Reluctant Empire. British Policy on the South African Frontier John S. Galbraith (of Los Angeles, California.),1963

Reluctant Empire ,1978 Colonial South Africa:Origins Racial Order Tim Keegan,1997-01-01 It is a story that is strong in notable events slave emancipation the arrival of the 1820 British settlers a series of frontier wars the Great Trek of Boer emigrants as well as in striking personalities among them Dr John Philip Andries Stockenström John Fairbairn Moshoeshoe and Sir Harry Smith In Keegan s pages these familiar historical landmarks and characters emerge in entirely novel ways the subject of fresh interpretations and original insights **The Farmerfield Mission** Fiona Vernal,2012-09-27 In The Famerfield Mission Fiona Vernal recounts the history of an African Christian community on South Africa s troubled Eastern Cape frontier Forged in the secular world of war violence and colonial dispossession and subjected to grand evangelical aspirations and social engineering Farmerfield s heterogeneous mix of former slaves and displaced Africans from polities beyond the borders of the Cape Colony entered the powerful ideological arena of anti slavery humanitarianism and evangelicalism As a farm an African residential site amid a white community and a Christian mission on a violent frontier Farmerfield was at once a space a place and an idea that Africans missionaries whites and colonial authorities competed to mold according to their own visions Founded in 1838 and destroyed by the apartheid government in 1962 Farmerfield s residents struggled over the meaning and content of a civilized Christianized lifestyle deploying a range of tactics from negotiation and dissimulation to deference and defiance In the process they vernacularized Christianity endured the ravages of colonialism and apartheid used their historical connections to the Methodist Church and South Africa s land reform legislation to regain land and launched the Farmerfield experiment anew amid new debates about the meaning of post apartheid land access and citizenship Farmerfield s propitious rise protracted frustrating decline and fledgling reincarnation reflect epochal chapters in South Africa s colonial apartheid and post apartheid history as Africans attempted to define the terms of their cultural autonomy and economic independence **South Africa, Past, Present and Future** Tony Binns,Alan Lester,Etienne Nel,2014-09-25 This is the first book to combine a discussion of post apartheid development initiatives with an extended historical analysis of South Africa s dynamic race class gender and ethnic identities Bringing together the research of an historical geographer and two development geographers the book enables us to locate the post apartheid transition in a broad historical and spatial perspective Within this perspective the limitations as well as the achievements of South Africa s current transformation are highlighted The Zulu-Boer War 1837-1840 Michał Leśniewski,2021-04-19 This book offers an in depth examination of the conflict of 1838 to 1840 between the Zulus and the Boers Le niewiczski reflects on the established historiography and reappraises some key conceptions of the war The conflict has often been seen as a colonial war with the Zulus cast into the role of either villains or victims Drawing on written primary sources and Zulu oral tradition the author instead argues that the war was a struggle between an established regional power aiming to defend and consolidate its

position and an incoming power seeking land settlement and local supremacy *The Grey Undercurrent* Felix Schürmann, 2023-04-03 By extending their voyages to all oceans from the 1760s onward whaling vessels from North America and Europe spanned a novel net of hunting grounds maritime routes supply posts and transport chains across the globe For obtaining provisions cutting firewood recruiting additional men and transshipping whale products these highly mobile hunters regularly frequented coastal places and islands along their routes which were largely determined by the migratory movements of their prey American style pelagic whaling thus constituted a significant though often overlooked factor in connecting people and places between distant world regions during the long nineteenth century Focusing on Africa this book investigates side effects resulting from stopovers by whalers for littoral societies on the economic social political and cultural level For this purpose it draws on eight local case studies four from Africa's west coast and four from its east coast In the overall picture the book shows a broad range of effects and side effects of different forms and strengths which it figures as a grey undercurrent of global history Growth of Government Geoffrey K Fry, 2019-08-22 First Published in 1978 This is an historical study of the growth of government in Britain It was begun in 1970 and that is the point down to which the study is really taken The most recent developments in government necessarily receive only limited attention and the author hopes to publish separately a fuller study of administrative change in Britain since the 1950s *Buying the Land, Selling the Land* Richard Boast, 2008 Studying Crown Maori land policy and practice in the period 1869-1929 from the establishment of the Native Land Court power until the cessation of large scale Crown purchasing by Gordon Coates this investigation chronicles the bleak and grim tidal wave of Crown purchasing that dominated the Maori people under very difficult circumstances While recognizing that the government purchasing of Maori land was in its own way driven by genuine if blinkered idealism this work's deep research on land purchasing policy gives renewed insight on the significant politicians of the era such as Sir Donald McLean John Balance and John McKenzie who were strong advocates of expanded and state controlled land purchasing **An Age of Hubris** Timothy Keegan, 2023-07-05 An Age of Hubris is the first comprehensive overview of the impact of missionary enterprise on the Xhosa chiefdoms of South Africa in the first half of the nineteenth century chronicling a world punctuated by war and millenarian eruptions and the steady encroachment of settler land hunger and colonial hegemony With it Timothy Keegan contributes new approaches to Xhosa history and most important a new dimension to the much trodden but still vital topic of the impact cultural social and political of missionary activity among African peoples The most significant historical works on the Xhosa have either become dated foreground imperial colonial history or remain heavily theoretical in nature In contrast Keegan draws fruitfully on the rich Africanist comparative and anthropological literature now available as well as extant primary sources to foreground the Xhosa themselves in this crucial work In so doing he highlights the ways in which Africans utilized new ideas resources and practices to make sense of react to and resist the forces of colonial dispossession confronting them emphasizing missionary frustration and African agency *White*

Supremacy George M. Fredrickson, 1982-02-04 The history of race relations on two continents is enormously enriched by this comparative study

Hate the Old and Follow the New Tilman Dederling, 1997 The first comprehensive study of the interaction between the European missionaries and Africans in precolonial Namibia focusses on the expansion of the colonial frontier Africans entered a new world of social relations where they faced the transformation of their societies in an ambivalent manner Irrespective of the final and unpredictable outcome of the contest for power many Africans encountered new challenges with initiative and determination Franz Steiner 1997

Governors and Settlers M. Francis, 1992-03-03 In nineteenth century settler colonies such as Upper Canada New South Wales and New Zealand governors not only administered they stood at the head of colonial society and ordered the festivities and ceremonies around which colonial life centred Governors were expected to be repositories of political wisdom and constitutional lore *Governors and Settlers* explores the public and private beliefs of governors such as Sir Thomas Brisbane Sir John Colborne Sir George Grey and Lord Elgin as they struggled to survive in colonial cultures which both deified and vilified their personal qualities

Imperial Benevolence Jane Samson, 1998-07-01 This insightful analysis of British imperialism in the south Pacific explores the impulses behind British calls for the protection and improvement of islanders From kingmaking projects in Hawaii Tonga and Fiji to the antislavery campaign against the labor trade in the Western Pacific the author examines the deeply subjective cultural roots permeating Britons attitudes toward Pacific Islanders By teasing out the connections between those attitudes and the British humanitarian and antislavery movements *Imperial Benevolence* reminds us that nineteenth century Britain was engaged in a global campaign for Christianization and Civilization

Inadvertent Expansion Nicholas D. Anderson, 2025-01-15 In *Inadvertent Expansion* Nicholas D. Anderson investigates a surprisingly common yet overlooked phenomenon in the history of great power politics territorial expansion that was neither intended nor initially authorized by state leaders Territorial expansion is typically understood as a centrally driven and often strategic activity But as Anderson shows nearly a quarter of great power coercive territorial acquisitions since the nineteenth century have in fact been instances of what he calls inadvertent expansion A two step process inadvertent expansion first involves agents on the periphery of a state or empire acquiring territory without the authorization or knowledge of higher ups Leaders in the capital must then decide whether to accept or reject the already acquired territory Through cases ranging from those of the United States in Florida and Texas to Japan in Manchuria and Germany in East Africa Anderson shows that inadvertent expansion is rooted in a principal agent problem When leaders in the capital fail to exert or have limited control over their agents on the periphery unauthorized efforts to take territory are more likely to occur Yet it is only when the geopolitical risks associated with keeping the acquired territory are perceived to be low that leaders are more likely to accept such expansion Accentuating the influence of small seemingly insignificant actors over the foreign policy behavior of powerful states *Inadvertent Expansion* offers new insights into how the boundaries of states and empires came to be and captures timeless

dynamics between state leaders and their peripheral agents

The China Firm Thomas Larkin, 2024-03-19 What roles did Americans play in the expanding global empires of the nineteenth century Thomas M Larkin examines the Hong Kong based Augustine Heard Company the most prominent American trading firm in treaty port China to explore the ways American elites at once made and were made by British colonial society Following the Heard brothers throughout their firm's rise and decline The China Firm reveals how nineteenth century China's American elite adapted to colonial culture helped entrench social and racial hierarchies and exploited the British imperial project for their own profit as they became increasingly invested in its political affairs and commercial networks Through the central narrative of Augustine Heard Co Larkin disentangles the ties that bound the United States to China and the British Empire in the nineteenth century Drawing on a vast range of archival material from Hong Kong China Boston and London he weaves the local and the global together to trace how Americans gained acceptance into and contributed to the making of colonial societies and world spanning empires Uncovering the transimperial lives of these American traders and the complex ways extraimperial communities interacted with British colonialism The China Firm makes a vital contribution to global histories of nineteenth century Asia and provides an alternative narrative of British empire

Writing the Ancestral River Jacklyn Cock, 2018-03-01 Writing the Ancestral River is an illuminating and unusual biography of the Kowie River in the Eastern Cape This tidal river runs through the centre of what used to be called the Zuurveld a formative meeting ground of different peoples who have shaped our history Khoikhoi herders Xhosa pastoralists Dutch trekboers and British settlers Their direct descendants continue to live in the area and interact in ways that have been decisively shaped by their shared history Besides being a social history this is also a natural history of the river and its catchment area where dinosaurs once roamed and cycads still grow As the book shows the natural world of the Kowie has felt the effects of human settlement most strikingly through the establishment of a harbour at the mouth of the river in the 19th century and the development of a marina in the late 20th century Both projects have had a decisive and deleterious impact on the Kowie People are increasingly reconnecting with nature and justice through rivers Acknowledging the past and the inter generational racialised privileges damages and denials it established and perpetuates is necessary for any shared future By focusing on this little river the book raises larger questions about colonialism capitalism development and ecology and asks us to consider the connections between social and environmental injustice
