Religious Life in a Secular Society Judith A. Merkle, 2025-08-21 This book investigates religious vows shedding light on the type of faith that can sustain humanity in secular times It examines the personal impact of religious life as well as its potential to foster a sense of completeness within society at large Unbelief in today's society can be partially rooted in the shallowness of the sort of religion that the secular can abandon Such a religion characterized as magical shallow illusory or rooted solely in external rituals lacks the depth required to thrive in a secular society It fails to address the profound aspects of human existence the authentic freedom of the spirit and the enduring obedience of faith This study of religious vows uncovers their deeper meanings in light of these challenges It invites us to consider whether religious life despite contemporary criticisms can be seen as touching wholeness This book does not only delve into the theological foundations of these vows but also key areas which impact their understanding and living in new contexts It surveys sociological landscapes and goes beyond to encompass shifts in science psychology theology Religious life in this sense is part of the renewal of the church as well as an agent in it By focusing briefly on each vow Judith A Merkle illustrates how religious life serves as a bridge connecting the secular and the sacred It is a life focused on love of God and service of others which is a witness to the coming of Kingdom of God and values which truly matter in contemporary society **America's Communal Utopias**

Graced Crossroads Ted Dunn, 2020-09 Catholic religious communities like many faith based organizations are at a crossroads They are experiencing a seismic transition not only in their demographics but also in their identity integrity and relevancy indeed their very soul Dr Ted Dunn explores these Graced Crossroads addressing four central questions 1 What are the graced crossroads religious communities are now facing and the deeper invitations calling them to the inner work of transformation 2 What are the challenges and opportunities in our world and within Religious Life that have brought communities to these graced crossroads 3 How might communities assess their capacity to engage in communal transformation what will it ask of them and what can they expect to come from it 4 What does a Journey of Transformation truly involve and how can communities proactively engage in this Divine Mystery Dr Ted Dunn offers a comprehensive and innovative approach that integrates the pragmatic work of planning and visioning with the inner work of transformation an approach he calls a Journey of Transformation The foundation of this approach comes from his in depth examination of the nature of transformation and his 30 years of experience guiding communities through these crossroads Looking through the lenses of different disciplines he arrives at the guiding principles and dynamic elements of transformation These are integrated into the Journey of Transformation and illustrated throughout the book

Religious Life Loan Le, 2016-06-22 Following the Second Vatican Council when each Religious Institute was encouraged to research its charism some Institutes experienced a tension between their charism and their mission or even difficulty identifying what their charism was This book is a study of the theological understanding of charism and of mission in relation to Religious Life within the Catholic Church While this topic has featured in much Roman Catholic theological literature since Vatican II there appears to be a dearth of in depth studies This book addresses this apparent lacuna It draws particularly on the work of two major theologians Jean Marie Roger Tillard OP and Sandra Marie Schneiders IHM who have reflected at length on charism and mission in the period leading up to Vatican II and on the implementation of its documents with respect to Religious Life The very significant contributions of Tillard and Schneiders on the topic provide Religious as well as others who want to know and understand Religious Life with an interesting and motivating insight into charism and mission in Religious Life Within the Roman Catholic Church a Year of Consecrated Life has just drawn to a close and this book forms a background and a response to Pope Francis Apostolic Letter to all Consecrated People on the occasion of the Year of Consecrated Life November 2014 which invited Religious to reflect on these aspects that are essential to the life they have chosen to live

Diarmuid,2016-08-18 This seminal work surveys the historical rise and fall of religious orders and congregations and reveals an unfolding pattern that gives hope for the present and future **Catholics in England 1950-2000** Michael Hornsby-Smith,1999-12-01 The year 2000 marks the 150th anniversary of the restoration of the Roman Catholic hierarchy of England and Wales following the post Reformation penal times The centenary in 1950 was celebrated with much reflection but what has happened in the momentous half century since which has witnessed the transformation of the Second Vatican Council The book includes Historical perspectives of the period Testimonies by key participants in post war institutional Catholicism including the Papal Commission on Birth Control World Congresses of the Laity in Rome and a variety of experiences in Catholic organizations and public life Empirical studies of English Catholicism from sociological perspectives Concluding reflections and prospects for the new millennium **Evangelicalism** Richard Kyle,2017-09-20 Most forms of religion are best understood in the context of their relationship with the surrounding culture This may be particularly true in the United States Certainly immigrant Catholicism became Americanized mainstream Protestantism accommodated itself to the modern world and Reform Judaism is at home in American society In *Evangelicalism* Richard Kyle explores paradoxical adjustments and transformations in the relationship between conservative Protestant Evangelicalism and contemporary American culture Evangelicals have resisted many aspects of the modern world but Kyle focuses on what he considers their romance with popular culture Kyle sees this as an Americanized Christianity rather than a Christian America but the two are so intertwined that it is difficult to discern the difference between them Instead in what has become a vicious self serving cycle Evangelicals have baptized and sanctified secular culture in order to be considered culturally relevant thus increasing their numbers and success within abundantly populous and populist driven American society In doing so Evangelicalism has become a middle class movement one that dominates America's culture and unabashedly populist Many Evangelicals view America as God's chosen nation thus sanctifying American culture consumerism and middle class values Kyle believes Evangelicals have served themselves well in consciously and deliberately adjusting their faith to popular culture Yet he also thinks Evangelicals may have compromised themselves and their future in the process so heavily borrowing from the popular culture that in many respects the Evangelical subculture has become secularism with a light gilding of Christianity If so he asks can Evangelicalism survive its own popularity and reaffirm its religious origins or will it assimilate and be absorbed into what was once known as the Great American Melting Pot of religions and cultures Will the Gospel of the American dream ultimately engulf and destroy the Gospel of Evangelical success in America This thoughtful and thought provoking volume will interest anyone concerned with the modern day success of the Evangelical movement in America and the aspirations and fate of its faithful The Jubilee History of the Lees and Crossroads Co-operative Industrial Society Limited, 1861-1911 Lees and Crossroads Co-Operative Industrial Society,1911 *Augustine to Freud* Kenneth Boa,2004 Six theologians and eight psychologists from history square off finding both differences and common ground in their thinking on the most basic human
