

The background of the slide is a historical painting. The top portion shows a warm, hazy sky with a small, ornate tower or bell tower visible in the distance. The bottom portion depicts a large, crowded town square. In the center, there is a large, light-colored building with a red-tiled roof. A large crowd of people is gathered in the square, and several figures are visible in the foreground, some appearing to be in motion or engaged in an activity. The overall color palette is dominated by warm, earthy tones like ochre, brown, and red.

Religious Freedom in Spain John David Hughey, 1955 *US Public Diplomacy and Democratization in Spain*

Francisco Rodriguez-Jimenez, Lorenzo Delgado, Nicholas J. Cull, 2016-04-29 When the post war relationship between Spain and America began Hitler's old ally was an unlikely candidate for US influence The Cold War changed all this Soon there were US bases on Spanish territory and a political conjuring trick was under way This volume examines the public diplomacy strategies that the US government employed to accomplish an almost impossible mission to keep a warm relationship with a tyrant without drifting apart from his opponents and to somehow pave the way for a transition to democracy The book's focus on the perspective of soft power breaks new ground in understanding US Spanish relations In so doing it offers valuable lessons for understanding how public diplomacy has functioned in the past and can function today and tomorrow in transitions to democracy *Religious Freedom in Spain Its Ebb and Flow - Primary Source Edition* John David Hughey, 2014-01-05 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book

Manuel de Falla and Modernism in Spain, 1898-1936 Carol A. Hess, 2001 Although studies of Modernism have focused largely on European nations Spain has been conspicuously neglected As Carol A Hess argues in this compelling book such neglect is wholly undeserved Through composer Manuel de Falla 1876 1946 Hess explores the advent of Modernism in Spain in relation to political and cultural tensions prior to the Spanish Civil War The result is a fresh view of the musical life of Spain that departs from traditional approaches to the subject and reveals an open and constantly evolving aesthetic climate

Protestant Missionaries in Spain, 1869-1936 Kent Eaton, 2015-06-03 Protestant Missionaries in Spain 1869 1936 Shall the Papists Prevail examines the history of the Protestant denominations especially the Plymouth Brethren throughout Europe that attempted to bring their churches to Spain just prior to Spain's First Republic 1873 1874 when religious liberty briefly existed Protestant groups labored feverishly establishing churches and schools designed to gain converts and thereby prove the supremacy of their theology in Spain as the foremost Roman Catholic country Religious liberty was reintroduced in the 1930s during the Second Republic but failed when General Francisco Franco won the Spanish Civil War and unified the culturally and linguistically diverse nation through the doctrine of religious uniformity Equally important is the question of why the Roman Catholic Church felt compelled to expel them from Spain After the First Vatican Council 1869 1870 Spain became the battlefield between Protestants and Catholics each vying to demonstrate their preeminence Using primary

sources from Spain and the UK this book recreates the story of these missionaries struggles and examines their motivations for making significant sacrifices Catholic Intellectuals and the Challenge of Democracy Jay P. Corrin, 2010-12-20 Tracing the development of progressive Catholic approaches to political and economic modernization Catholic Intellectuals and the Challenge of Democracy disputes standard interpretations of the Catholic response to democracy and modernity in the English speaking world particularly the conventional view that the Church was the servant of right wing reactionaries and authoritarian patriarchal structures Starting with the writings of Bishop Wilhelm von Ketteler of Germany the Frenchman Fr d rick Ozanam and England s Cardinal Henry Edward Manning whose pioneering work laid the foundation of the Catholic third way Corrin reveals a long tradition within Roman Catholicism that championed social activism These visionary writers were the forerunners of Pope John XXIII s aggiornamento a call for Catholics to broaden their historical perspectives and move beyond a static theology fixed to the past By examining this often overlooked tradition Corrin attempts to confront the perception that Catholicism in the modern age has invariably been an institution of reaction that is highly suspicious of liberalism and progressive social reform Catholic Intellectuals and the Challenge of Democracy charts the efforts of key Catholic intellectuals primarily in Britain and the United States who embraced the modern world and endeavored to use the legacies of their faith to form an alternative pluralistic path that avoided both socialist collectivism and capitalism In this sweeping volume Corrin discusses the influences of Cecil and G K Chesterton H A Reinhold Hilaire Belloc and many others on the development of Catholic social economic and political thought with a special focus on Belloc and Reinhold as representatives of reactionary and progressive positions respectively He also provides an in depth analysis of Catholic Distributists responses to the labor unrest in Britain prior to World War I and later in the 1930s to the tragedy of the Spanish Civil War and the forces of fascism and communism **Nineteenth-Century European Catholicism** Eric C.

Hansen, 2017-09-07 Included in this bibliography originally published in 1989 are books pamphlets dissertations and articles from periodicals and collections published for the most part since 1900 which present Catholic development in the nineteenth century as its major theme Each entry is annotated with the major idea or theme of the work as expressed by its author or editor This title will be of interest to students of European History and Religious Studies *Franco Sells Spain to America* N. Scientific Intellectual Lewis S. Feuer,2021-12-16 The birth of modern science was linked to the rise in Western Europe of a new sensibility that of the scientific intellectual Such a person was no more technician looking at science as just a job to be done but one for whom the scientific stand point is a philosophy in the fullest sense In *The Scientific Intellectual* Lewis S. Feuer traces the evolution of this new human type seeking to define what ethic inspired him and the underlying emotions that created him Under the influence of Max Weber the rise of the scientific spirit has been viewed by sociologists as an offspring of the Protestant revolution with its asceticism and sense of guilt acting as causative agents in the rise of capitalism and the growth of the scientific movement Feuer takes strong issue with this view pointing out how it is at odds with what we know of the psychological conditions of modern societies making for human curiosity and its expression in the observation of and experiment with nature Feuer shows that wherever a scientific movement has begun it has been based on emotions that issue in what might be called a hedonist libertarian ethic The scientific intellectual was a person for whom science was a new philosophy a third force rising above religious and political hatreds seeking in the world of nature liberated vision a intending

to use and enjoy its knowledge In his new introduction to this brilliantly readable volume Professor Feuer reviews the book's critical reception and expands the scope of the original edition to include fascinating discussions of Francis Bacon Thomas Edison Charles Darwin Thomas Hardy and others The Scientific Intellectual will be of interest to scientists and intellectual historians

Sacred Realism Noël Valis, 2010-01-01 In this thoughtful and compelling book leading Spanish literature scholar Noël Valis re-examines the role of Catholicism in the modern Spanish novel While other studies of fiction and faith have focused largely on religious themes Sacred Realism views the religious impulse as a crisis of modernity a fundamental catalyst in the creative and moral development of Spanish narrative
