**A Social History of Amateur Music-Making and Scottish National Identity: Scotland's Printed Music, 1880-1951** Karen E. McAulay, 2024-10-30 Late Victorian Scotland had a flourishing music publishing trade evidenced by the survival of a plethora of vocal scores and dance tune books and whether informing us what people actually sang and played at home danced to or enjoyed in choirs or reminding us of the impact of emigration from Britain for both emigrants and their families left behind examining this neglected repertoire provides an insight into Scottish musical culture and is a valuable addition to the broader social history of Scotland The decline of the music trade by the mid twentieth century is attributable to various factors some external but others due to the conservative and perhaps somewhat parochial nature of the publishers output What survives bears witness to the importance of domestic and amateur music making in ordinary lives between 1880 and 1950 Much of the music is now little more than a historical artefact Nonetheless Karen E McAulay shows that the nature of the music the song and fiddle tune books contents the paratext around the collections its packaging marketing and dissemination all document the social history of an era whose everyday music has often been dismissed as not significant or indeed properly old enough to merit consideration The book will be valuable for academics as well as folk musicians and those interested in the social and musical history of Scotland and the British Isles *Scripta Minora Regiae Societatis Humaniorum Litterarum Lundensis*, 1991 The Irish Journal of Education, 1982 **Cognitive Dysfunctions in Chronic Cannabis Users Observed During Treatment** Thomas Lundqvist, 1995 Defence Patterns and Non-communicative Body Movements Andrejs R.
