O Halloran analyses a subject of international interest religion and examines related contemporary issues from a human rights perspective The book takes the view that while the impact of Islamic State violence has dramatically demonstrated the destructive power of religious extremism for contemporary western societies there are also good grounds for the latter to examine the extent to which their laws and policies nationally and internationally are contributing to religion's currently destabilizing social role It makes the case for a fuller understanding of the role of religion or belief and argues for a rebalancing of the functional relationship between Church and State both nationally and internationally Beginning with an overview of religion including an examination of key concepts and

constructs the chapters go on to outline the international framework of related human rights provisions and note the extent of their ratification It proceeds by identifying a set of themes such as the Constitutional positioning of religion law and policy in relation to secularism faith schools equality legislation and the religious exemption and the tension between free speech and religion and undertakes a comparative evaluation of how these and other themes indicate significant differences in six leading common law jurisdictions as illustrated by their associated legislation and case law It then considers why this should be and assesses any implications arising This book will be of great interest to students and scholars in the fields of law religious studies political science human rights and social policy      *U.S. Commission on Civil Rights* United States. General Accounting Office,1987 In response to a congressional request GAO 1 provided information on the Commission on Civil Rights publications and 2 compared the published output of the present Commission to that of the former Commission GAO found that 1 the Commission s yearly publications output declined from a yearly average of 51 to 13 2 of the 357 publications it reviewed the present Commission issued only 37 and 3 the present Commission issued only 1 statutory report to Congress compared to 27 issued by the former Commission GAO also found that 1 the publications the Commission issued from 1978 through 1986 were related to the Commission s general responsibilities 2 although some of the publications addressed allegations concerning voting rights or voting fraud the Commission did not initiate them in response to written allegations made under oath as required by statute and 3 the largest decline in publications was in state advisory committee reports GAO also noted a general decline in the Commission s staff and budget      *Civil Rights Commission Reauthorization* United States.
