**Religious Process** Kunal Chakrabarti, 2001 This volume traces the evolution of a process of interaction between brahmanism and the indigenous social groups of Bengal during the early medieval period *Religious Process* Kunal Chakrabarti, 2018-03-20 This book traces the evolution of a process of interaction between Brahmanism and the indigenous social groups of Bengal during the early medieval period Following the logic of cultural negotiation implicit in the Puranas composed in Bengal the book unravels a pattern that governed this relationship of reciprocity contestation and domination Two significant methodological issues have been addressed the manner in which didactic Sanskrit texts can be read for the reconstruction of early Indian history and the application of anthropological models such as great and little traditions to such texts for a more comprehensive understanding of the Indian culture continuum The book focuses on Bengal but cultural negotiations refers to a fundamental civilizational process common to most regions in India and as such has wider relevance *Notions of Nationhood in Bengal* Swarupa Gupta, 2009 This book reopens the debate on colonial nationalisms going beyond derivative borrowed political and modernist paradigms It introduces the conceptual category of samaj to demonstrate how indigenous socio cultural origins in Bengal interacted with late colonial discourses to produce the notion of a nation Samaj a historical society and an idea in practice was a site for reconfiguring antecedents and negotiating fragmentation Drawing on indigenous sources this study shows how caste class ethnicity region and community were refracted to conceptualise wider unities The mapping of cultural continuities through change facilitates a more nuanced investigation of the ontology of nationhood seeing it as related to but more than political nationalism It outlines a fresh paradigm for recalibrating postcolonial identities offering interpretive strategies to mediate fragmentation *The Routledge Handbook of the State in Premodern India* Hermann Kulke, Bhairabi Prasad Sahu, 2022-01-13 This handbook presents a multilayered and multidimensional history of state formation in premodern India It explores dense and rich local and subregional historiography from the mid first millennium BC to the eighteenth century in South Asia Shifting the focus away from economic and political factors this handbook revises the conventional understanding of states and empires and locates them in their quotidian conduct and activity on socio cultural and concomitant factors Comprehensive in scope this handbook addresses a range of themes connected with the idea of state formation in the subcontinent It includes discussions and debates on ritual practices and the Brahmanical order in early India the Delhi Sultanate and role of Sultans among the Hindu kings the cosmopolitan Islamic cultural influences on Puranic Hinduism cultural background of the Mughal state The handbook examines new questions and ideologies of state formation such as facets of violence and resistance the significance of the autonomous spaces and forests regional elites including Little kings tribal background of some famous cults trade and maritime commerce royal patronage courtly manners lineage formation imperial architecture monuments and temple among others Featuring case studies from different part of the India subcontinent and with contributions by renowned historians

this authoritative handbook will be an indispensable reading for teachers scholars and students of early India medieval India premodern India South Asian history Asian history historiography economic history historical sociology and South Asia studies     Western Himalayan Temple Records Mahesh Sharma,2009 While numerous studies exist on major South Asian temples surprisingly little is known about minor shrines and lesser states Here fifty five new documents in a western Himalayan script and language and belonging to a small Siddha shrine redress this remarkable gap in our knowledge The documents cover a wide spectrum from revenue grants to those dealing with ritual pilgrimage legality and temple economy thus building a picture of the relationship between state and shrine and particularly so for the minor centres their popularity and relationship with major temples mundane matters notices petitions and law suits It becomes clear how lesser states despite their limited resources patronized numerous small shrines along with major temples and the role played by the Nath Siddha ascetics in creating consent to rule acculturation and constructing hybridity between the Hindu and Tibetan Buddhist traditions     **The Encyclopedia of Christianity** Erwin Fahlbusch,Geoffrey William Bromiley,1999 Containing more than 300 articles covering the alphabetical entries P Sh this book also includes articles on significant topics ranging from Paul political theology and the Qur an to religious liberty salvation history and scholasticism     *Decolonizing Theory* Aditya Nigam,2021-12-30 *Decolonizing Theory* Thinking across Traditions aims at disentangling theory from its exclusively Western provenance drawing insights and concepts from other thought traditions connecting to what it argues is a new global moment in the reconstitution of theory The key argument which is the point of departure of the book is that any serious theorizing in the non West should be fundamentally suspicious of any theory that only gives you one result that four fifths of the world does not and cannot do anything right Everything in the non West from its modernity and secularism to its democracy and even capitalism is always seen to be deficient In other words all it tells us is that we do not live up to the standards set by Western modernity From this point of departure it seeks to create a conceptual space outside Western modernity and capitalism by insisting on a rethink of non synchronous synchronicities The book takes three key themes around which the whole story of modernity can be unraveled namely the question of the political capital and historical time and secularism for a detailed discussion It does so by bracketing in a sense the autobiographical story that Western modernity gives itself In each case it tries to show that past forms never simply disappear without residue to be fully supplanted by the modern and merely applying theory produced in one context to another is therefore very misleading

Intimately connected, both communication and caste are determined by historical developments. The book looks at communication as a lens to study caste and power relations with its immense potential to shape perception and affect ground reality. It also studies the evolution of the conceptual and theoretical foundations of caste and power relations and maps their emergence from communicative resources and practices. These communication practices are inevitably linked to the social structure with their reliance on symbolic forms of self-expression, often revealing the underlying ideological attitudes. The book studies this interface of culture and media, evaluating the caste question and the associated power relations in terms of modes of communication practised in the society.

**Medical Marginality in South Asia** David Hardiman, Projit Bihari Mukharji, 2013-05-07. Examining the world of popular healing in South Asia, this book looks at the way that it is marginalised by the state and medical establishment while at the same time being very important in the everyday lives of the poor. It describes and analyses a world of subaltern therapeutics that both interacts with and resists state-sanctioned and elite forms of medical practice. The relationship is seen as both a historical as well as an ongoing one. Focusing on those who exist and practice in the shadow of statist medicine, the book discusses the many ways in which they try to heal a range of maladies and how they experience their marginality. The contributors also provide a history of such therapeutics in the process, challenging the widespread belief that such traditional therapeutics are relatively static and unchanging. In focusing on these problems of transition, they open up one of the central concerns of subaltern historiography. This is an important contribution to the history of medicine and society and subaltern and South Asian studies.
