Religious Fundamentalism And American Education The Battle For The Public:

Religious Fundamentalism and American Education Eugene F. Provenzo, 1990-04-05 For the past twenty five years ultra fundamentalist Christians have put increasing pressure on American public education to conform exclusively with their own philosophy and vision of education and culture Eugene Provenzo considers and addresses the impact that the fundamentalist movement has had on such issues as censorship textbook content Creationism versus Evolution the family and education school prayer and the state regulation of Christian schools In exploring both sides of the debate however the author concludes that many fundamentalists concerns are justified due to a basic inconsistency between the rights guaranteed under the First Amendment and the position that many public schools have legally assumed Religion and Schooling in Contemporary America Thomas C. Hunt, James C. Carper, 2013-10-18 With articles dealing with denomination law public policy and financing this anthology grants an evenhanded view of the impact of religion on our nation's public schools *The Curriculum* Landon E. Beyer, Michael W. Apple, 1998-01-01 This new edition of the classic text extends the scope of critically oriented work in curriculum studies **Christian America?** Christian Smith, 2000 This extensive study of American evangelicals explores the beliefs values commitments and goals of the ordinary men and women who make up this often misunderstood religious group **Textbooks in American Society** Philip G. Altbach, Gail P. Kelly, Hugh G. Petrie, Lois Weis, 1991-09-27 In recent years textbooks have been widely criticized for low standards lack of imaginativeness and insensitivity to racial and gender issues Increasingly they are cited as another weak link in American public education This book goes beyond the headlines to examine how textbooks are produced how they are selected and what pressures are placed on textbook authors and publishers The book focuses on the relationship of the textbook to the educational system and includes important issues such as the politics of textbook policy the determinants of textbook content the role of textbooks in educational reform and the process of selection at the state level The authors offer current research on textbook policy including perspectives from those directly involved with textbooks from several thoughtful analyses by textbook editors and publishers to the views of California's Superintendent of Public Instruction **Evolution, Creationism, and Intelligent Design** Allene S. Phy-Olsen, 2010-07-01 This work of historical exploration examines America's conflicts as it has attempted to maintain its founding principles of freedom of thought and separation of church and state while nevertheless remaining the most traditionally religious of modern nations Evolution Creationism and Intelligent Design offers a comprehensive unbiased history of this controversial issue as well as a balanced presentation of the arguments central to a debate that remains one of the most divisive in American society Centered around the importance of the issue to education in both the sciences and humanities the book's chief concern is the relevance of the debate to America's public schools Beginning with an overview of the topic and its history the book goes on to investigate Darwinism and the neo Darwinian revolution as well as the applications of Darwinian theories in the social Darwinism and eugenics movements It looks at

theistic approaches to evolution at arguments for and critiques of intelligent design at religion science and the American courts and at religion and science in the postmodern world The two concluding sections of special relevance to students are annotated listings of important personalities in the science religion debate and an annotated bibliography

Mixed Race Students in College Kristen A. Renn, 2012-02-01 It s kind of an odd thing really because it s not like I m one or the other or like I fit here or there but I kind of also fit everywhere And nowhere All at once You know Florence My racial identity I would have to say is multiracial I am of the future I believe there is going to come a day when a very very large majority of everybody in the world is going to be mixed with more than one race It s going to be multiracial for everybody Everybody and their mother Jack Kristen A Renn offers a new perspective on racial identity in the United States that of mixed race college students making sense of the paradox of deconstructing racial categories while living on campuses sharply divided by race and ethnicity Focusing on how peer culture shapes identity in public and private spaces the book presents the findings of a qualitative research study involving fifty six undergraduates from a variety of institutions Renn uses an innovative ecology model to examine campus peer cultures and documents five patterns of multiracial identity that illustrate possibilities for integrating notions of identity construction and deconstruction with the highly salient nature of race in higher education One of the most ambitious scholarly attempts to date to portray the diverse experiences and identities of mixed race college students the book also discusses implications for higher education practice policy theory and research

The Civic Gospel William M. Reynolds,Julie A. Webber,2009-01-01 This book is a result of the times in which we are living These times demand a response When the authors began to write this book it was not popular to dissent against the Bush administration In fact dissent was and still is equated with terrorism Now it might seem that the tide is turning and maybe after the 2008 election some of this nightmare we have been experiencing will change At least that is the optimistic view But there are small traces that the struggle the authors discuss in this book will continue well into the 21st century The intermingling of the political and the religious is still swirling in the present context The Civic Gospel as the authors discuss it is the notion that preaching the Gospel is preaching politics and vice versa This book is about that struggle and the issues related to it
