## **Religious Guide To Europe:**

A Religious Guide to Europe Daniel M. Madden, 1975-01-01      *The Oxford Handbook of Religion and Europe* Grace Davie, Lucian Leuștean, 2022 Features contributions from leading scholars providing crucial insight into the role of religious ideas structures and institutions in the making of Europe Introduces the building blocks of Europe s religious and the part that they played in the formation of the continent Explores the relationship between religious communities and ideologies in the twentieth century connections that play out very differently in East and West Europe Examines the role of religion in the construction of the European Union from the end of the Second World War until the present day Assesses the relationship between the major world religions and the idea of Europe Book jacket      **Religion in Modern Europe** Grace Davie, 2000-08-03 Religion in Modern Europe examines religion as a form of collective memory This is a memory held in place by Europe s institutional churches educational systems and the mass media all of which are themselves responding to rapid social and economic change Europe s religious memory is approached in the following ways as vicarious a particularly European characteristic as precarious especially among young people and as it is portrayed by the media The memory may fragment be disputed and in extreme cases disappear Alternatives may emerge The challenge for European societies is to affirm healthy mutations in religious memory and discourage others The book also examines the increasing diversity of Europe s religious life European Societies Series Series Editor Colin Crouch Very few of the existing sociological texts which compare different European societies on specific topics are accessible to a broad range of scholars and students The European Societies series will help fill this gap in the literature and attempt to answer questions such as Is there really such a thing as a European model of society Do the economic and political integration processes of the European Union also imply convergence in more general aspects of social life like family or religious behaviour What do the societies of Western Europe have in common with those further to the east This series will cover the main social institutions although not every author will cover the full range of European countries As well as surveying existing knowledge in a way that will be useful to students each book will also seek to contribute to our growing knowledge of what remains in many respects a sociologically unknown continent      **Integrative Religious Education in Europe** Wanda Alberts, 2012-02-14 This book is a contribution to the development of the young discipline of the didactics of the Study of Religions Religionswissenschaft in international perspective Integrative religious education refers to education about different religions in classrooms with children of various religious and non religious backgrounds Cornerstones of recent debates about theory and methodology in the academic study of religions and in education are discussed in the first chapter They form the basis of the following analysis and evaluation of current approaches to integrative religious education in Europe with a special focus on England and Sweden Particular attention is paid to the different underlying concepts of religion education and ways of representing religious plurality in these approaches Building on a discussion of the current situation of teaching and learning about

religions in schools in Europe in the context of wider cultural social and political debates the book concludes with the suggestion of a framework for integrative religious education in Europe from a perspective that combines insights from the study of religions and education

*The European Wars of Religion* Wolfgang Palaver, Harriet Rudolph, Dietmar Regensburger, 2016-12-05 In recent years religion has resurfaced amongst academics in many ways replacing class as the key to understanding Europe's historical development This has resulted in an explosion of studies revisiting issues of religious change confessional violence and holy war during the early modern period But the interpretation of the European wars of religion still remains largely defined by national boundaries tied to specific processes of state building as well as nation building In order to more thoroughly interrogate these concepts and assumptions this volume focusses on terms repeatedly used and misused in public debates such as religious violence and holy warfare within the context of military conflicts commonly labelled religious wars The chapters not only focus on the role of religion but also on the emerging state as a driver of the escalation of violence in the so called age of religious war By using different methodological and theoretical approaches historians philosophers and theologians engage in an interdisciplinary debate that contributes to a better understanding of the religious political situation of early modern Europe and the interpretation of violent conflicts interpreted as religious conflicts today By adopting a multi disciplinary approach new and innovative perspectives are opened up that question if in fact religion was a primary driving force behind these conflicts

*A Guide to Religious Thought and Practices* Santanu K. Patro, 2015-07-01 A Guide to Religious Thought and Practices devotes a chapter to each of the world religions all but one of which are written by a member of that faith community Readers thus gain insiders views into the theology spirituality and religious practice of each faith The introduction encourages respect and engagement with those of other faiths The book emphasizes the cultural nature of religion and its importance to society and it notes the rise of interest in the study of religious traditions in the face of contemporary geopolitics

Religions, Beliefs and Education in the European Court of Human Rights Nigel Fancourt, 2024-02-20 This book represents an exposition of judicial pedagogies as a new concept and discusses juridical educational issues in detail through an analysis of the educational claims and assumptions of judges decisions in the European Court of Human Rights ECtHR It sheds light on how within courtrooms around the world judges are increasingly being asked to decide upon issues of religion and belief in schooling whether about admissions policies curriculum planning or pupils and teachers dress and jewellery With key human rights principles at stake these proceedings are often fraught clashing with strong opinions about education and schooling Focusing on decisions made in the European Court of Human Rights ECtHR the author considers how the supranational court looks at these issues and considers the ECtHR's role within the European Education space Drawing upon research and scholarship surrounding these questions the book surveys a series of educational issues including curriculum and assessment and takes a comparative approach in the discussion of case studies to demonstrate the variety and depth of judges thinking Thus rather than

considering the national or supranational legal principles and questions as jurisprudential issues typically about religion or human rights it reviews them from an educational perspective as folk theories of teaching and learning Finally it considers the implications of a theory of judicial pedagogy for the courts educational competence in deciding on these matters for education and educational policy research the European education space legal scholarship and for legal and judicial education Developing a novel and innovative approach to the pedagogies at play in a courtroom and providing fresh insights into the courts as agents of social change it will appeal to scholars and researchers working across the disciplines of education law and religious studies      Religious Diversity in Europe Riho Altnurme,Elena Arigita,Patrick Pasture,2022-03-10

*Freedom of Expression and Religious Hate Speech in Europe* Erica Howard,2017-07-28 In recent years the Danish cartoons affair the Charlie Hebdo murders and the terrorist attacks in Brussels and Paris have resulted in increasingly strident anti Islamic speeches by politicians This raises questions about the limits to freedom of expression and whether this freedom can and should be restricted to protect the religious feelings of believers This book uses the case law of the European Court of Human Rights to provide a comprehensive analysis of the questions whether legal prohibitions of religious hate speech violate the right to freedom of expression and whether such laws should be used to prosecute politicians and others who contribute to current debates when they use anti Islam rhetoric A well known politician who uses such rhetoric is Dutch politician Geert Wilders He has been prosecuted twice for hate speech and was acquitted in the first case and recently

convicted in the second These prosecutions are used to illustrate the issues involved in drawing the line between freedom of expression and religious hate speech The author argues that freedom of expression of politicians and those contributing to the public debate should not be restricted except in two very limited circumstances when they incite to hatred or violence and there is an imminent danger that violence will follow or where it stops people from holding or manifesting their religion Based on this the author concludes that the European Court of Human Rights should decide if it is asked to do so that Wilders conviction for hate speech violates his freedom of expression

**Religion and Politics in Europe and Latin America** Andrés Pérez-Baltodano,2025-09-22 This book presents a comparative interpretation of the socio emotional histories of Europe and Latin America offering a novel perspective on the roles of religion and politics in managing collective fear and insecurity in these two regions Emphasizing the historical fears and insecurities faced by underprivileged sectors of Latin American society the book draws on cognitive and social sciences to compile political socioeconomic and cultural landmarks identifying continuities and ruptures in European and Latin American histories The volume highlights Europe s success and Latin America s relative failure in crafting political visions capable of taming fear and insecurity It shows how this largely correlates with how meticulous providentialism the belief that God governs history has been supplanted by general providentialism the belief that God does not intervene in history in the religious cultures of the two regions This shift corresponds to the degree of control individuals feel they have over their history and destiny which typically aligns with their actual social affordances At the heart of these discussions is the notion that the authenticity of the theoretical foundations of political visions is conditioned by society s view of the divine which ultimately determines the capacity of these visions potential to impact history Religion and Politics in Europe and Latin America is a useful resource for students and academics interested in Latin American and European history politics and culture

**Confronting Secularism in Europe and India** Brian Black, Gavin Hyman, Graham M. Smith, 2014-06-19 Can secularism continue to provide a foundation for political legitimacy It is often claimed that one of the cultural achievements of the West has been its establishment of secular democracy wherein religious belief is respected but confined to the sphere of private belief In more recent times however political secularism has been increasingly called into question Religious believers in numerous traditions have protested against the distortion and confinement that secularism imposes on their faith Others have become uneasily aware of the way in which secularism no longer commands universal assent in the way it once did Confronting Secularism in Europe and India adds to this debate by

staging a creative encounter between European and Indian conceptions of secularism with a view to continuing new and distinctive trajectories of thought about the place and role of secularism in contemporary times Looking at political secularism the relationship between secularism and religion and religious and secular violence this book considers whether there are viable alternatives to secularism in Europe and in India
